fibers, correct, per cc?

A 125 most likely would be very short-term exposure.

Q You do agree that those types of exposures do take place during the grinding of brakes?

A Yes.

Q Now, another article, I think, that you may have been asked about briefly, is one that was published by Dr. McCaughey and Dr. Langer, is that correct, called Mesothelioma in a Brake Repair Worker from the journal called the Lancet?

A Yes, it is a case report.

Q It is a case report. And this is a case report of a person working with brake materials who had absolutely no other history of exposure to asbestos from any other source and who got mesothelioma and who, because they were fortunate enough to have lung tissue to look at, showed presence of asbestos fibers in the lungs, correct?

A Yes.

Q Let's look at the beginning. This was
