MON-2957

Hourly Safety Committee 1/25/77

1 M. K. Zeller 3[illegible]
6 FRANK RADLER 3525
4 Don Leach 4143
5 W. H. McDonald Jr. 3952
2 W. B. Baker 3017
3 Wayne Bryce 4048
1 Ron Albrecht 4200

1 Raise Ramp to make it level - have to jump down or step on something - This had been given to H. J. Stroud on several occasions - what is the hold up

2 Dept 19-25 giving evasive answers -

3. Radios - supposedly approved for material handling but can't justification written. Off hours have only 3 radios x approved all the way through Geo. Danner.

4. Notify - Dept 35-44 that this is a smoking area.

New Business

LAM013904

Zeller 1. Matting in shop (machine) supposed to be ordered.

Radler Nothing fulers out -

SC 12709

Don 1. Nothing - lot of movement x

McDonald - Nothing

SC 12710

Baker - Nothing

Wayne - Irons in fire - give opportunity - drifts -

Ron - 1. Telephone problem in cafeteria tripping hazard - do something with wiring or relocate phone

Baker - Freeze protection problem - early warning system info from site supt not given early enough.

Ron 2. T.B.A. Fumes from TBA loading fumes real bad - when wind out of certain direction fumes blow right on you. An automatic system completely enclosed has been looked at six months ago what is status - what is hazard x

A verbal preliminary report on the case involving days away from work was given to the committee.

In addition and explanation of the new methods of recording and reporting occupational Injuries and Illnesses as adopted by the corporation and the National safety Council was presented to the committee.
