RELIEF... and security for the RUPTURED

NON-SKID SPOT-PAD TRUSSES

While trusses may be considered a necessary evil, that is no reason why you should be resigned to the wearing of a clumsy harness.

The Non-Skid Spot-Pad Truss will hold your Hernia just like your finger tips - with traction of the pressure of ordinary trusses.

Hernia when treated in the early stages can often be cured, and the application of this scientifically constructed Truss with the raised Spot-Pad helps to hold the Hernia, thus assisting nature.

Our trained fitters will gladly demonstrate this new appliance, also the various types of Abdominal Supporters, Elastic Hosiery, Shoulder Braces, etc.
