SUBJECT: Use of Asbestos at the Canton Plant

Investigation reveals there are several areas and conditions where asbestos is used in Maintenance.

The Maintenance Department is the only section that utilizes this material and for the following purposes.

- Asbestos sheets, size 1/4" x 42" x 48" - Code 68-40-020 from the Edward R. Hart Co. *

- Asbestos roll, size 1/8" x 36" x 60' - Code 68-40-210 from the F. B. Wright Co. *

* used for general use fire protection, heat deflection:

They also use an asbestos rope 1" round - Code 06-85-010 from the Canton Supply Company - for automatic furnace packing -

All pipe coverings are done by outside contractors and not used by our employes.
