

1 it down, in the course of that 10 minutes, did that
2 create any dust?

3 A Oh, yes, the grinding did.

4 Q And could you describe for us the amounts of
5 dust that that would create?

6 A I couldn't say exactly how much, but it was
7 quite a bit.

8 Q On average, and I know it varied from time
9 to time, but can you approximate for us how many brake
10 lining jobs you would do per week at that job?

11 A Maybe two, maybe three or maybe not any.

12 Q How long did you work at the Preston Street
13 garage?

14 A From 1945 to 1962.

15 Q Now, the other mechanics that worked on the
16 shifts that you worked, did they do the same type and
17 the same amount of work you did as general mechanic?

18 A Yes.

19 Q You described for us the process of putting
20 on a brake lining.

21 How long would it take to do a brake job?
