

**economical...SAVES DECORATING**

Applied over Gypsum plaster base coat, Oriental Interior Colored Finish "does it all"—in one operation. The room is beautifully plastered—and decorated in your choice of six lovely colors or white. It really saves time, effort, expense!

**Saves time...SPEEDS OCCUPANCY**

Preparation time's reduced because Oriental is mill-prepared. Just mix with water on the job. And because it tints as it finishes, there's no decorating delay. The room's ready for use in a hurry!

**ORIENTAL INTERIOR COLORED GYPSUM FINISH PLASTER****EASY TO MIX**

Hoe Oriental Interior Colored Finish Plaster into clean water. After a 20- or 30-minute soak, it's ready for a thorough mixing to a smooth, creamy easy-working consistency. Must be applied to a set, "half-green" base coat of gypsum plaster.

**SIMPLE TO APPLY**

Scratch in a thin coat, well ground into the base coat, and double back with a second coat, filling out to a true, even surface. For smooth float surfaces use wood shingle, sponge rubber, or carpet float. Apply in any texture except smooth trowel finish. Do not use water while floating.

Note: Covers about 250 to 300 sq. yd. per ton, depending on texture used.

DO NOT DESTROY

INTERIOR COLORED FINISH PLASTER

FOR DISTINCTIVE ROOM EFFECTS

**thrilling decorative effects!**

NO PAINTING!  
NO PAPERING!

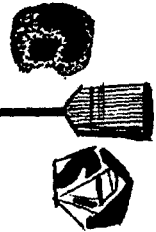

There's practically no end to the finished effects you can achieve with ORIENTAL Interior Colored Finish. Applied  $\frac{1}{8}$ " thick over gypsum base coat plaster, ORIENTAL responds beautifully to smooth float finishes or rugged "old mission" textures. Select the color and the special effect you want. Mill mixed and uniform, ORIENTAL provides a beautiful, hard and lasting finish. Makes any room distinctively attractive—in a hurry—at a saving.

For smooth float finishes—use

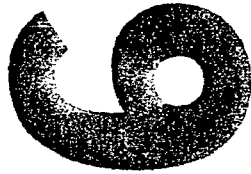

CORK  
WOOD  
CARPET

For rough textures—use

BROOM  
SPONGE  
PAPER  
(wadded)
