Latest Styles in House Painting

WE are taking this early opportunity of advising our trade of the colors in house paint that will be popular and in demand during 1908. There are six handsome combinations in vogue this year. Every Sherwin-Williams Agent should carry sufficient colors in S. W. P. to paint at least one job in each combination. If you have placed your stock order check it up with the following colors and place a small fill-in order if necessary. Be fully equipped with the fashionable colors. Don't overlook the advantage of 5-gallon packages of good sellers. They cost less than 1s and can be sold at the same price per gallon.

A big opportunity for the Home Builder

G**R****E****A****T** many people who appreciate and want artistic homes are not able to select the materials or the harmonious combinations of color which make the house a place of rest and good taste. Proper facilities, a natural aptitude for the work and a wide knowledge of the use of paints, varnishes, stains, enamels and other decorative coatings; a knowledge of draperies and rugs, styles of furniture and so on is necessary in order to get pleasing and durable results within a reasonable cost. Busy with other interests,

few have the opportunity to investigate the possibilities of artistic yet practical decoration. An unusual opportunity is now open to those readers of
