Dear Dr. Blakey,

Thank you very much for your letter concerning the alleged asbestos problem. I look forward very much to hearing from Dr. Holmes what his thoughts are on this matter, so that I can advise the University accordingly.

I was very gratified to read the statement at the end of your letter. I regard this function as one of the most pleasant which we hold in Senate house.

With kindest regards,

Yours sincerely,

[Signature]
R.S. Lythall
Professor of Chemistry.
