Attached is a bulletin being mailed to all registered Showcase and Custom Showcase Retailers. Read it carefully and be completely familiar with the content as it is important information for retailers and more importantly installers.

The bulletin is also being sent to Distributor Management and Salesmen. Attached is a copy of these cover letters.

We are sending additional quantities of this bulletin to each Distributor so that they can be made available to other retailers and installers. A supply is also being sent to district sales offices for your use and for additional requests from Distributors.

If additional quantities are needed, they should be ordered in the normal manner on Form #40.
