

1 had four five-ton Whites.

2 And you had five to six or five to eight two
3 and a half ton Army Ford trucks with the canvas tops,
4 with the canvas, and from then on you had some Dodge
5 one tons. You had Internationals that were about a
6 ton and a half or two tons.

7 We called them armored vehicles. They were
8 metal, and the doors locked just like an Army
9 vehicle.

10 Q Now, the garage was fairly large.

11 Can you estimate approximately how many
12 vehicles were there at that time?

13 A I would say at least 100 or more, probably
14 more. You had two lots and the lot on Preston Street
15 side and a lot on Biddle Street side, and the rest was
16 located inside the shop.

17 Q So there were also vehicles that were --
18 that could park inside the shop?

19 A Yeah, most of them were parked inside the
20 shop. The excess went on the two lots.

21 Q Now, of the vehicles that were there at the
