M. Throdahl has asked Specialty Products Research for a review of technology on major programs. The tentative date is October 4, 8:30 AM to noon. Will you please note the date.

We will have our own review on Wednesday, September 26, 8:30 to noon. Throdahl will want the markets, the technical problems, the progress toward technical solutions, the competition, the consequences of success and failure!

Bill Roos will be sending me some guidelines from the Rubber review held last week.

W.R.
