P. K. Ward
H. L. Williams
E. G. Wright

Messrs. Harvey Pickett and Jim McNally from Westinghouse Electric Corp., Bloomington, Indiana, will visit our plant on 10-3-67. The prime purpose of the visit is to discuss the best methods for handling Aroclor 1242 (Inertsen) to avoid problems of dermatitis and toxicology. While they are here it is a good opportunity to show them what we are doing toward improving the Aroclor quality. The following is the proposed agenda:

| | | |
|---|---|---|
| 8:30 - 8:45 | Welcome and Introduction | W. B. Papageorge |
| 8:45 - 9:15 | Discussion of Inertsen Handling | V. R. Haupt<br>J. MacPherson<br>P. K. Ward |
| 9:15 - 10:00 | Production and Shipping | H. L. Williams<br>H. L. Gray<br>V. R. Haupt |
| 10:00 - 10:30 | Technical Services and Quality Control | L. C. Fuhrmeister WFT<br>J. MacPherson<br>W. B. Dunlap |
| 10:30 - 11:00 | Control Analyses<br>Lab Tour | G. W. Miller<br>S. O. Kemp |
| 11:00 - 11:30 | Process Research and Development on Inertsens | J. G. Bryant<br>E. G. Wright |
| 11:30 - 1:00 | Lunch | |
| 1:00 - 2:00 | Plant Tour | J. G. Bryant<br>J. MacPherson |
| 2:00 - | Wrap Up Discussion | All |
