FROM (NAME - LOCATION - PHONE): Evan J. Young - Akron 160 (330)

DATE: August 20, 1981

cc: S. O. Dingler - A3NG

SUBJECT: POLYCHLORINATED BIPHENYL FILE

REFERENCE: My bulletin 8/19

TO: Mr. J.R.G. Ortiz
Law Department
E2ND - G.O.

Per our discussion, here is my own rather voluminous personal file of information relating to PCB's. Titled "Therminol", it deals almost exclusively with matters relating to our Akron heating and cooling system.

Going back to the construction of this Akron Marketing and Research Center in 1968, it is built up in ascending order ('68 on the bottom, '81 on the top).

Working with me in District Office Management Administration are Messrs. Finch and Gatens. I have asked for their files, and will forward them to you. Their material will be overlapping and duplicating with mine.

After is has served its purpose please return this file. I have not retained copies of anything except the current request to review Akron files, which I need in my contacts with the Opunits.

Evan
