Room 3850, 200 C Street, SW
Washington, D. C. 20204

Dear Mr. Randolph:

It has been brought to my attention that in the past, certain toxicity studies concerning 60 per cent Chlorinated Terphenyl (Aroclor 5460) have been conducted by a Division of the Food and Drug Administration.

If these data are available, I would appreciate a copy so that I may review the same, as well as, to better understand the action taken by FDA regarding its non-acceptance as a hot-melt adhesive.

In advance, thanks for your efforts.

Sincerely,

William H. Hunt, Ph. D.
Toxicologist
Medical Department
