Subject discussed briefly before I left on trip.

Justification for shipping through Corporacion del Cobre (CODELCO) follows:

1. CODELCO is a Chilean Government agency controlling 100% of copper mines in Chile.
2. CODELCO can import duty free and without import license (as government agency).
3. Import is specifically destined for Sindelen (Santiago) and Rhona (Quilpué, near Valparaiso) who supply transformers to the copper mines.
4. No one else will be allowed to handle the askarel, and attached is the letter of guarantee signed by CODELCO attesting that they are purchasing on behalf of Sindelen and Rhona.
5. We already have letter of agreement from both Sindelen and Rhona on file.

Hope this will serve to justify exemption for the in-house order now awaiting shipment.
