Meeting with RH 9/2 - decided to leave in long Ned Pitzell wanted out.

Attached is the most recent draft of a news release (re the PCB worker study at WGK) for your comments and/or approval.

The information in this version is essentially that conveyed to Business Week during a telephone interview with Dr. Roush and Mr. Harbison yesterday.

This information will be of great interest nationally. My feeling is that, now that we have given it to BW, we have the responsibility to share it with other news media on a full-disclosure basis, rapidly.

With this in mind, and assuming everyone concurs, I would like to issue the information tomorrow or Friday at the latest. (It will be in print in Business Week next Monday, Sept. 6.)

I would therefore appreciate your prompt attention.

Thank you.

D R Bishop
