Dear Mr. Jackson: Re: Askarel Transformer Fluid

This is a follow-up on our phone discussion of 2/7/78.

Enclosed is a statement of toxicity and safe handling of Askarel which you should be able to use for your purposes. If this does not meet your needs, please let me know.

The individual whom we discussed who had the skin irritation on his legs after a short exposure probably represents the end of the spectrum of individuals with very sensitive skin. The same general principles apply in emergency treatment of this situation -- immediate cleansing with water and then soap and water. Removal of contaminated clothing and laundering before rewearing should also be an important part of prevention.

If you have any additional questions on this matter, please let me know.

Sincerely,

James H. Spraul, M. D.
Senior Physician
