specify **CATAWISSA**

there is a
difference!

NEW DESIGN
OR OLD.

Catawissa UNION and VALVE dependability means LOWER
MAINTENANCE COSTS... with an EXTRA margin of safety!

HOT FORGED STEEL
AND
STAINLESS STEEL
UNIONS

STANDARD
1/8" TO 3"

Cold-Working Pressure
up to 2,000 pounds.

DOUBLE EXTRA
HEAVY
1/8" TO 3"

Cold-Working Pressure
up to 6,000 pounds.

The Catawissa seat design gives you a perfect
seal for every installation... even when the
pipe is not properly aligned... with its 55-de-
gree angle on the female end to a ball on the
male end!

HOT FORGED STEEL SWING CHECK VALVES
ESPECIALLY ADAPTED FOR
HIGH TEMPERATURE & HIGH
PRESSURE SERVICE!

For boiler injection... engineered
to outlast the boiler! Efficient,
easily accessible!

UNIONS * VALVES

and volatile, while braiding is constructed
of either galvanized or stainless
aluminum or bronze. Tubing is available
with high-speed, snap-on couplings for easy
connection. Honsflex Tubing Co., Phila-
delphia, Pa.

Rubber-Toothed Belt

A BELT WITH RUBBER TEETH does not slip
and operates virtually noiselessly on pulleys
grooved to fit the teeth. Belt is reinforced
with steel cables embedded in oil-resist-
ing synthetic rubber. Cable reduces stretch
to almost zero, eliminating need of take-up
devices to remove slack. It operates at
speeds up to 10,000 fpm. Belt is made in
sizes to meet machine requirements. I. B.
Chilmer Div., U. S. Rubber Co., Rocke-
feller Center, New York, N. Y.

Cleaner Sets

SET OF CLEANERS for acetylene welding
tips is contained in aluminum case to pro-
tect cleaners from being bent in welder's
pocket. List of cleaner sizes used with dif-
ferent drill numbers is stamped on back
of each case so correct size can be readily
selected. Standard set of 12 cleaners cleans
27 drill sizes from No. 74 to 49 while spe-
cial set cleans 19 drill sizes from No. 41
to 30. Cleaners are designed to clean tips
without damage to insure long straight
flame for clean slagless cuts. Thermacote
Mfg. Co., 420 S San Pedro St., Los An-
geles 13, Calif.

Wire Pliers

A COMBINATION WIRE STRIPPER and wire
cutter covers an unusually wide range of
wire sizes from No. 10 to 22. Known as the
AMP Yellow Jacket, because of its shock-
proof colored plastic handle, it incorporates
a built-in wire cutter, serrated plier jaw
and a handy stud-size gage. This tool elim-
inates necessity of carrying one or more
additional tools. The accurately sized strip-
ping notches also serve as a convenient
wire-size gage. Aircraft-Marine Pro-
ducts, Inc., 1416 N Fourth St., Har-
rington, Pa.

Conductivity Cell

THIS WAND-TYPE CONDUCTIVITY CELL may be
used as a dip cell reaching way down, as
it can be permanently mounted to place.
The V.O.I. conductivity cell has a sturdy
body of acid-resistant plastic, with leads
at one end and electrodes of bright plat-
inum at the other. It measures 2 1/2 in. long
and 1 in. outside diameter. For permanent
mounting it is provided with a bushing of

The long slotted, plated, roofed
and sided "Century" Asbestos
Corrugated, will withstand a
lifetime of service without main-
tenance or deterioration.

ASBESTOS IN ACTION

"Century" Asbestos Corrugated
heart to drill and cut on the job.

WHAT OTHER SHEATHING MATERIAL GIVES YOU ALL THESE ADVANTAGES?

If you're planning some new industrial construction, or remodeling,
it will pay you to look into the advantages of K&M "Century"
Asbestos Corrugated. Compare these features with those of any
other roofing and siding material:

1. FAST, ECONOMICAL CONSTRUCTION—19 available sheet sizes speed up
installation. New "Topside" fasteners eliminate costly scaffolding on
roof jobs, as all fastening can be done from atop the roof's surface.
2. STRUCTURAL STRENGTH—"Century" Asbestos Corrugated withstands
severe stresses, such as snow loads, other common conditions.
3. IMMUNITY to fire, weather, rust, corrosion, galvanic action. Being
made of asbestos and cement, "Century" Corrugated cannot fall victim
to these damaging forces.
4. ATTRACTIVE APPEARANCE—pleasing light gray color provides attrac-
tive, modern appearance... banishes that forbidding "gloom" so
characteristic of many industrial plants in the past.
5. FREEDOM FROM MAINTENANCE—"Century" Asbestos Corrugated
never needs painting, is highly resistant to oil, acids, brine, other
destructive agents.

Truly, here is the material adapted to today's industrial construction
needs. You'll find it ideally suited to the job you have in mind. If
you'd like to know more about it, just write us—we'll give your inquiries
prompt consideration.
