Dear Colleague:

Enclosed you will find your copy of Volume 2, Number 4 of "The Kettering Abstracts of the Biological and Related Aspects of Lead and Its Compounds." We suggest that this be placed in the 1966 binder which you have previously received. As the pages are numbered in continuous order for each volume, it will probably be most helpful to place them in the binder in the same order (Note that Number 4 begins with page 175; page 174 being the blank last page of Number 3). Also included are a revised title page, contents page, and Author Index. The Subject Index will be forwarded with the next issue.

Very truly yours,

Don G. Fowler
