Asbestos Metallic Red Core Packing

Coil Form, BELMONT 412

CONSTRUCTION . . . BELMONT 412 is made with a core of non-vulcanizing rubber, over which is braided multiple jackets of asbestos metallic yarn, the finished result being braided with an armor of copper wire. Furnished in all sizes $\frac{3}{16}$ " and over.

APPLICATION . . . High Pressure Steam service where rods are out of line or worn; where loads are uneven, requiring a rugged packing permitting an abundance of draw on the gland. Also used in combination with other styles for shotgun feeds, etc.
