EPA/Envirogenics Co. has requested a sample of our PCB waste water effluent. Des Hosmer recommended that you be the one to handle it. Please make sure that we retain a duplicate sample and that we know the level of PCB before it is sent.

Please send the sample to:

K. H. Sweeny, Ph.D.
Envirogenics Co.
9200 East Flair Drive
El Monte, Calif. 91734

and let me know the results and when it has been sent.

Thanks for your help.
