West Mifflin, Pa.

February 28, 1967

Monsanto Chem Co.
St. Louis, Missouri

Gentlemen:

It is the policy of Westinghouse to maintain and safeguard the health of persons involved in various manufacturing processes.

Therefore, it is desirable from an Industrial Hygiene and Safety standpoint to know the composition of certain products that employes might use while engaged in various tasks. In keeping with company policy, we would like to obtain information regarding the chemical composition of the product(s) listed below:

Pydraul F-9

Whatever information you divulge will be considered "Confidential" by this department. Your attention to this request is appreciated.

Very truly yours,

Robert Hohl
