

1 The pipecovering before that time was called
2 this 85 percent magnesia. I know I am going kind of
3 fast, but my time is limited.

4 Back in the '30s, '40s, and even '50s, I
5 will just abbreviate it, because you are going to hear
6 a lot about it, this was a fluffy-type of covering.
7 You bump it and dust would come off.

8 This was a hard baked product.

9 Same document in the same place they found
10 their documents.

11 I am going to summarize it. We basically
12 asked here in 1952, December, what is the deal with
13 this Kaylo?

14 The general conclusion, they wrote back,
15 experience in the factories and field and animal --
16 and research findings have proven that normal handling
17 of Kaylo products is safe from a health standpoint.

18 You didn't hear that in the opening this
19 morning.

20 You are going to see some of that.

21 What they talked about is this study up in
