Miss Nancy F. Buck
Route 6, Box 6
Mount Airy, N. C. 27030

Dear Miss Buck:

Thank you for your recent letter regarding our booklet, "Facts About Lead and Pediatrics."

We have no objection to your quoting portions of the booklet. However, we would like to see a draft of the article you are preparing prior to its publication. If this cannot be arranged, we would prefer not to have the Lead Industries Association identified.

I have taken steps to have the chips of paint analyzed for their lead content. When I receive the results, I will pass them on to you.

Sincerely,

J. F. Cole, Sc. D.
Manager, Environmental Health
