closet and good ventilation. lation dollars were saved by ng the bathroom directly the lavatory and kitchen ing below.

s really hard to believe that uch living can be included y 576 square feet of space e first floor and 600 square n the second floor. With a asement and not including e there is a total cubical nt of 15,480.

s plan conforms to F.H.A., and building code require- and building code require- s. For free detailed infor- n about type of construction, rints, reverse plans, room loset sizes etc., of this house, ss the home building editor s newspaper.

7 months, have been transferred here from Texas. Bowling and sewing are the family hobbies.

LOW

With civil service at Travis AFB is Stephen Low who has moved his wife and the couple's children, Warren, 3, and Silvia, 16 months, here from Oakland. Mrs. Low's hobby is sewing.

FOSTER

S. Sgt. and Mrs. Norman R. Foster have come to Fairfield from Antioch to make their home. Hobbies of the couple are sewing

you said you wouldn't go through another summer without air conditioning? Summer will soon be here. This is the time to call on an experienced heating - cooling contractor for advice on the type of summer cooling equipment best suited to your house and budget.

If you have a modern hydronic (hot water) heating system, says the Plumbing-Heating-Cooling Information Bureau, cooling can be combined with the heating equipment or it can be operated independently.
