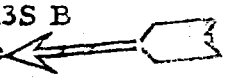
THERMINOL CONVERSION DIFFICULTIES

J. J. RODER
D. E. ROUSH

bcc: R. Stohr A3S B
D. R. Pogue



Confirming our conversations, in addition to yourselves, please ask the task force team to keep legible, dated records of difficulties encountered by our customers in converting from Therminol FR. Of particular value to the attorneys representing us will be customers comments regarding:

1. Production downtime for changeover
2. Estimated costs of lost production
3. Requirements/costs for fire walls; relocated heaters
4. Resultant hazard to personnel/property without Therminol FR

If there are questions please let me know. Thanks.

D. R. Pogue
