BCC: Mr. F. J. Fitzgerald

Note to Mr. Fitzgerald
You might be getting similar letters, and certainly we don't want anyone indicating they are buying Monsanto's PCB facilities.

Dear Mr. Loeser:

Your letter of October 20 to Mr. Hanley pertaining to Monsanto's withdrawal from the PCB market was called to my attention since this product is in my area of responsibility.

It is true that Monsanto plans to withdraw from the PCB market, but the facilities referred to are part of a major organic chemicals plant and certain of the equipment will be used for production of other products. Therefore, we have no interest in selling this plant.

Thank you, however, for writing us.

Very truly yours,

H. H. Bible
