6 Chemical Waste Disposal

No permit required if:
1. Own & Operate landfill
2. No liquids or hazardous matl

Will continue to operate landfill other than (2) which is most of our waste now going to landfill.

Look over my area to see that we have all pesticides covered!!
by 2/15/74

If toxic dump projected use is cancelled, we are in deep problems — mine:

1. P.N.A. Mud
2. Mortars?

Feedback to Bill & Steve.
