Mr. R.N. Potter,
Chief Chemist,
Bird & Son Inc.,
Shreveport, Louisiana
U.S.A.

Dear Mr. Potter:

We are sending you by transport one box containing 11 sets of shingles for two tab only exposure at Shreveport. These shingles are identified as Codes 939 through 949. Please arrange the exposure of these shingles as usual.

For your information, Harry Meiner is now our Winnipeg Plant Manager and I have assumed his responsibilities for Quality Assurance. As soon as I can find the time I intend to visit Shreveport to check our current exposures. I will suggest possible dates as soon as I can foresee them.

Yours truly,
