October 14, 1968

Mr. A. C. W. Pemberton
NEWPORT

Dear Pem:

I wanted to thank you for all the courtesy and hospitality you extended to me on my recent visit to Newport.

I am indeed sorry that we did not plan more time as we certainly could have used several hours more. Frank MacDonald did a splendid job of getting us to the train station on time in spite of the road block that existed that day.

I am now following the progress of your construction program on biphenyl by the pictures and am pleased to see the progress you are making.

We will be looking further into the storage problem on Aroclor to see if there is some relief that can be justified.

Enclosed is a picture which Costas took on his last visit to Newport and which I meant to give you, but in the rush of things forgot it. They certainly are three handsome gentlemen and you may wish to keep this among your souvenirs.

My best regards to Frank MacDonald, Jim Whittaker, Jack Pennington and Harold Disley as well as Jeff and Pat and all the others that made the visit interesting and worthwhile.

H. S. Bergen
