Re: PBB Contamination Cases in Michigan

Dear Mr. Schenk:

In accordance with our telephone conversation today, I enclose Monsanto Product Specification, Product Biphenyl, Grade Technical, Code No. 82601, Date effective, January, 1975 (1 page); and Monsanto Technical Bulletin IC/FF-29, Biphenyl (diphenyl, phenyl benzene). I reported to you in our telephone conversation what Monsanto had advised me relative to tests made on biphenyls in January, 1975 for dibenzofurans. I also reported to you on previous tests made by Monsanto on biphenyls for dioxins. I likewise advised you that we had felt it encumbent upon us to advise Michigan Chemical of the material and information which we are furnishing to you.

I was interested in your report that in the use of biphenyls in the making of the product involved in your lawsuits the defendant in those lawsuits had added material which caused significant changes and foreign substances. You advised me that you would send me the report of your experts and I will appreciate receiving this. You likewise advised me that you were forwarding to me a sample copy of the answer to complaints which has been filed in the suits brought by you.

Very truly yours,

Lon P. MacFarland
