folder is red but I am not sure.

Q. While we're on that point, we haven't discussed these folders yet.

Before this deposition began, we started reviewing certain documents that are in expandable folders, each is marked Asbestos Study Committee with dates after that name.

What are those documents?

A. They generally include what you just asked about, in other words, general correspondence that came in, went out, and stuff like that involving asbestos.

Q. Involving asbestos or involving Asbestos Study Committee.

I am talking about those particular folders now marked Asbestos Study Committee?

A. Well, yes that could have been any kind of bulletin to the membership alerting them to some particular problem or things like.

Q. Bulletins from you?

A. Bulletins from the office out to them, yes, stuff like that.

I believe the information you were just asking for.
