peoples who are today united to defend their liberties and maintain the peace of the world," he said.

"We shall succeed."

Mrs. Ridgway and their three-year-old son Matthew Jr., accompanied Ridgway aboard his plane. Haneda airport, the main international air terminal for Japan, was closed to commercial traffic for two hours to accommodate the ceremony.

Ridgway's schedule calls for him to arrive in Honolulu at 8:30 a.m. He will leave tonight for San Francisco, where he is due about 8 a.m. PDT Tuesday.

He will report to President Truman and the joint chiefs of staff in Washington May 19.

In conference with the President and the joints chiefs, Ridgway undoubtedly will make known personally his agreement with Washington's policy of limited defense war in Asia and concentration of strength in Western Europe.

Ridgway's departure today recalled the fanfare occasioned by the departure of his predecessor, Gen. Douglas MacArthur, in April, 1951.

Medical Mercy Flight

ST. JOHN'S, Newfoundland (AP) — A U.S. Air Force plane from Pepperell Air Base near here flew medical supplies to Goose Bay, Labrador, yesterday to combat a measles epidemic in an isolated Eskimo community.

Knock Out Enemy Railroads

SEOUL, Korea (AP) — United Nations warplanes today blasted the North Korean rail network with another of their new saturation bombings designed to make track repairs as tough as possible for the Reds.

The U. S. Fifth Air Force said fighter-bombers made 29 cuts in a short stretch of the vital Kenggye-Sinanju line near Hulchon in the northwest. Nine U. S. B29s hit the Hulchon rail bridge yesterday with 90 tons of bombs. Fighter-bombers cratered rails in more than 80 places on a small section south of Sunchon at the same time.

The stretches of track are on main rail routes from Manchuria to the North Korean capital, Pyongyang.

LENGTHEN REPAIRS

In the past two weeks, UN warplanes have been concentrating bombloads in short sections of the main lines. This makes repair work more difficult for the Red track crews, who have been able overnight to repair cuts by only a few bombs.

U. S. Marine Corsairs and Panther jets attacked Communist front lines Monday. The Air Force said they wrecked 16 bunkers and destroyed eight gun positions with explosives.

A U. S. Eighth Army briefing officer said a "rough little fight" broke out Sunday when 15 grenade-throwing Reds struck at a United Nations position northeast of Kumhwa on the central front. The Reds withdrew after a sharp, 20-minute fight.

UN troops threw back three Red probes on the western front and six on the eastern front in the Mundung Valley.

M'Arthur Knew He Had Reds on Rope, Says Aide

BALTIMORE (AP) — One of Gen. Douglas MacArthur's former high aides says that the ousted commander knew he had the Communists just about knocked out in Korea as a result of an intercepted enemy message.

As a result, said Brig. Gen. Bonner Fellers (ret.), MacArthur proposed that the Reds "talk truce or cease fire."

Fellers, former chief of psychological warfare for MacArthur, told of the mysterious note in a recorded speech last night.

The former aide stated it was sent by Communist troop commanders intended for headquarters in Peking.

Fellers quoted the message translated as:

"We are out of ammunition. We are in a very untenable position at the front. Our losses are terrific. We've got to have tanks, we've got to have supplies and we've got to have air power. Get us a cease fire until we can build up."

"As a result of that message," Fellers said in the broadcast, "MacArthur asked his opposite number, the Chinese commander, to talk truce or cease fire."

"This was one of the reasons MacArthur was fired out. They said he'd gone way beyond his job as a military commander."

President Truman fired MacArthur 13 months ago after the general had advocated a stepped up war against the Chinese Communists.

board for Propaganda

PANMUNJOM, Korea (U.P.)—The Communists defied the United Nations today to break off the Korean armistice negotiations.

They bitterly denounced the UN treatment of war prisoners and arrogantly served notice that they intend to use the daily negotiating sessions solely as a sounding board for Red propaganda — unless the allies accept Communist truce terms or suspend the talks.

Vice Admiral C. Turner Joy, chief UN delegate, emerged in an angry mood from the conference tent after the 52-minute session. He said the Reds had poured a flood of "invective, distortions and palpable lies" on the allies.

VICIOUS BLASTS

"We were subjected to one of the most vicious propaganda blasts we've ever had," he said. "The Communists told us in effect that unless we intend to disrupt the meetings, they would insist on meeting every day and would in effect use these meetings overtly for propaganda."

North Korean Lt. Gen. Nam Il, reading from a prepared statement, hurled charges against the UN of massacres, barbarous measures, blood-stealing, forced tatooing, maltreatment of prisoners and discriminate insults.

Included in the long list of charges was a "serious protest" for an alleged strafing attack by four allied planes against a prisoner of war camp at Kangdong in North Korea.

UN PRISONER HURT

Nam said four UN prisoners were injured in a recent attack on the camp, the same one Communist negotiators claimed was bombed by allied planes last January.

The North Korean general formally requested that UN "insure against a reoccurrence of such incidents in the future." Joy acknowledged the charge and said an appropriate investigation would be made.

Then Joy shot back that it was "clear to the world that your intent in calling these meetings is one of propaganda, not one of achieving an armistice."

UN Spokesman Brig. Gen. William P. Nuckols said the Reds apparently had new orders from the Communist high command to continue plenary sessions every day at any cost.

Bloody Battle Hits Western Germany

BONN, Germany (AP) — West Germany's impending peace contract brought a bloody weekend battle to industrial Essen and reports today that East Germany's Communist rulers are readying a drastic set-up in the cold war against the West and tighter Russian-East German ties.

One young Communist was killed in the Essen riot, in which police gunfire broke up a clash between anti-Reds and 30,000 Communist-led youths demonstrating against plans to rehrm West Germany for Western defense. Scores of demonstrators were injured and 10 young Reds were held as suspected ring-leaders of the riot.

Here in the capital, meanwhile, Chancellor Konrad Adenauer met with rebellious leaders from his government coalition forces. Their opposition to the peace pact threatens its chances of ratification by the West German parliament.

TELEVISION! RADIO AND ELECTRONICS
NOW IS THE TIME FOR YOU TO GET INTO THIS FAST MOVING INDUSTRY
The freeze on Television Channels has been lifted! There will be an immediate demand for trained men and women to man the new stations, install and repair sets and manufacture, distribute and sell new sets and equipment.
2,000 TV Stations
will be in operation over the U.S.A. instead of only 108 today. This means that your opportunities in this vast new industry was never greater.
The Heald Television Course meets this new demand in either its Day or Evening Classes. In addition Heald's offers "Refresher Courses" for man trained in radio and television and who wish to be brought up to date on Ultra High Frequency and Color Television.
Train at Healds, the outstanding Television Training School on the Pacific Coast.
The expenditure of time and money to come to San Francisco and take this Television Course will be well worth your while.

FLUORIDATION OF PUBLIC WATER SUPPLY

Notes taken from the Journal of the Hastings College of Law, San Francisco, Spring Issue, 1952.

So far, we have only a partial understanding of the causes of dental caries. Nevertheless, fluoridation of water has been introduced as partial prevention. This treatment is acknowledged as being only a partial combatant and that is does not dispense with the need for normal dental care.

Fluorides can be highly toxic; continued overdosage will produce mottled teeth—fluorosis—which in its advanced stage destroys the enamel. Overdosage may be lethal.

Fluoridation contravenes state and Federal law, as it is compulsory "mass medication." A bill to authorize fluoridation of public water supplies was defeated in the California State Legislature in the session of 1951. Later, a bill providing for sale of fluoridated bottled water for domestic use and properly labeled, was passed. Has the State Board of Health, then, the authority under state statutes to fluoridate the public water supply?

The Bureau of Child Hygiene is not authorized to force medical nor physical examination of children except in epidemics of contagious or infectious diseases. Can it then for dental caries, not a contagious nor infectious disease, force any direct form of medication? And in the light of the above, and the authorizing of the sale of fluoridated bottled water, can it be said that the Board has the right to authorize fluoridation of public water supplies? It appears not.

Again, assuming that the state could employ some preventative for dental caries in children, is fluoridation of public water reasonably adapted

Monterey Peninsula Herald. May 12, 1952. P7
