Dear Alice:

I have reviewed the proposed test and format for the new member orientation package. The format is a good idea. It certainly provides the flexibility to make necessary text changes in particular areas as needed (and surely will be in the next few years) with little expense.

My only comment on the text deals with the "history" card (attached). This seems to be a bit brief and leaves you hanging from the date of incorporation. One might ask, "what happened next?" I'd suggest expanding this to include at least some indication of the association's growth.

Sincerely,

Thomas G. Grumbles, CIH
Director, Industrial Hygiene
and Product Safety
