Dr. E. Scott Tucker
Monsanto Company
1700 South Second St.
St. Louis, Missouri 63177

Dear Dr. Tucker:

As I promised you at the PCB Analysis Meeting in Washington, September 17, I am sending under separate cover samples of 2,5,2',5'-tetrachlorobiphenyl and 2,4,5,2',5'-tetrachlorobiphenyl. I am also including some electron capture gas chromatograms of the compounds.

You mentioned that you have a preprint of Telling, Sissons, and Welti's paper on identification of PCB isomers by MS and NMR. I would like to have a copy of that paper.

Sincerely,

Ronald G. Webb
Research Chemist
