June 28, 1977

JUN 30 1977

Mr. Frank C. Dorsey, Ph.D.
Executive Director
Cooperative Health Information Center
of Vermont, Inc.
100 Dorset Street
South Burlington, Vt. 05401

Dear Frank:

I have discussed your proposal with my staff and with the union and we all agree that it is important to look to this question as part of our overall study on possible health effects at Windsor Minerals.

With this letter we authorize your full list of five tasks as defined in your letter of June 14, 1977. We would like to move forward promptly on this as your schedule permits.

Your contact here will be Mr. Larry Rodizza, Controller, who will make the necessary arrangements for your work.

I have described the project to Dr. J. C. Stevens of the medical staff at the Claremont Hospital and he has promised all possible help.

I look forward to your help in this matter.

Yours very truly,

WINDSOR MINERALS INC.

R. N. Miller
President
