ADHESIVES MANUFACTURERS ASSOCIATION OF AMERICA

441 LEXINGTON AVENUE • NEW YORK 17, N. Y.

JAN 31 1962

January 29, 1962

Dear Dr. Kelly:

In reply to your letter of January 23rd, after long consideration the Ingredients and Labelling Committee decided to inform FDA that we no longer desired to have "chlorinated biphenyl" and "chlorinated terphenyl" included in the list of cleared substances in our Regulation.

It was the Committee's conclusion that these two substances are not used in food packaging where the adhesive might be close to food.

Sincerely,

Kenyon Loomis
