WALKERS AGREEMENT

T. L. Gossage
H. S. Bergen
P. J. A. Marsh/J. N. Haggart

W. R. Richard
L. R. Stark
W. R. Eberhardt
J. H. Davidson

Confirming our various conversations, we will meet Monday, September 27 at 1:00 p.m. in T-369 to discuss our agreement with Walkers.

The problem seems to me to be that the original agreement was written around our PCB fluids and adequate patent coverage in the U.K. - and our current fluids don't use PCB's plus our patent coverage at the time our agreement expires (October 14, 1973) is questionable. In our meeting I think we must decide:

1. Whether we are to proceed with Walkers.

2. If so, what are we to contribute.

3. What agreement will protect and remunerate us proportionate to our contribution.

C. L. Bradford
