

Memorandum

Bendix

Bendix Friction Materials Division
Green Island, New York

Date: January 21, 1988

To: J.N. Bateman

From: E.L. Rogers

Subject: California Proposition 65 - Asbestos

On 1/18/88, a meeting was held in Morristown to discuss the manner in which Allied-Signal should respond to the labeling requirement of the subject noted above. Representatives of Corporate and Sector Health, Corporate Legal and AAD were present.

The final decision (which will be released in written form after thorough review by our Legal Staff), will state that our present federal OSHA asbestos "Danger" label meets the intent of the California statute.

Thus, no additional labeling will be required for our products entering "the stream of commerce" in California.
