Attention: Medical Department

Gentlemen:

We are building a hydraulic operated table for use in a hospital operating room. The Underwriters' Laboratories list your Pydraul F-9 as being an approved fluid for use in hydraulic systems. I have some of your fluid; also some literature from your local office. Could you supply me with any toxicity studies, particularly the effects of prolonged breathing of any vapor or mist that might arise in the normal operation of a system that is not totally enclosed?

Sincerely,

Robert R. Lohman
