Although the German war machine is moving along smoothly, all is not well within the Reich.

The morale of the German people under heavy bombing is holding up well—but they are tired and sick of war.

Hitler and his ferrets have the German people terrorized.

DU PONT PRESENTS TWO PAINTS TO BRIGHTEN YOUR HOME IN WARTIME

Home Owners Praise Du Pont Self-Cleaning House Paint

Titanium Pigment Paint Developed by Du Pont Chemists Keeps White Houses White; Still Available at Du Pont Paint Dealers

The paint that actually "cleans itself" has won high praise from home owners all over America. And now the Du Pont laboratories announce that this self-cleaning paint is still available to home-owners who want to give their homes this extra beauty and protection.

Why is Du Pont House Paint so brilliantly white? Because it's made with titanium dioxide, the pigment that's even whiter than snow! This paint stays white, too, because it's self-cleaning!

Experienced painters know that Du Pont Self-Cleaning House Paint means lasting whiteness for the houses they paint.

Keeps White Houses White

Du Pont House Paint is so formulated that, as time goes by, a microscopically fine white powder forms on the surface. Heavy rains wash this powder away, taking dust and dirt with it, and leaving the surface clean and white again. (Excessive accumulations of dirt, particularly in sooty industrial communities, or in heavily shaded locations, may delay or interfere with this process.) Because this "self-cleaning" is gradual, the wearing qualities of the paint film are not abnormally affected.

Guards the Surface

Du Pont House Paint forms a beautiful, durable coating that protects against rust, rot and decay. Also available in popular tints.

Yet Du Pont House Paint costs no more than other good paints. Call in a reliable painting contractor for your painting jobs. He'll be glad to use Du Pont House Paint.

When you paint your house, use the paint that gives it both lasting beauty and lasting protection.
