article; is that what you are saying?

A That is true. I am not aware of every single article on asbestos or mesothelioma.

Q In 1992 you testified that the background rate of mesothelioma was two or perhaps as many as two to four per million, correct?

A Yes.

Q And isn't it true, sir, that that NCI article to which you refer does not take into account the asbestos-caused mesotheliomas within the population?

A Talks about the general population.

Q Yes.

A Yes.

Q Now, if a worker doesn't know a product that the worker is using contains asbestos, and they take a history from the worker, they are going -- the worker is going to say, I have never been exposed to asbestos, correct?

A When you say --

Q Well, you put up a bunch of studies that
