PCBs/A.S.E.A. AUSTRALIA

Mr. J.M. Haggart,
BRUSSELS

We have submitted to A.S.E.A. Australia our letter acknowledging that they have been adequately warned of the persistent effects of PCBs. This will be referred by A.S.E.A. to their principal, Liljeholmes Kabelfabrik of Sweden.

It would help to know what reaction you have obtained from Liljeholmes Kabelfabrik and what their intentions are with respect to the continuing use of PCB dielectric fluids under the conditions imposed by Monsanto.
