Subject: Meeting request - Chemical Strategy for Sustainability

Dear Mr Child,

I hope this email finds you well.

Having participated in the ERIF lunch, I wanted to follow up to continue the discussion on some of the initiatives you highlighted last week.

CropLife Europe, as you may be aware, is the European organisation which represents the crop protection industry. Our members are leading global companies and European national associations working in conventional pesticides, biopesticides, plant biotech innovation, and digital and precision farming.

We have been actively following the developments under the Chemical Strategy for some time and I would welcome the opportunity to meet with you to discuss specific initiatives and points, namely the potential cumulative impact of several CSS initiatives on the agricultural sector, GRA and MAF as well as the ban on hazardous substances being exported from Europe.

Would you be available for a meeting in the coming weeks?

I look forward to hearing from you.
