## PART 120—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

### Diuron

A petition (PF 6F0495) was filed with the Food and Drug Administration by E. I. du Pont de Nemours & Co., Wilmington, Del. 19898, proposing the establishment of a tolerance of 1 part per million for residues of the herbicide diuron on bananas. The petitioner later reduced the requested tolerance level to 0.2 part per million.

The Secretary of Agriculture has certified that this pesticide chemical is useful for the purpose for which the tolerance is being established.

After consideration of the data submitted in the petition, and other relevant material, it is concluded that the tolerance established by this order will protect the public health. Therefore, by virtue of the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2)) and delegated by him to the Commissioner of Food and Drugs (21 CFR 2.120; 31 F.R. 3008), § 120.106 is amended by adding to the end thereof a new tolerance, as follows:

§ 120.106 Diuron; tolerances for residues.

0.2 part per million in or on bananas.

Any person who will be adversely affected by the foregoing order may at any time within 30 days from the date of its publication in the *Federal Register* file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington, D.C. 20201, written objections thereto, preferably in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

**Effective date.** This order shall become effective on the date of its publication in the *Federal Register*. (Sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2))

Dated: December 19, 1966.

Deputy Commissioner of  
Food and Drugs.

## PART 191—HAZARDOUS SUBSTANCES: DEFINITIONS AND PROCEDURAL AND INTERPRETATIVE REGULATIONS

### Exemption of Painting and Other Coating Materials From Labeling Requirements

No adverse comments were received in response to the notice published in the *Federal Register* of October 6, 1966 (31 F.R. 13008), proposing that the regulation (21 CFR 191.63(a)(25)) that exempts, conditionally, cleaning and spot removing kits from requirements of the Federal Hazardous Substances Act be revised to include various painting and finishing kits. It is concluded that the proposal should be adopted with a change to clarify that the carton of such kits need bear the names of only those chemical components that make any article in the kit a hazardous substance.

Therefore, pursuant to the provisions of the act (sec. 3(c), 74 Stat. 375; 15 U.S.C. 1262) and under the authority delegated to the Commissioner of Food and Drugs by the Secretary of Health, Education, and Welfare (21 CFR 2.120; 31 F.R. 3008), and based on Commissioner's conclusion that full compliance with the labeling requirements of section 2(p)(1) of the act with regard to the subject kits is unnecessary for the adequate protection of the public health, § 191.63(a)(25) is revised to read as follows:

§ 191.63 Exemptions for small packages, minor hazards, and special circumstances.

(a) . . .

(25) Cleaning and spot removing kits intended for use in cleaning carpets, furniture, and other household objects, and kits intended for use in coating, painting, antiquing, and similarly processing various surface, furniture, furnishings, equipment, sidings, etc., are exempt from the requirements of section 2(p)(1) of the act; *Provided, That:*

(1) The immediate container of each hazardous substance in the kit is fully labeled and in conformance with the requirements of the act and regulations issued thereunder; and

(2) The carton of the kit bears on the main display panel (or panels) within a borderline, and in the type size specified in § 191.101, the following caution statement: "(Insert proper signal word as

specified in subdivision (III) of this subparagraph.) This kit contains the following chemicals that may be harmful if misused: (List hazardous chemical components by name.) Read cautions on individual containers carefully. Keep out of the reach of children."

(III) If either the word "POISON" or "DANGER" is required on the container of any component of the kit, the same word shall be required to appear as part of the caution statement on the kit carton. If both "POISON" and "DANGER" are required in the labeling of any component or components in the kit, the word "POISON" shall be used. In all other cases the word "WARNING" or "CAUTION" shall be used.

**Effective date.** This order shall become effective upon publication in the *Federal Register*.
