SUBJECT "Take the Extra Step for Safety" Program

REFERENCE :

TO :

Any good action plan involving 1620 individuals should have somebody in reserve. We are asking you to be our reserves for the "Take the Extra Step for Safety" program. Although you were assigned several job performers to contact initially, we need your help to fill in where problems have occurred. It is important that every job performer be contacted for the program to be successful. Please contact the additional persons whose cards are enclosed. If for any reason you are unable to make this contact, please let me hear from you.

Charles E. Scott
