O. A. Klinger

Mr. R. G. Earnheart
[illegible]

Bechtel's Insulation Specifications N-2, N-3, N-4 and N-5; fireproof drawings' Nos. B-[illegible] R/1 and C-[illegible] R/1; and copies of Union Asbestos and Rubber Company's May 18, 1961 telegram on the fire resistance of their mineral block to be used over the U-200 material on cold towers and vessels have been reviewed and approved by the FIA.

The attached copies of Mr. W. H. Doyle's August 21, 1961 letter and Mr. R. G. Shiselak's September 6, 1961 transmittal letter is your evidence of approval.

Please let me know the possibility of making the tests requested by Mr. Doyle.
