

Interoffice Communication

To Tom Blazek - Ponca City
From J. A. DeBernardi
Date February 5, 1982
Subject LAB - VCM - LCCP Railspur Tie-in Project

With reference to your letter of January 28 on the subject and its attached track layout plan, the VCM Plant is in agreement with the proposed track layout. If a north "Y" track is installed at a future date we would accept the 11° curve option for the "Y" and be able to live with it. We cannot, however, give up any of the existing plant trackage at the VCM loading racks.

A handwritten signature in dark ink, appearing to read "J. A. DeBernardi", with a stylized flourish at the end.

Congratulations on attaining a perfect record of work attendance during the 1981 calendar year. Enclosed you will find a gift selection catalog for your use in choosing a gift to commemorate your perfect attendance accomplishment. Please make your choice as quickly as possible and return your order form to Bill Howell. I hope the gift chosen will serve you and your family well over the coming years.

Sincerely,

J. A. DeBernardi
