'SEXAUER' "BLUE-SPOT" TANK BALLS

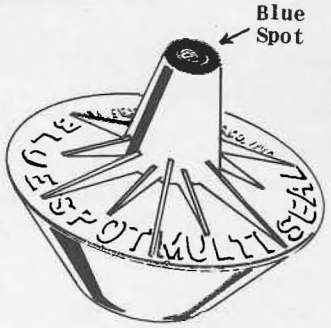
8613 "Blue-Spot" Flapper Tank Ball

Made of 'SEXAUER' GOLDEN COMPOUND - an exclusive "special formula" that assures a cork-tight seal dependable performance and long-lasting service

For "Blue-Spot" Baloon Tank Balls in sizes from 2" to 2-3/4", turn to Page 63 of our catalog "K"

All "Blue-Spot" Tank Balls are individually boxed, packed in cartons containing 1 Dozen

NOTE!
Cartons of any type or size can be assorted for the Quantity Prices that apply to each on orders for 4 Doz., 8 Doz. or Gross Lots.



8645 "Blue-Spot" Multi-Seal Tank Ball

Can be used to replace any existing "flapper-type" tank ball - and, when used to replace conventional type tank balls, it eliminates the use of a guide arm and lift wires that are otherwise required

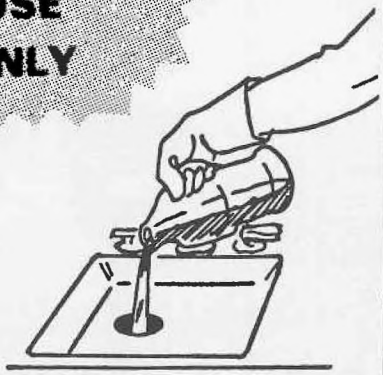
Specially designed to assure a tight seal on flush valves of practically any size or shape, including the built-in china valve seats found in many tanks

LIQUID "MULE-KICK" DRAIN CLEANER

POWERFUL!

NEW!

FOR PROFESSIONAL USE ONLY



A drain or sewer line that is clogged or sluggish, starts running fast when it is given a shot of Liquid "Mule-Kick" Drain Cleaner. It PACKS MORE POWER, is EASIER TO USE and it WORKS FASTER in dissolving grease, food scraps including vegetables, hair, lint, paper --- any organic matter

Liquid "Mule-Kick" will not freeze or in any way interfere with biological action in cesspools or septic tanks.

Directions as to recommended dosages and proper use are printed on each container to assure dependable, effective results.

SOLD ONLY IN CASE LOTS

8707 1 Qt. Container
Packaged 12 per Case

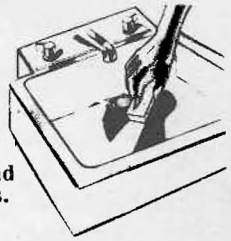
8721 1/2 Gal. Container
Packaged 4 per Case

"MULE-KICK" STAIN ERASER

A REMARKABLE STAIN REMOVER

Made of a "specially-refined" volcanic mixture that will not scratch or mar delicate surfaces while removing ugly rust and other stains.

For use on
Tile Basins
Sinks Bath Tubs
and other vitreous china
or iron-enamel surfaces.



EASY TO USE

Simply wet stone with water and rub until the stain disappears.

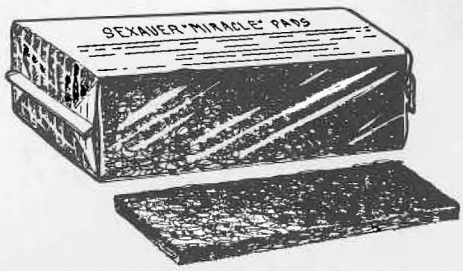
Cat.No. 7725
Comes in a convenient size cake - individually boxed.

Standard Package: 12 Cakes

'SEXAUER' MIRACLE CLEANING PADS

CLEAN AND DE-OXIDIZE COPPER TUBING & FITTINGS PREPARATORY TO "SWEATING"

• QUICKER • CLEANER • MORE EFFICIENT
• ASSURE PERFECT SOLDERED JOINTS



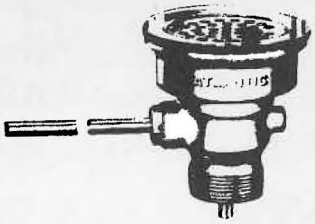
Cat.No. 6800 Package of 10 Pads
Pad Size: 6" x 2" x 1/4" thick

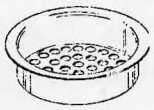
Made of Nylon Fibers bonded with a special fast-cutting, long-life synthetic adhesive. The pad absorbs dirt and cuttings, and can be shaken out or washed out by using soap or detergent to prolong its efficiency.

ATLANTIC LEVER & ROTARY WASTE PARTS

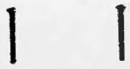
AFTER OCTOBER 1959

LEVER WASTE MODELS 522R, 523R, 524R ETC.

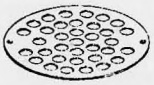




Cat.No. 8774
#26 Stainless Steel Basket Strainer
2-15/16" O.D. at flange



* Cat.No. 8772
#2 Stainless Steel Lever Waste Screw
(2 required)



Cat.No. 8773
#25 Stainless Steel Flat Strainer
2-15/16" O.D.

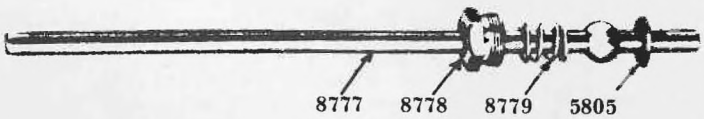
* Cat.No. 8775
#FB-91A Fibre Washer
4-1/8" x 3" x 5/64"

* Cat.No. 6778 #31 "9" Ring
2" x 1-5/8" 3/16"

Cat.No. (x)8776
#2 Lever Waste Plug (Less "O" Ring)

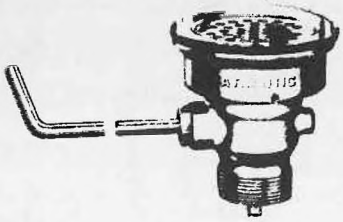
Cat. No. HANDLE ASSEMBLY PARTS

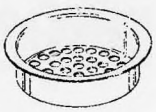
8777 #2 Lever Waste Handle Only
(Made of Stainless Steel)
8778 Lever Waste Packing Gland
* 8779 #2 Lever Waste Spring
* 5805 #FB-14 Fibre Washer



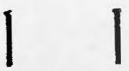
Cat.No. 8825
#AT-1 Rebuilding Kit
Includes parts with star (*)

ROTARY WASTE MODELS 722R, 723R, 724R ETC.

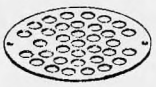




Cat.No. 8774
#26 Stainless Steel Basket Strainer
2-15/16" O.D. at flange



* Cat.No. 8772
#2 Stainless Steel Lever Waste Screw
(2 required)



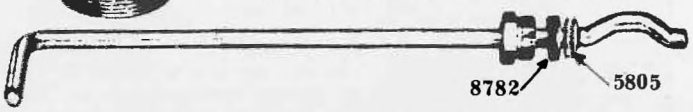
Cat.No. 8773
#25 Stainless Steel Flat Strainer
2-15/16" O.D.

* Cat.No. 8775
#FB-91A Fibre Washer
4-1/8" x 3" x 5/64"

* Cat.No. 6778 #31 "O" Ring
2" x 1-5/8" x 3/16"

Cat.No. (x)8781
#3 Rotary Waste Plug (Less "O" Ring)

Cat.No. 8783
#3 Rotary Waste Handle Assembly
(Made of Stainless Steel)
(Comes complete as illustrated)



ROTARY HANDLE REPLACEMENT PARTS

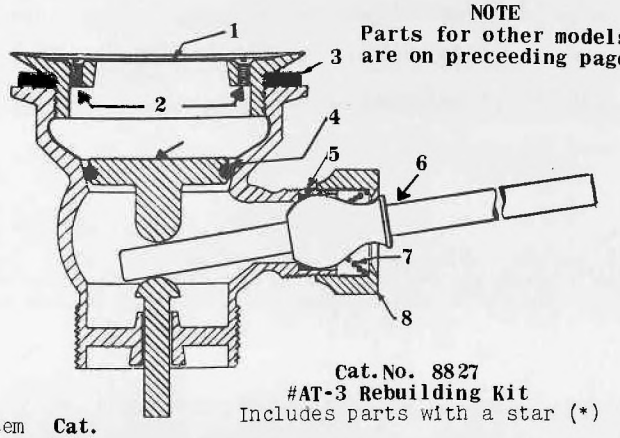
* Cat.No. 8782 #65A Graphite-Asbestos Packing
* Cat.No. 5805 #FB-14 Fibre Washer

Cat.No. 8826
#AT-2 Rebuilding Kit
Includes parts with star (*)

ATLANTIC LEVER WASTE PARTS

PRIOR TO OCTOBER 1959

NOTE
Parts for other models are on preceeding page



Cat.No. 8827
#AT-3 Rebuilding Kit
Includes parts with a star (*)

Item No.		Cat. No.	
1		8724	#29 Stainless Steel Flat Strainer (3-1/8")
2	*	8728	#1 Stainless Steel Lever Waste Screw

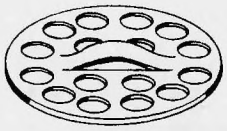
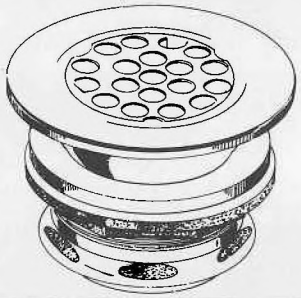
16	*	6363	1-1/4" Polyethylene Slip Joint Washer

'SEXAUER' STRAINERS

7699 #22 C.P. Strainer
1-1/2" O.D. For Kohler Drinking Fountains

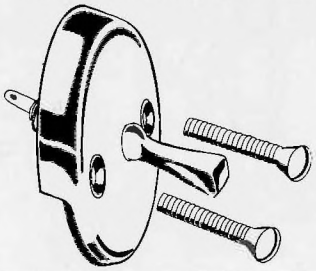


7877 #23 Strainer
1-11/16" O.D. Stainless Steel For Kohler Duo Strainer



8706
#24 Sink Strainer Assembly
Includes:
- C.P. Snap-in Strainer
- C.P. Brass Body
- White Sink Plug Washer
- Golden Lock Nut Washer
- Bronze Lock Nut
- Vinyl Coupling Washer
- C.P. Brass Coupling Nut

BATH WASTE & OVERFLOW PLATE ASSEMBLY



Cat.No. 8597

Can be used for replacement on some models of American Standard, Gerber and other makes of bath tub fixtures.

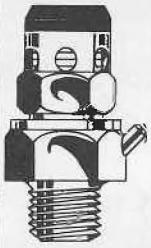
URINAL CLEANOUT PLUG

5198 No. 3
5/8" O.D.
For
Kohler Urinals
(1962 & after)

BRASS COUPLING NUT

8377 No. 23A
2" x 1-1/2"

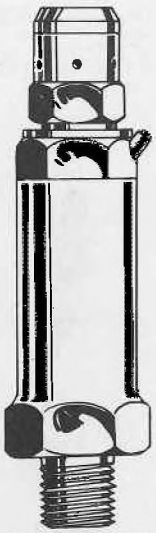
'SEXAUER' AUTOMATIC AIR VALVES



FOR CAST IRON STEAM RADIATORS

7876 No. 4 Air Valve

Replaces the larger old fashioned valves. Whether used vertically or horizontally, the valve opens "automatically" to expel the air and "closes automatically" after it is expelled. It can also be operated manually at any time.



FOR BASEBOARD RADIATION OR CONVECTORS

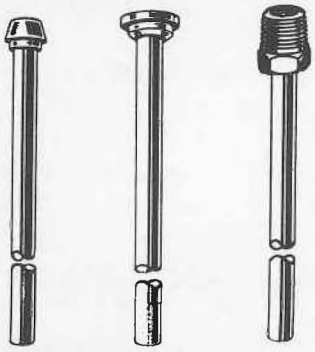
8656 No. 5 Air Valve

Provides a "high point chamber" for collection of air - which is automatically expelled by factory-set venting. No adjustment is required, and they are easy to install without the use of any joint connections or nipples.

'SEXAUER' 1/2" FLEXIBLE SUPPLY PARTS & CONTROL VALVES

NOTE
For 3/8" Flexible Supply Parts, Control Valves and Assemblies, SEE PAGES 82 AND 83 of our Catalog "K"

RISERS FOR 1/2" FLEXIBLE SUPPLIES



LAVATORY CLOSET SINK

Packaged 4 of a kind to a Box

7690 1/2"

BRASS COMPRESSION SLEEVE FOR 1/2" FLEXIBLE SUPPLIES

7672 1/2"

SLIP JOINT WASHER & FRICTION RING FOR 1/2" FLEXIBLE SUPPLIES

Can be used in place of Brass Compression Sleeve if desired

6361 #28 Slip Joint Washer 6373 #BR-18 Brass Washer

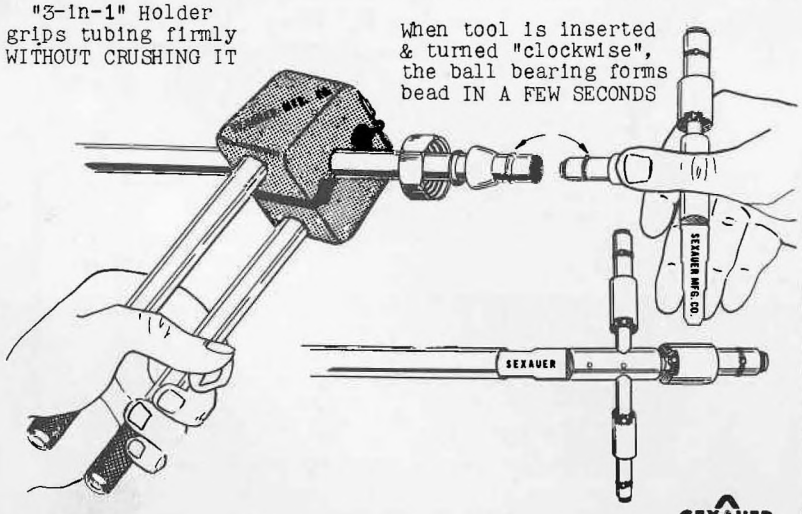
'SEXAUER' "3-IN-1" BEADING TOOL AND HOLDER

FOR 3/8" - 7/16" - 1/2" COPPER TUBING

When tubing is "beaded", the Slip Joint Washer & Friction Ring are "locked in place" after the Coupling Nut is tightened. It eliminates the possibility of "blow-out" or "pull-out" -- regardless of excessive water pressure or unusual strain on the tubing.

"3-in-1" Holder grips tubing firmly WITHOUT CRUSHING IT

When tool is inserted & turned "clockwise", the ball bearing forms bead IN A FEW SECONDS



7625 "3-in-1 Beading Tool
(also includes "3-in-1 Reamer)

7626 "3-in-1" Tubing Holder

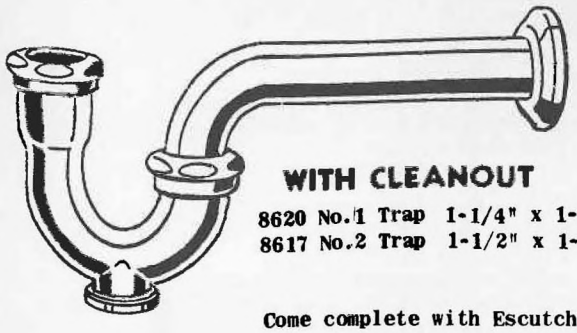
7627 Beading Tool & Holder Set
(Comes in Metal Carrying Case)

HOW TO USE TOOL

1. Grip tubing in 3-in-1 Holder and cut to desired length (allow for necessary bends) then use Reamer to re-shape end turned in by cutting.
2. Slide Coupling Nut, Friction Ring & Beveled Slip Joint Washer onto the tube. Grip tubing in holder and insert the proper size tool cylinder as far as it will go, while turning tool "counter-clockwise" to retract the ball bearing. Then, as the tool is turned "clockwise", it will form the bead.
3. Withdraw tool WHILE TURNING "COUNTER-CLOCKWISE".

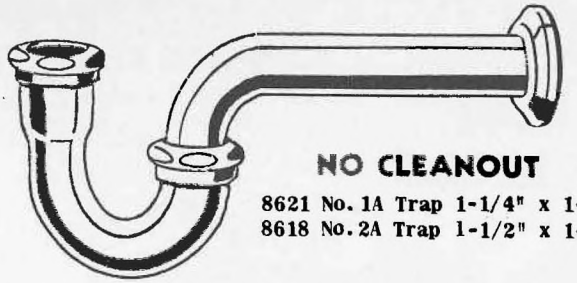
'SEXAUER' TUBULAR "P" TRAPS

(17 GAUGE)



WITH CLEANOUT

8620 No.1 Trap 1-1/4" x 1-1/4"
8617 No.2 Trap 1-1/2" x 1-1/2"



NO CLEANOUT

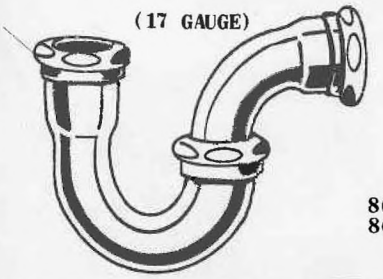
8621 No. 1A Trap 1-1/4" x 1-1/4"
8618 No. 2A Trap 1-1/2" x 1-1/2"

Come complete with Escutcheon, Nuts, Slip Joint Washers & Friction Rings

Packaged in individual boxes

REPAIR TRAPS

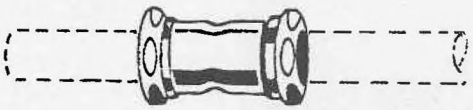
(17 GAUGE)



8673 #3A 1-1/4" x 1-1/4"
8674 #4A 1-1/2" x 1-1/2"

"DUO-SLIP" CONNECTIONS

(17 GAUGE)

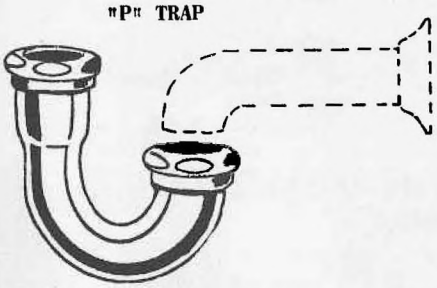


8675 #1 1-1/4"
8676 #2 1-1/2"

'SEXAUER' CHROME PLATED "J" BENDS

FOR TUBULAR "P" TRAP & TUBULAR "S" TRAP

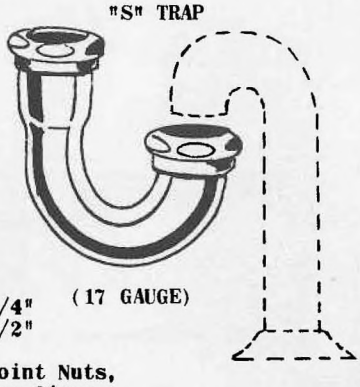
"P" TRAP



(17 GAUGE)

8038 No.1 "J" Bend 1-1/4"
8039 No.2 "J" Bend 1-1/2"

"S" TRAP



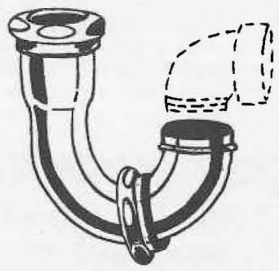
(17 GAUGE)

Come with 2 Cast Brass Slip Joint Nuts, Slip Joint Washers and Friction Rings.

Packaged in individual boxes

FOR SINK TRAP

(17 GAUGE)



8131 No.3 "J" Bend 1-1/2"

Inlet has Cast Brass Slip Joint Nut, Washer and Friction Ring. Outlet is beaded and has captured Slip Joint Nut and Coupling Washer.

Packaged in individual boxes

DRAINAGE FITTINGS

MADE OF HEAVY CAST BRASS
Each fitting comes complete with C.P. Cast Brass Slip Joint Nut and heavy Brass Compression Ring.

8691 #1M 1-1/4" x 1-1/4" Male
8692 #1F 1-1/4" x 1-1/4" Female

8694 #2F 1-1/4" x 1-1/2" Female
8695 #3M 1-1/2" x 1-1/2" Male
8696 #3F 1-1/2" x 1-1/2" Female

COMPRESSION RINGS ONLY
8699 1-1/4" Brass Compression Ring
8700 1-1/2" Brass Compression Ring

Male Thread

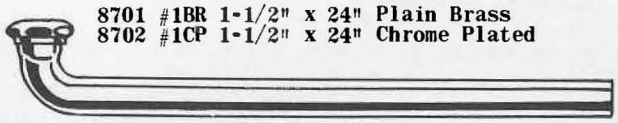
Female Thread

CONTINUOUS WASTE ARMS

(17 GAUGE)

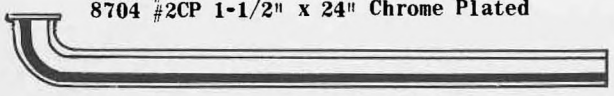
WITH SLIP JOINT NUT, WASHER & FR. RING

8701 #1BR 1-1/2" x 24" Plain Brass
8702 #1CP 1-1/2" x 24" Chrome Plated



FLANGED FOR SOLID CONNECTIONS

8703 #2BR 1-1/2" x 24" Plain Brass
8704 #2CP 1-1/2" x 24" Chrome Plated



'SEXAUER'
"MULTI-PURPOSE" TEFLON COMPOUND
A SEALANT AND A LUBRICANT
WITHSTANDS TEMPERATURES FROM – 200 F. TO + 500 F.

NON-TOXIC

WILL NOT STAIN ANYTHING INCLUDING CLOTHES

8697 3 oz. Tube
8698 8 oz. Tube

A "Special Formula" that includes an inert, non-conducting & non-corroding Teflon sealing ingredient in a neutral vehicle.

Superior to any other pipe thread Sealant. Effective on any kind of piping used for any purpose except for oxygen lines. Prevents thread galling and seizing.

Makes an excellent gasket dressing and, when it is used as a lubricant, anything that slips, slides, glides, swings, turns or rolls will do it better and easier with a small application of "Sexauer" Multi-Purpose Teflon Compound.

TEFLON-ASBESTOS PACKING

A COMBINATION OF SUPERIOR QUALITY & VERSATILITY FOR VALVES, PUMPS, RECIPROCATING OR ROTARY SHAFTS

ASSURES A LONG-LASTING SEAL WITH LOW FRICTION AND COOL-RUNNING SHAFTS AT SPEEDS UP TO 3600 R.P.M.

COMES ON METAL SPOOLS WITH PROTECTIVE SLEEVES

BRAIDED PACKING

5/16"	7703 #516TT	1/2	lb.	8 ft.

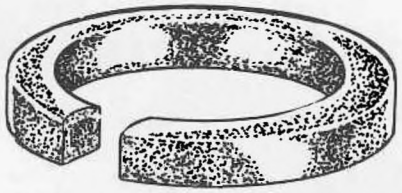
Made of an ideal combination of materials (lubricated with pure mineral oils) that fully utilizes the exceptional sealing and heat-resisting qualities of Teflon and Asbestos --- plus the immunity of Teflon to almost all chemicals, oils, solvents and gases - in addition to water and steam.

Withstands temperatures ranging from - 200° F. to + 500° F. and is non-toxic when used within those limits. It thus has EXCEPTIONAL VERSATILITY that includes SAFETY when used in the food industry.

'SEXAUER' WAX GASKETS
FOR SETTING WALL-HUNG FIXTURES

CONFORM TO FEDERAL SPECIFICATION HH-C-536a

Made of high quality all-mineral wax reinforced with a special plastic. Will not harden or rot, do not support bacteria so are sanitary and are impervious to vermin. They assure an odor-proof and gas-proof water-tight seal.



FOR CLOSET BOWLS

7999 No. 4 Wax Gasket
5-5/8" x 3-3/4" x 1"

FOR 2" URINAL OUTLET

8838 No. 5 Wax Gasket
3-1/2" x 2" x 15/16"

For other Types of Wax Gaskets, see Page 4D and 66 of our Catalog "K".

All of our Wax Gaskets are individually boxed and come packaged 24 to a carton.

NOTE
Cartons of any types of Wax Gaskets can be assorted for Quantity Prices that apply to each on 4 Doz., 8 Doz. or Gross Lot orders

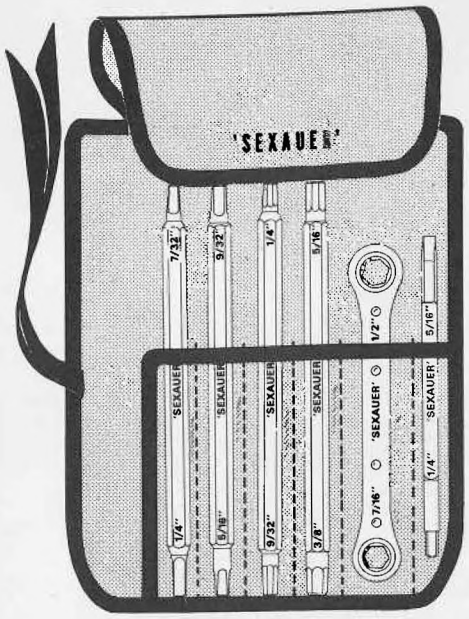
'SEXAUER' TOOLS

REMOVABLE SEAT WRENCHES



8720 Removable Seat Wrench Set
Includes: Wrenches "A"-"B"-"C"-"D"-No. 3 and Ratchet Wrench -- in Carrying Case

To order individual items, specify as follows:

8715 "A" Removable Seat Wrench
Fits 5/16" & 3/8" Hex Broach

8716 "B" Removable Seat Wrench
Fits 1/4" & 9/32" Hex Broach

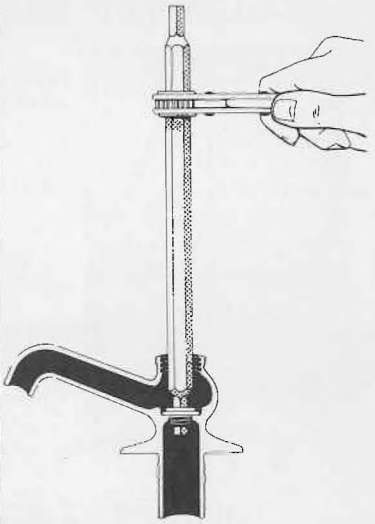
8717 "C" Removable Seat Wrench
Fits 9/32" & 5/16" Square Broach

8718 "D" Removable Seat Wrench
Fits 7/32" & 1/4" Square Broach

7103 No. 3 Removable Seat Wrench
For "tall" Eljer Seats with Square Broach

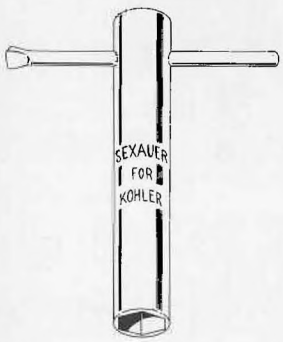
8705 Hex Ratchet Wrench

8719 Seat Wrench Carrying Case



Ratchet Wrench fits the Seat Wrench Hex Shaft and permits applying pressure needed for removing old seats, and then installing new ones securely

KOHLER REMOVABLE SEAT WRENCHES



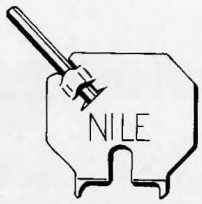
5685 No. 6 Kohler For
Niedecken Built-in Shower Mixing Valve

8021 No. 7 Kohler For
Niedecken Exposed Shower Mixing Valve

SINGLE LEVER FAUCET WRENCHES

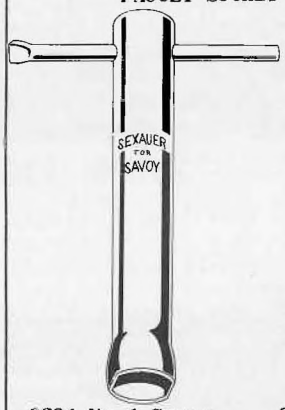
8479 No. 1 Delta
For any Model except Del-Dial

8481 No. 2 Delta
Used only for Del-Dial Models



8763 Nile
Fits all Models

FAUCET SOCKET WRENCHES

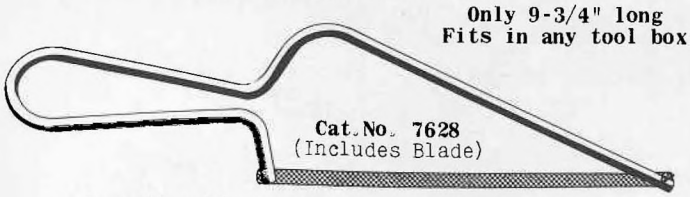


8381 No. 4 Savoy
For concealed Bath and Shower Valves

8022 No. 5 Kohler
For Niedecken Mixing Va. Spindle Bushings

"SEXAUER" HANDY HACK SAW

Only 9-3/4" long
Fits in any tool box

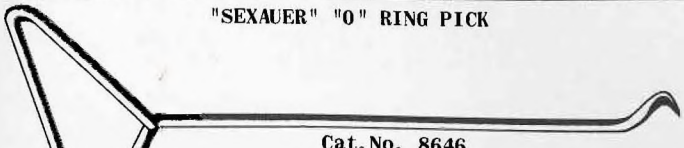


Cat. No. 7628
(Includes Blade)

Exceptionally handy for use in tight places

REPLACEMENT BLADES
7629 Bundle of 10 Blades
1/4" wide - 6" long - 32-Tooth

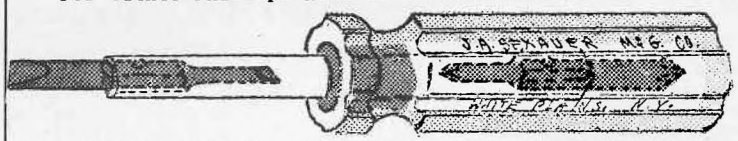
"SEXAUER" "O" RING PICK



Cat. No. 8646

Provides a quick and easy means of removing worn out "O" Rings that have to be replaced

"SEXAUER" "4-IN-1" SCREWDRIVER
For either Phillips Head or Slotted Head Screws



7-1/2" long overall - Has sturdy 6-Spline Tenite handle

Cat. 8802

Has a readily reversible steel shank with a double-end reversible, tough alloy steel bit in each end. One bit fits small and large Phillips Heads and the other fits small and large size Slotted Heads. Ball indents hold shank and bits securely in position. Just pull out to change type or size of bit and snap back into place.

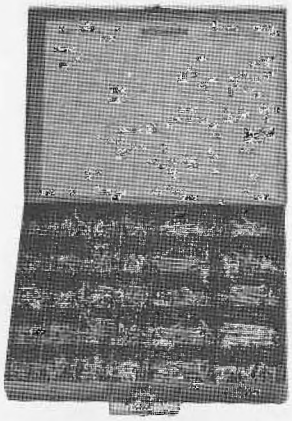
SCREWDRIVER REPLACEMENT BITS

8841 No. 1 Double-End Bit
For Phillips Head Screws

8842 No. 2 Double-End Bit
For Slotted Head Screws

'SEXAUER' HANDY ANDY ASSORTMENTS

ALL-PURPOSE SELF-TAPPING SCREWS



8596 No. 21A Handy Andy Assortment

Contains 9 Gross (1296) "Sexauer" All-Purpose Self-Tapping Screws, including 30 commonly used sizes.

The screws are arranged according to size in the tills of the heavy gauge metal carrying case - which has a convenient carrying handle.

A Till Index in the cover identifies the length, gauge and Cat.No. of the screws in each Till, which simplifies locating desired sizes and reordering whenever necessary.

'EASY-TITE' FAUCET WASHERS

Made of a non-rubber EXCLUSIVE COMPOUND that is FIBERGLAS-REINFORCED. These EXCLUSIVE FEATURES enable "Easy-Tite" Washers to withstand closing squeeze without splitting, prevent swelling from water absorption -- and to withstand heat up to 300o F. without losing the resiliency that assures an easy and positive shut-off.

Assortments come in a sturdy metal carrying case with an Index showing the contents of each till.

8654 No. 1B Handy Andy Assortment

Contains 250 'Sexauer' Beveled "Easy-Tite" Faucet Washers of sizes from "0"S to 1/2"

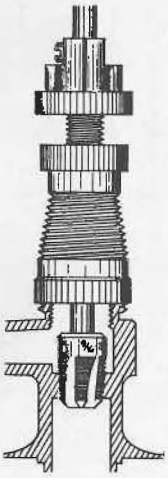
8655 No. 1F Handy Andy Assortment

Contains 300 'Sexauer' Flat "Easy-Tite" Faucet Washers of sizes "0"S up to 1/2"

MISCELLANEOUS 'SEXAUER' FAUCET REPAIR PARTS

ADDITIONAL SIZES OF REMOVABLE SEAT TAPS

NOTE
See Page 15 of our Catalog "K" for other size Removable Seat Taps and explanation of how they are used.



7745 No.7 Removable Seat Tap 1/2" - 20 Thread

Use for the following seats:

"SEX-ITE"		"MONEL"	
BA-2	PF-1	AM-1M	SA-1M
BR-2	SA-1	BA-2M	SCH-1M
EL-5	SCH-1	PF-1M	SCH-2M
SCH-2			

7746 No.8 Removable Seat Tap 1/2" - 24 Thread

Use for the following seats:

"SEX-ITE"		"MONEL"	
BR-1	SG-1	BR-1M	SG-1M
CE-1	WO-1	CE-1M	WO-1M

STERLING DIVERTER WASHER

Cat.No. 8559
For 3-Valve Bath & Shower Fixture

15/16" DUAL-THREAD AERATORS

SLOTLESS TYPE

8041 No.6 Aerator
Attaches to spouts with 15/16" thread - whether male or female.

FOR PORTABLE WASHING MACHINES

8672 No.7 Aerator
Attaches to either male or female 15/16" spout thread.

Permits use of the Adaptor shown below, for attaching a portable washing machine hose to the aerator.

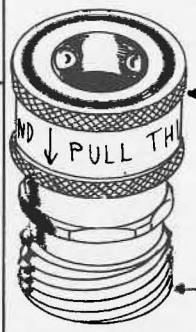
AMERICAN STANDARD FAUCET PARTS

8730 No.2 Spreader Washer
For Re-Nu Pantry Faucet

8369 Swingspout Connecting Post
For Series "R" & "B" Swingspout Faucets

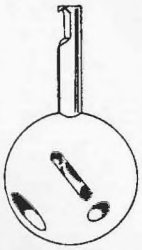
SNAP ADAPTOR FOR WASHING MACHINE HOSE

Cat.No. 8714

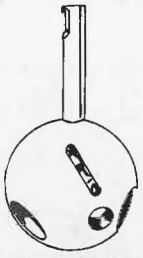


Simply pull down the spring-action knurled band in order to snap the adaptor onto the aerator --- or to remove it.

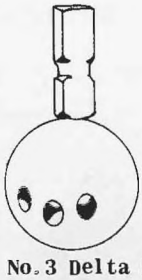
DELTA SINGLE LEVER BALL ASSEMBLIES



8466 No. 1 Delta Ball
For all Delta faucets EXCEPT any "Del-Dial" Models or any Tub & Shower Fixtures.



8467 No. 2 Delta Ball
Only for #601 Series Tub & Shower faucets



8468 No. 3 Delta Ball
Only for "Del-Dial" Models

Valve Stem Pilot Va. Washer
Valve Plunger Pilot Valve Seat

7883
Removable Seat
Used after
April 1943

FOR VALVES AFTER APRIL 1943

7884 #1 Diaphragm
1-11/16" x 3/32" Thick

7886
#FB-72A Fibre Washer
1-5/8" x 1-9/64" x 1/16"

Cat. No.	How to Specify
7878	Bradley Foot Valve Plunger Cover
* 7879	Bradley Foot Valve Spring
* 7880	Bradley Foot Valve Seat Washer
* 7881	Bradley Pilot Valve Washer
7882	Bradley Foot Valve Plunger Assembly
7883	#BRAD-1 Removable Seat(Used after Dec. 1954)
* 7884	#1 Bradley Foot Valve Diaphragm(Used after April 1943)
* 7885	#2 Bradley Foot Valve Diaphragm(Used prior to April 1943)
* 7886	#FB-72A Fibre Washer(Used after April 1943)
* 7887	#FB-59A Fibre Washer(Used prior to April 1943)

7888 #BRAD-1 Faucet Rebuilding Kit
Includes the above items marked with Star(*)

FOR VALVES PRIOR TO APRIL 1943

7884 #2 Diaphragm
1-7/16" x 3/32" Thick

7887
#FB-59A Fibre Washer
1-3/8" x 1-1/8" x 3/64"

If valve does not close when operating rod is released, it is a sign that the plunger is sticking in the plunger cover. This may be caused by liming, corrosion or by having the adjusting nut too tight. Loosen adjusting nut slightly, turning counter clockwise. (All adjustment on this nut should be slight, as the plunger cover could be permanently damaged by making it too tight.) This should release plunger unless it is "frozen" to plunger cover. Sometimes a cleaning with very fine emery cloth will remove scale to insure proper operation of plunger assembly. If plunger is frozen to cover, it is advisable to replace with new plunger assembly and cover.

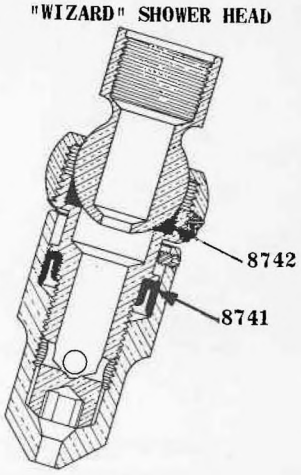
"WIZARD" SHOWER HEAD



PARTS FOR "WIZARD" SHOWER HEAD

8741 Lomaco Head Gasket
8742 #316R Reinforced Rubber Packing

8755 #LO-2 Faucet Rebuilding Kit
Includes 1 Ea. of above 2 parts

IMPORTANT NOTE!

The handles and stems for these valves do not come "tapped" for installation of the 1/4" x 10-32 Headless Screw (Cat.No. 8736) as shown in the illustrations --- but use of the screw is recommended as it makes the handle VANDAL-PROOF. After driving the serrated handle onto the serrated stem, you merely use a #21 drill (with either a hand or electric drill) and drill a hole 1/4" deep at any point where the serrations of the handle and stem are mated. Then tap the hole with a 10-32 Bottom Tap so that the screw can be installed before assembling the Welsh Plug ("H" or "C") to the handle.

To remove a Welsh Plug, in order to repair a valve, you have to drill a small hole (3/16") in the plug and use a center punch or other instrument to pry it out of the handle -- which means it has to be "discarded". The Vandal-Proof Screw can then be removed to permit tapping the handle loose from the stem.

If more than one valve is being repaired at the same time, it is "essential" to make sure that each handle goes back onto the same stem from which it was removed -- and that the tapped portions of the handle and stem "match" so that the Vandal-Proof Screw can be properly installed.

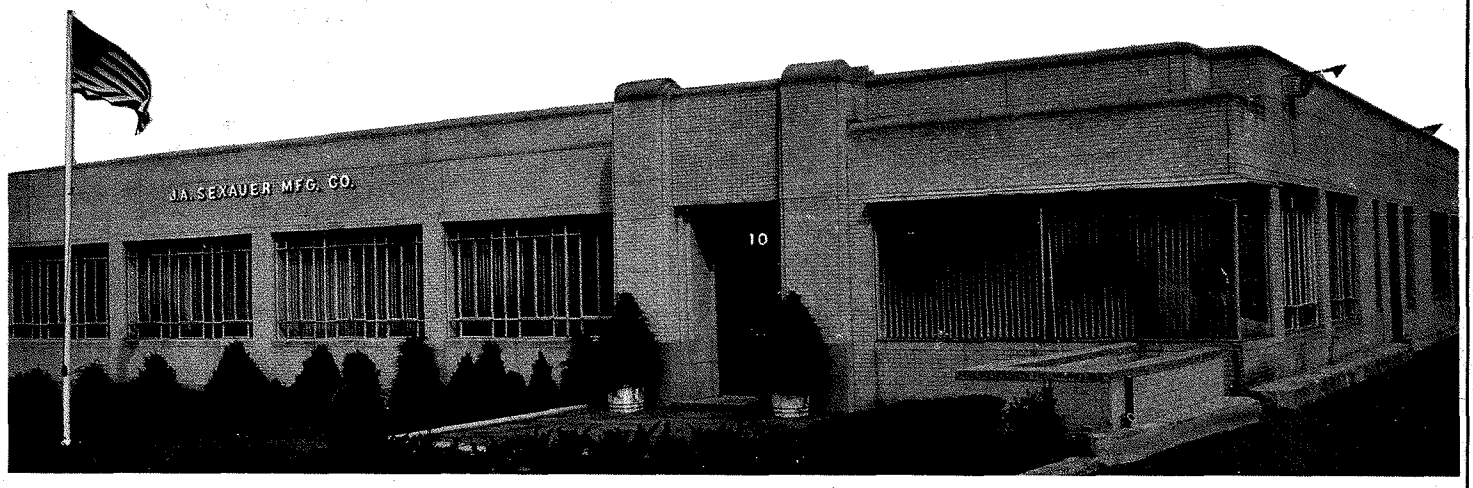
Our New Frontier
SYMBOLIZED BY OUR NEW HOME
10 HAMILTON AVE., WHITE PLAINS, N. Y.



THERE'S *ALWAYS* A NEW FRONTIER . . .

Daniel Boone, when his valley in the Carolinas ceased to be a FRONTIER, blazed a new trail to that region that is now Missouri — to find out what lay beyond.

His battles with Wilderness and Indians that conquered CONDITIONS, typifying the FIRST PHASE OF AMERICAN PIONEER LIFE — became a tradition.

But . . . with its passing our FRONTIERS did not pass!

They only changed . . . changed from unbroken plains to undiscovered markets . . . from tangled wilderness to unsolved industrial problems.

Today's FRONTIERS still have their NEW HORIZONS of expanding OPPORTUNITIES that far outmatch the days of BOONE . . . THRU ADVANCING STANDARDS IN BUSINESS.

However . . . in place of woodcraft as in Boone's day . . . the MODERN PIONEER must possess BUSINESS VISION, together with the IMAGINATION essential in blazing his own trail.

The J. A. Sexauer Mfg. Co., Inc. was born on May 1, 1921 — and almost from that very day we began to change.

For CHANGE is what creates *Growth* and STRENGTH and USEFULNESS.

Time without change produces only age.

We are YOUNG today, and VIGOROUS, because we have kept pace with our customers and their needs, with our community and its industries, with our country and the economy, with a world that has created more change during our existence than in any similar period since time began.

Thus we shall go forward with confidence in the free world's ability to meet the challenges of tomorrow!

J. A. SEXAUER, President

TERMS & CONDITIONS OF SALE

All orders subject to acceptance by

J. A. Sexauer Mfg. Co., Inc.

THIS CATALOG REMAINS THE PROPERTY OF J. A. SEXAUER MFG. CO., INC. AND IS SUBJECT TO RECALL

TERMS

MINIMUM ORDER INVOICE: $5.00

2% Discount 10th of following month - Net end of following month.

Invoices not paid according to terms are subject to MONTHLY SERVICE CHARGES of 1% per month (which is an ANNUAL PERCENTAGE RATE OF 12%).

DELIVERY

Shipments are normally made via cheapest route. Delivery is contingent on government regulations, strikes and other circumstances beyond our control.

Orders "UNDER $25.00" are shipped F.O.B. White Plains, N. Y.

Orders of "$25.00 OR MORE" are prepaid to destination within Continental United States. EXCEPTION: Orders including "Mule-Kick" Cleaners other than Enzyme Mixture --- or "Heat-Pep" Boiler Compound, must be shipped via freight and must total at least 160 lbs. to be prepaid. (SEE NOTATION AT BOTTOM OF PAGE 4 REGARDING SUCH ORDERS)

CLAIMS, DEFECTS & DAMAGE

Claims for shortages must be made within 10 days after receipt of shipment.

Items defective in manufacture will be replaced without charge.

No claims for labor or consequential damage will be allowed.

RETURNS

No returns permitted without our written consent nor after 120 days from date of invoice.

When orders have been correctly filled, and unless defective material is involved, RETURNS ARE SUBJECT TO A 10% HANDLING CHARGE.

PRICES & TAXES

Prices and discounts are subject to change without notice. Unless otherwise agreed, all orders are accepted on the basis of prices prevailing at the time of shipment.

All local, state, federal or special taxes (including sales and use taxes) now or hereafter imposed, shall be paid by the buyer -- unless an exemption certificate is on file with "Sexauer"

HOW TO ORDER

To avoid errors in shipments, orders should have both Catalog Number and Description of each item as listed in catalog. Please conform to standard package quantities indicated in catalog.

SEXAUER PRODUCTS

We Welcome Your Suggestions

We will appreciate any suggestions you have to offer on design change, material change etc. that you feel would enhance the value of any 'Sexauer' materials in meeting your requirements.

WATER is PRICELESS

. . . a message from J. A. Sexauer

If you awoke some morning to find no water available—not a drop to be had—you would realize that DEATH had squatted on your door step.

Yet, it is a national habit of long standing to waste water in a reckless manner.

Little drips in the fixtures and pipes of America's 44,500,000 homes, plus unnoticed leaks in our countless business properties, factories and institutions, waste BILLIONS UPON BILLIONS of gallons of water yearly. In addition, leaks involving *hot* water waste coal by the MILLIONS of tons and other fuels in similar tremendous quantities. This loss also wastes incalculable amounts of power, labor, transportation and other factors involved in water circulation, sending these prime resources "down the drain" in a stream of needless, exorbitant waste!

YOUR vital plumbing system brings in pure water that is essential to cleanliness and health. It carries off waste that would otherwise cause contamination, breed disease and threaten the very lives of MILLIONS of people. Here, if anywhere, is the focal point for precautionary measures—the PREVENTION of needless loss, unsanitary conditions and costly fixture damage.

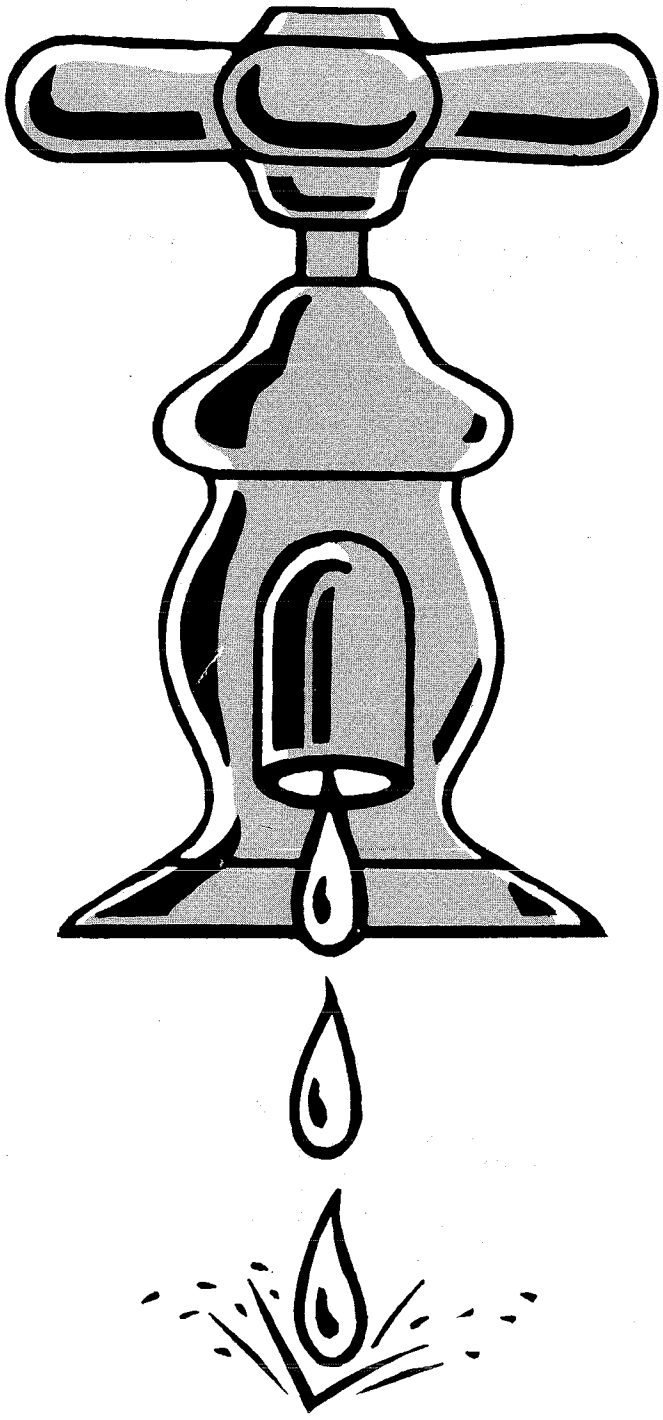
Since 1921, the J. A. Sexauer Mfg. Co., Inc. has pioneered in the development, production and refinement of over 3,000 specialized repair parts and precision tools designed to insure maximum efficiency and maximum over-all economy in the maintenance of plumbing and heating systems.

The 'Sexauer' line has been developed with the sole aim of enabling existing fixtures to render the utmost in long-lasting and trouble-free service while slashing water, fuel and upkeep bills 10%-50%. It is the EXTRA SERVICE in 'Sexauer' materials that determines their relative cost and makes them the most economical that money can buy.

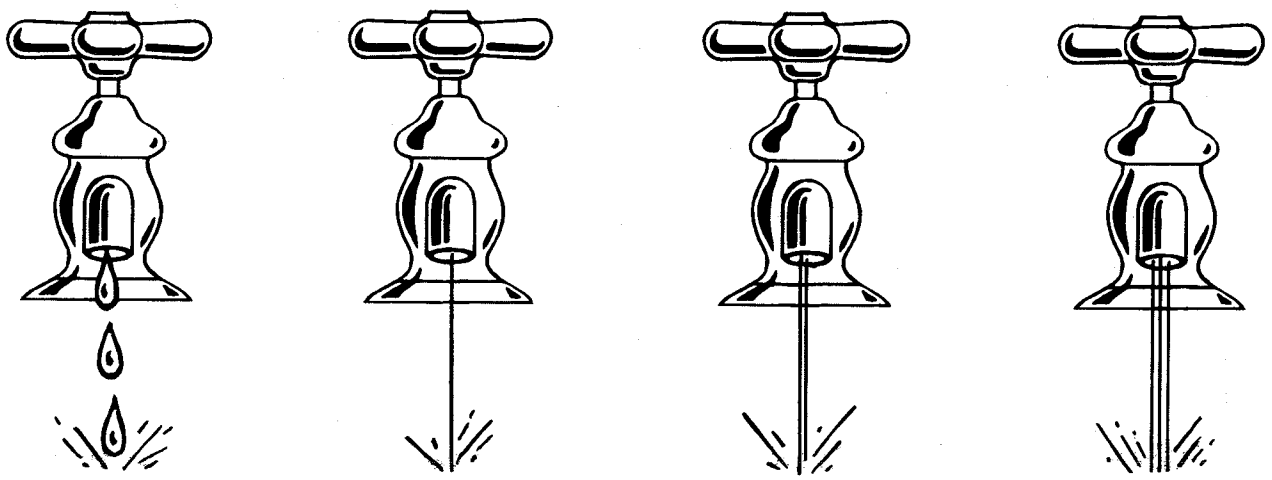
This fact has long been recognized by leading Maintenance Engineers and Master Plumbers everywhere. To them 'Sexauer' means CONSERVATION of fixtures, top maintenance efficiency, lowest over-all maintenance cost.

Thus 'Sexauer' materials help to conserve water and America's other precious prime resources that are vital to our country's health and economy.

J. A. Sexauer
President



The Hidden Costs of Faucet Leaks!



Steady Drops
a constant drip
can waste
2,000 gals.
QUARTERLY

1/32" Steady Stream
a PIN-HOLE size leak
can waste
24,000 gals.
QUARTERLY

1/16" Steady Stream
wastes water at a
rate of almost
85,000 gals.
QUARTERLY

1/8" Pouring Stream
results in waste of
as much as
340,000 gals.
QUARTERLY

SMALL, unnoticed leaks knock big holes in operating budgets. Leaks in faucets, toilet tanks, flushometers and other plumbing equipment not only boost water, fuel and labor bills but also ruin costly fixtures.

As authenticated by Hackensack, N. J. Water Co. and American Gas Association figures, stopping just ONE SMALL FAUCET LEAK can cut water waste 8,000 gal. QUARTERLY. When the leak involves a HOT WATER faucet, the saving in water and fuel combined can easily amount to over $7.58 QUARTERLY! Eliminating leaks also produces important savings in MATERIALS, LABOR AND COSTLY FIXTURE REPLACEMENTS!

What Faucet Leak Repairs Cost

How common are such costly leaks? Annual sales of millions of faucet washers and other plumbing repair parts indicate the size of this problem. Considering the cost of water, fuel and labor... and that leaks frequently go undetected until long after waste begins, the annual dollar loss is phenomenal! It is easy to understand, therefore, why plumbing maintenance represents a substantial part of over-all operating costs.

The biggest element in plumbing maintenance costs, however, is labor—which accounts for 95% of the total cost! Here is why:

According to conservative estimates, the cost of plumbing maintenance labor runs at least $3.50 an hour. Even the most common plumbing repair, replacement of a faucet washer, requires a minimum of 30 minutes to go to and from the job and fix the leak.

Your Savings with an EASY-TITE

If a mechanic uses an "ordinary" faucet washer (costing as little as 2¢) in making such a repair, the total cost is $1.77. If he uses a 'Sexauer' EASY-TITE faucet washer, the same repair costs just 2¢ more—or $1.79. But a 'Sexauer' EASY-TITE outlasts cheaper washers 6-to-1, so there's *a saving in labor alone of at least $1.75 on each of the repairs that are thus eliminated!*

Obviously, the sensible—and economical—way to keep plumbing maintenance costs down is by using the finest, longest-lasting repair parts available. 'Sexauer' repair parts and patented, precision tools are of the highest calibre. They save you money!

COST OF LEAKY FAUCETS IN WATER AND FUEL

Based on Hackensack, N. J. Water Co. and American Gas Association figures, when you use a 'Sexauer' EASY-TITE to stop just ONE, SMALL HOT WATER FAUCET LEAK, here is what you save QUARTERLY:

Type of Faucet Leak	Saving in Water Alone	Average Fuel Saving Coal, Oil or Gas	Saving Total Quarterly
Constant Drip	$2.72	$ 4.86	$ 7.58
Steady Stream	$3.02	$11.02	$14.04

COMPARATIVE COST OF FAUCET REPAIRS

Based on plumbing maintenance labor cost of $3.50 per hour and using 'Sexauer' EASY-TITES that outlast "ordinary" washers 6-to-1:

Type of Washer	Washer	½ Hr. Labor	Cost of Each Repair	Total Cost Based on Frequency of Repairs
Ordinary Washer	2¢	$1.75	$1.77	6-times=$10.62
'Sexauer' EASY-TITE Washer	4¢	$1.75	$1.79	1-time =$ 1.79

The BEST is the CHEAPEST in the long run!

For other money-saving 'Sexauer' services, see next page . . .

Exclusive 'Sexauer' Plumbing Maintenance Survey determines your actual repair needs!

Copyrighted form insures detailed check of your fixtures, eliminates guesswork, provides you with balanced stocks.

Here is how it works:

At no cost to you, a trained 'SEXAUER' Technician checks your existing plumbing fixtures. Using the copyrighted 'Sexauer' Survey Form (*right*), he puts his skill and experience to work.

Carefully, accurately he compiles an itemized picture of the exact *sizes* and *types* of replacement parts needed for all your fixtures and connections. In this way, he determines the *quantities* of each that are subject to replacement.

Here is what it does:

This 'Sexauer' Survey provides a *systematic* and *thorough* guide to your repair parts needs. It establishes an *intelligent* stock level for each item; stock levels are then set in relative proportion to normal use.

Often, the 'Sexauer' Survey gives maintenance departments their first *really clear* picture of the many kinds and sizes of items essential to the efficiency of their maintenance program!

'Sexauer' Bottle Rack keeps your stock at peak efficiency!

How and why it pays:

At no cost for his services, your 'Sexauer' Technician will help you plan and install a Bottle Rack to provide an orderly stock of repair parts in transparent jars labeled to describe their contents. You need only supply the shelving and jars for the type and size Bottle Rack that best meets your needs. Then, he'll service it periodically.

With a 'Sexauer' Bottle Rack, the stock of each item is visible at a glance. Shortages, overstocking and waste are eliminated. Correct items are always on hand and easily located.

'SEXAUER' BOTTLE RACKS

'Sexauer' floor-type Bottle Rack

'Sexauer' wall-type Bottle Rack

Here is what you save!

Here are some of the 'Sexauer' Plumbing Maintenance Plan's advantages:

- Parts inventories are kept intelligently and efficiently low.
- Correct parts are always on hand; time-consuming second trips are eliminated; hundreds of man-hours are saved yearly.
- Water, fuel and labor bills are lowered.
- Costly fixtures are conserved.

No wonder the 'Sexauer' Plan, with its thorough 'Sexauer' Survey, is welcomed by those in charge of plumbing maintenance! To them, efficiently outlining their parts requirements and maintaining an always adequate stock arrangement has long been a problem. The 'Sexauer' Plumbing Maintenance Plan *solves this problem!*

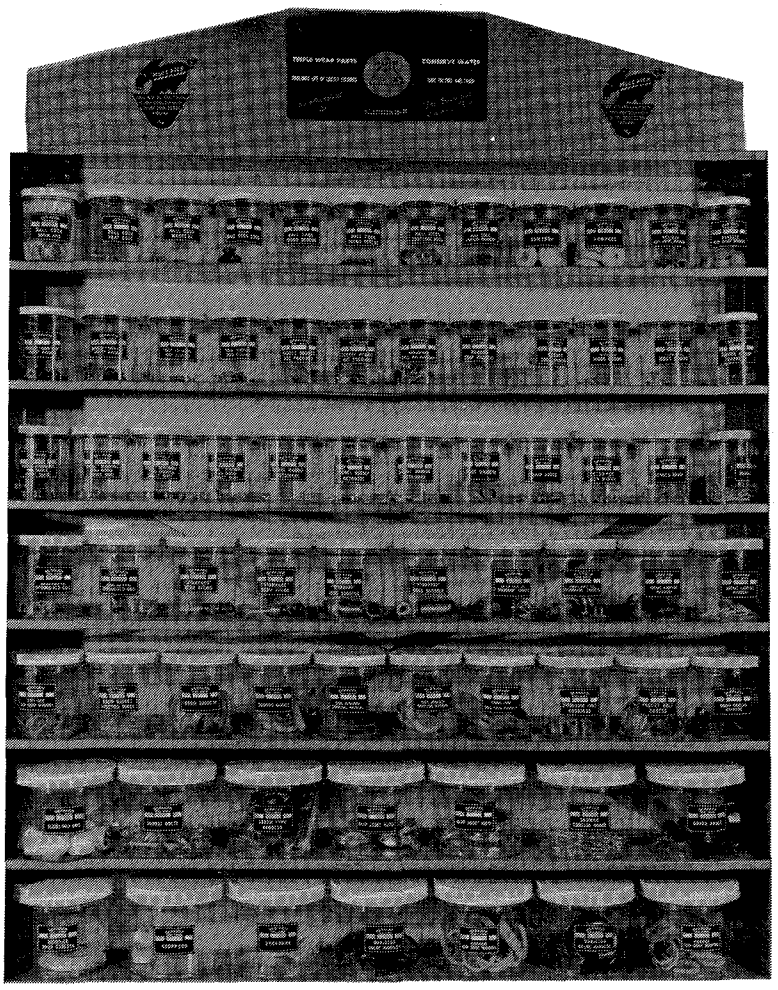
"SEXAUER"

Visible Stock Control System

Easily Hangs on Wall or Stands Solidly on Floor

A most efficient and economical method of controlling inventory of plumbing & heating repair parts and specialty materials.

Consists of clearly marked transparent containers housed on the shelves of a specially designed heavy duty metal cabinet.



♦ **SAVES MECHANICS' VALUABLE TIME IN LOCATING NEEDED PARTS** ♦

♦ **INSURES AVAILABILITY OF EVERY NEEDED PART BUT PREVENTS OVER-STOCKING** ♦

An experienced 'Sexauer' Technician will survey your needs and compile an itemized list of the exact types, sizes and quantities of quality replacement materials you require. He will also label the containers and supervise the installation of your Visible Stock Control System, then service it at regular intervals.

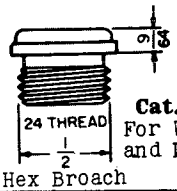
Cat. No. 7614
Complete Visible Stock Control System
Includes Metal Rack and 72 Containers
12 quarts - 36 pints - 24 1/2 pints

Cat. No. 7615
Visible Stock Control Metal Rack ONLY
49" high x 37" wide x 5" deep. 7 Shelves

♦

Clear Plastic Containers
With metal screw caps
Cat. No. 7616 32 oz. Containers
Cat. No. 7617 16 oz. Containers
Cat. No. 7618 8 oz. Containers
All sizes packaged 1 Doz. to a carton

"SEX-ITE" REMOVABLE FAUCET SEAT



Hex Broach

Cat.No. 7482 No. WO-1
For Wolverine Double Sink and Lavatory faucets.

'SEXAUER' FLOW CONTROL UNITS

FEMALE Cat.No. 7238 — **MALE Cat.No. 7237**

Attach to faucet spout threads. Have 3 Screens that break up the flow of water and prevent splashing.

"STANDARD" SPREADER WASHER

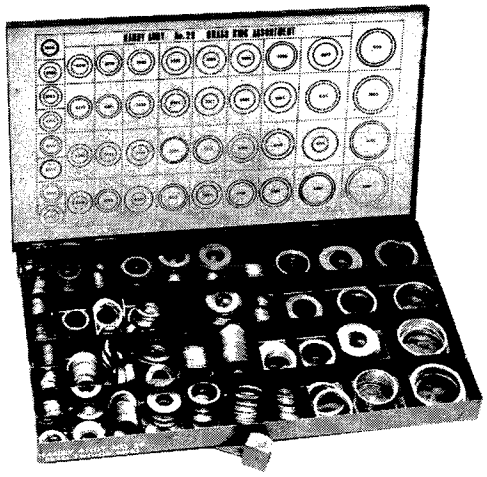
Cat.No. 7558

Used on Basin Faucets that supply either hot, cold, or ice water.

NO. 29 HANDY ANDY BRASS RING ASSORTMENT

Cat.No. 7665

Contains 264 rings, from 15/32" O.D. to 1-9/32" O.D. - the "most popular sizes" needed for faucets, swingspouts, slip joint connections and many other jobs requiring brass Rings. Till Index shows "actual size" of rings; makes it easy to find one quickly for any requirement.

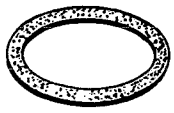


"STANDARD" FLOAT VALVE REBUILDING KIT

For Models N 3015, N 3025 shown on Page 72

Cat.No. 7447 No. AS-1-B Rebuilding Kit
Includes Items 6, 6A, 7 (See Page 72)

FAUCET SPOUT WASHER



Cat.No. 7557 No. 1 Rubber
For Chicago Aerators

"SEXAUER SYSTEM" of STANDARDIZED REPAIR AND MERCHANDISING SERVICE

developed

for Business Betterment of Progressive Plumbers

Cat. No. 5000

The "Sexauer-System" of Standardized Repair & Merchandising Service is designed as a "portable plumbing shop". It is skillfully planned and assembled into a copyrighted arrangement of quality repair parts and accessory items that permit rendering the ultimate in mechanical service.

- Provides correct types and sizes of repair parts and accessory items
- Insures quicker and longer-lasting repairs, eliminates costly call backs
- Saves water, fuel and labor while conserving costly fixtures

For Plumbers, the "Sexauer-System" is recognized by customers as a guarantee of the finest in plumbing repair service. When taken into homes, it provides an attractive display of saleable, quality materials that encourages profitable sales of items otherwise frequently bought in Chain, Hardware and D.T.U. stores.

The "Sexauer-System" is housed in a handsome, heavy-duty metal carrying case and comes equipped with a basic starter assortment of 392 carefully selected essential parts and materials of 191 types and sizes—SEE DETAILS OF CONTENTS ON NEXT PAGE.

The carrying case provides space for adding to the basic assortment other items from the 'Sexauer' line of over 4000 triple-wear materials and patented precision tools, and thus "tailor" the "Sexauer-System" into a PORTABLE PLUMBING SHOP that meets individual additional needs. Should you desire to increase the contents, a trained 'Sexauer' Technician will recommend additional items. We recommend making a selection from among the following 'Sexauer' Handy Andy Assortments and Tools:

"Sexauer-System" Plumbers are provided with the following PROMOTIONAL MATERIAL at no cost:

- Manual of Merchandising Ideas & Suggested Resale Prices
- Journeyman's identifying Red Cap & Uniform Emblem
- Decals for trucks and store windows
- "Sexauer Certificate of Merit" for display in store or office
- A variety of Promotional Mailing Pieces & Advertising Mats

CLEANING PRODUCTS

"MULE-KICK" WASTE PIPE CLEANER: Cleans stubborn stoppages, keeps drains free-flowing and sanitary, no dangerous fumes

"MULE-KICK" CLOSET BOWL CLEANER: Removes stains, purges, deodorizes, cleans jets, restores lustre. No rubbing —no scrubbing. Just sprinkle, then flush

"MULE-KICK" CREME PORCELAIN POLISH: Wipes away ugly stains. Cleans and beautifies tile, bathtubs, refrigerators, fixtures, enameled woodwork. Soothing to the hands.

THE WATER CRISIS — A NATIONWIDE MENACE

by J. A. Sexauer President

If you awoke some morning with no water available, and not a drop to be had, you would realize that DEATH had squatted on your doorstep.

And yet, it is a universal habit to WASTE water recklessly.

LEAKY FAUCETS are one of the major offenders, for ONE 1/32" (pin hole size) LEAK can waste 76,000 gallons yearly.

Costly too, at $4.00 per 1000 cubic feet 76,000 gallons is worth $40.53.

Visualize over 55 million households, with a minimum of 8 faucets each, plus countless Business Properties, Office Buildings, Hotels, Colleges, Schools, Hospitals, Institutions, etc. Each multiplying this reckless waste into a thousand-fold Niagara, and you have one of the many focal points of WATER SHORTAGES.

THE SOLUTION FOR A LEAKY FAUCET IS NOT JUST CHANGING THE WASHER!

For a long lasting repair ALL worn parts require replacement which can be readily accomplished with the new "Sexauer" exclusive #100A Handy Andy. A systematized metal carrying case of 40 tills containing 867 assorted Triple-Wear Replacement Parts adaptable to virtually every type of faucet.

Acclaimed by maintenance engineers & skilled mechanics among Government projects—Hospitals, Colleges, Schools, Hotels, Realties, Homes, etc.—as the ONLY PRACTICAL SOLUTION FOR LEAKING FAUCETS.

Since 1921 the J. A. Sexauer Mfg. Co. has pioneered in the development of thousands of Triple-Wear Replacement Parts for plumbing and heating systems that assure maximum life and efficiency of costly fixtures—while slashing water, fuel and upkeep bills—

No. 100A HANDY ANDY FOR REGULAR FAUCET REPAIRS

Cat. No. 5757

Carrying Case measures 12" x 9" x 2" deep.
Total Weight 8 lbs.

CONTENTS OF THE 'SEXAUER' NO. 100A HANDY ANDY

- 266 "Easy-Tite" Fiberglas-Reinforced Faucet Washers, Beveled and Flat, of all sizes from "O"S to 1"
- 37 "Monel" Faucet Washer Retainers in 11 sizes
- 144 Monel "Self-Locking" Faucet Screws
- 54 Faucet Top Gaskets—9 most popular types and sizes
- 60 Faucet Top Friction Rings (Brass)—12 most popular sizes
- 130 Precision-made "O" Rings of 32 sizes required for various purposes in repairing faucets
- 154 Faucet Bonnet & Stem Packings (square-cut and shaped) including 41 sizes of which 37 are made of "Teflon"
- 20 Faucet Felt Stem Gaskets in 2 sizes
- 1 Faucet Screw Tap (10-24) for reforming worn or faulty threads
- 1 No. 3 Mechanical Finger for retrieving washers or screws that have worked loose and dropped into the faucet body

867 Pieces including 137 types and sizes of essential Repair Parts

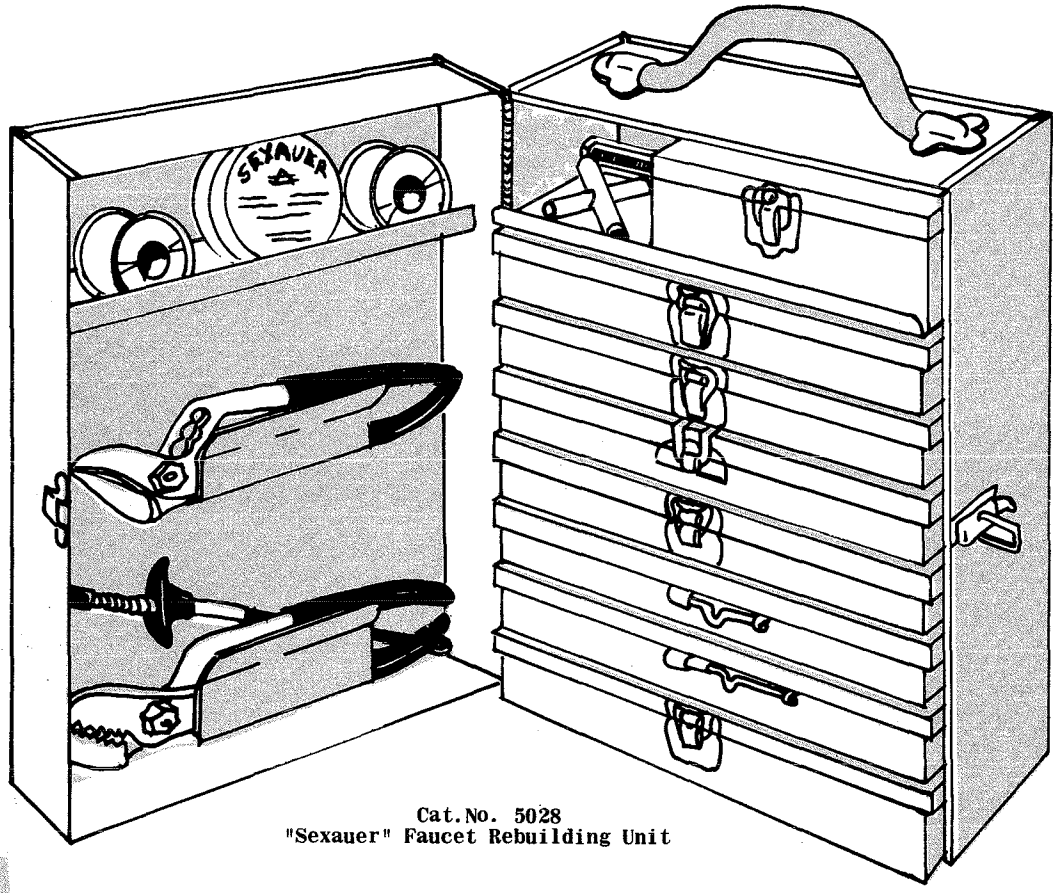
NOTE: The Handy Andy Label (in cover of carrying case) describes the contents of each Till and includes an "actual-size" illustration of each Bonnet & Stem Packing, "O" Ring, Top Gasket and Top Friction Ring—which also shows the Till in which they are located. This "unique feature" makes it easy to "match up" existing worn parts and select the "Sexauer" item to use for whatever purpose needed; also simplifies re-ordering items and sizes as required.

THE 'SEXAUER' FAUCET

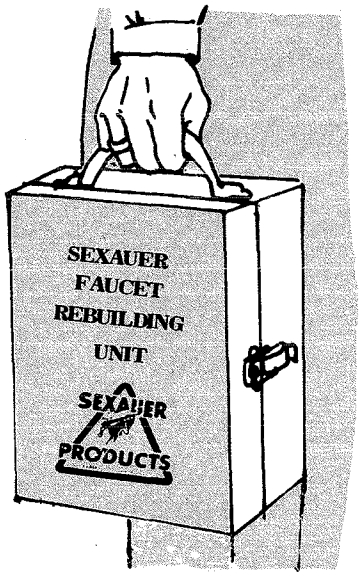
THE LAST WORD IN A PORTABLE FAUCET REBUILDING EQUIPMENT.

This compact, easy-to-carry, sturdy equipment places a "complete assortment" of correct types and sizes of 'Sexauer' faucet repair parts at mechanics' fingertips to permit PROPERLY REBUILDING practically any make or type fixture.

It eliminates having to use substitute or misfit materials and thus prevents costly comebacks while insuring longer-lasting and trouble-free repairs that result in substantial savings in water, fuel, labor and premature fixture replacements.



Cat.No. 5028
"Sexauer" Faucet Rebuilding Unit

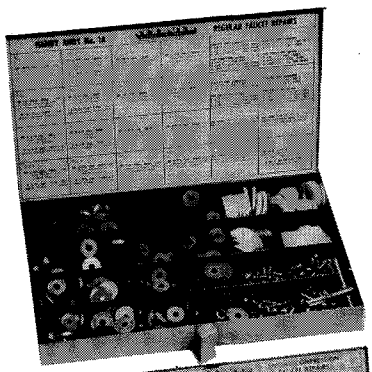


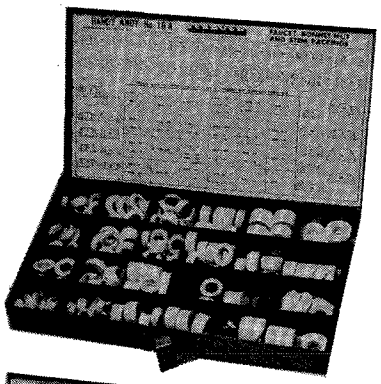
The 'Sexauer' Faucet Rebuilding Unit includes 7 of our famous 'Sexauer' Handy Andy Assortments that contain 360 different items and sizes of faucet repair parts totaling 1987 pieces, nested in the strong, compact carrying case.

IT PAYS TO BE PROPERLY EQUIPPED
TO MAKE "PROFESSIONAL" REPAIRS!

The 'Sexauer' Faucet Rebuilding Unit is so compact that it can be carried out on the job with ease. It enables the mechanic to "rebuild" faucets so that they STAY FIXED --- and to do it QUICKLY - EASILY - PROFESSIONALLY.

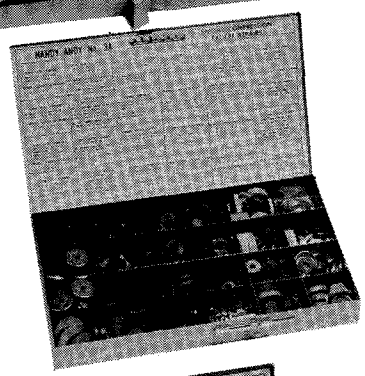
REBUILDING UNIT

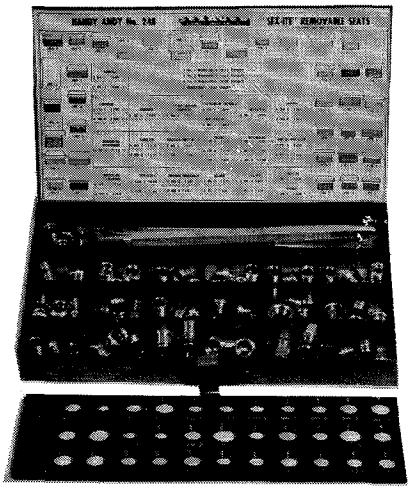


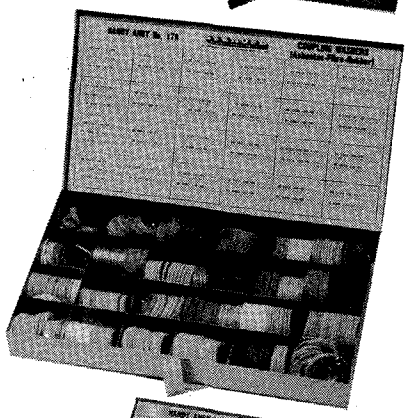


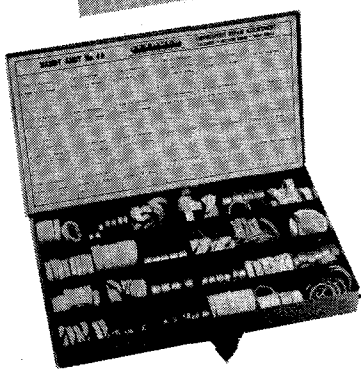
CONTENTS OF HANDY ANDY ASSORTMENTS
INCLUDED IN THE 'SEXAUER' FAUCET REBUILDING UNIT

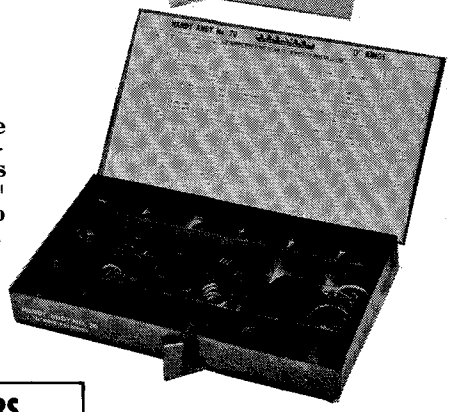
		No. of Items	No. of Pieces
No. 1A	Regular Faucet Repairs	48	572
No. 3A	Special Compression Repairs	82	289
No. 4A	Swingspout Packings & Rings	53	218
No. 16A	Bonnet Nut & Stem Packings	44	158
No. 17A	Coupling Washers (all kinds)	52	500
No. 20	"O" Rings (for any purpose)	45	150
No. 24B	"Sex-ite" Removable Seats	36	100
	TOTALS:	360	1987











'Sexauer' Handy Andies keep each item and size in its place. Indexes, with "actual size" illustrations where practical, identify the items in each Till; make it easy to select "correct" types and sizes for each repair job. They also simplify reordering items correctly as needed.

For detailed description of contents of each Handy Andy, see reduced size replicas of the Indexes shown below and on succeeding pages.

Contains 100 "Sex-ite" Removable Full-Saddle Faucet Seats of 36 sizes, a Removable Seat Gauge, and 3 Removable Faucet Seat Wrenches.

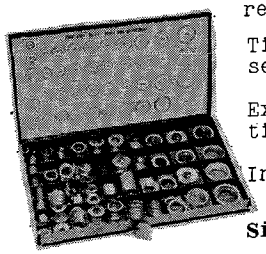
While designed to fit certain types of 18 popular makes of faucets, many 'Sexauer' Seats also fit other fixtures.

The "Gauge" included with the assortment makes it simple to check any existing seat, then select the 'Sexauer' Seat to use for a replacement.

The 3 Removable Seat Wrenches make it easy to remove existing worn seats and to install new ones.

SEE ILLUSTRATION SHOWN ON PAGE 9

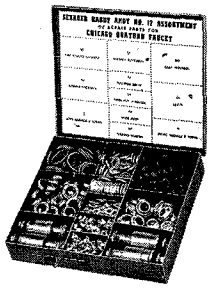
'SEXAUER' HANDY ANDY ASSORTMENTS



Provide an easy, convenient means of carrying a complete variety of required small repair parts out on the job. Ensure efficient, quick and "craftsman-like" repairs.

Tills provide orderly arrangement of each type and size of item. The covers lock securely so that each part always stays in its proper place.

Expertly organized to put correct parts at a mechanic's fingertips. Save endless time and trouble. Avoid costly comebacks and repeat repairs.



Indexes in covers identify each part; make it easy to locate correct parts for any job. Simplify refilling of tills and reordering items and sizes when needed.

Size and Till Layout varies with the types of items and number of pieces included.

GENERAL FAUCET REPAIR ASSORTMENTS

Cat.No. 5049 HANDY ANDY No. 1
168 Pieces: "Easy-Tite" Faucet Washers, Top Gaskets, Top Friction Rings & Felt Stem Gaskets. SEE ALSO No. 1A BELOW

Cat.No. 5050 HANDY ANDY No. 1A
572 Pieces: Regular Faucet Repairs. SEE PAGE 9 PHOTO & DETAILS OF CONTENTS

Cat.No. 5068 HANDY ANDY No. 2C
186 Pieces: C.P. Handle & Set Screws. SEE ILLUSTRATION SHOWN ON PAGE 28

Cat.No. 7163 HANDY ANDY No. 2D
288 Pieces: Monel "Self-Locking" Screws & 10-24 Screw Tap. SEE PHOTO ON PAGE 19

Cat.No. 7164 HANDY ANDY No. 2E
144 Pieces: Monel "Self-Locking" Screws & 10-24 Screw Tap. SEE PHOTO ON PAGE 19

Cat.No. 7026 HANDY ANDY No. 3
119 Pieces: Large "Easy-Tite" Faucet Washers; Shower Va. Washers; Special Washers & parts for Bell Supply, Crane Chicago. Mueller, Standard etc.

Cat.No. 7027 HANDY ANDY No. 3A
289 Pieces: Special Compression Faucet Repairs. SEE PHOTO ON PAGE 9 & DETAILS OF CONTENTS SHOWN ON PAGE 10

Cat.No. 5206 HANDY ANDY No. 4
103 Pieces: Swingspout Coupling Nut Packings and Friction Rings

Cat.No. 7276 HANDY ANDY No. 4A
218 Pieces: Swingspout Coupling Nut Packings & Rings. SEE PHOTO ON PAGE 9, & DETAILS OF CONTENTS SHOWN ON PAGE 10

Cat.No. 5080 HANDY ANDY No. 16
109 Pieces: Faucet Bonnet Nut Packings (See No. 16A below for wider variety)

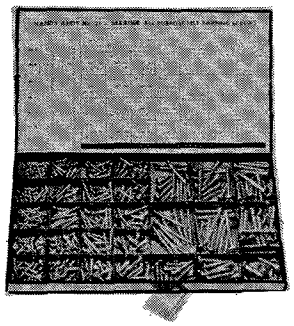
Cat.No. 7277 HANDY ANDY No. 16A
158 Pieces: Faucet Bonnet Nut Packings. SEE ILLUSTRATION SHOWN ON PAGE 9 & DETAILS OF CONTENTS ON PAGE 10

Cat.No. 7241 HANDY ANDY No. 17
200 Pieces: Coupling Washers of Rubber Fibre & Asbestos, 44 sizes, for faucet repairs and a great many other uses. (See No. 17A below for wider variety)

Cat.No. 7255 HANDY ANDY No. 17A
500 Pieces: Coupling Washers, similar to No. 17 above, but includes 52 sizes. SEE ILLUSTRATION SHOWN ON PAGE 9 & DETAILS OF CONTENTS ON PAGE 11

Cat.No. 7242 HANDY ANDY No. 20
150 Pieces: "O" Rings of 45 sizes for faucets & other uses. SEE PHOTO ON PAGE 9 AND DETAILS OF CONTENTS ON PAGE 11

Cat.No. 7200 HANDY ANDY No. 24B
100 Pieces: "Sex-ite" Removable Seats of 36 sizes, Seat Gauge&3 Seat Wrenches SEE ILLUSTRATION SHOWN ON PAGE 9 & DETAILS OF CONTENTS ON PAGE 11



Cat.No. 7481 HANDY ANDY No. 24M
102 Pieces: "Monel" Removable Faucet Seats, 28 sizes. SEE PHOTO ON PAGE 17

Cat.No. 7160 HANDY ANDY No. 25
200 Pieces: Parkchester Faucet Washers and Monel "Self-Locking" Screws. SEE ILLUSTRATION SHOWN ON PAGE 19

Cat.No. 7191 HANDY ANDY No. 26
125 Pieces: "Monel" Washer Retainers SEE ILLUSTRATION SHOWN ON PAGE 19

GIANT HANDY ANDY ASSORTMENTS For Rebuilding Faucets

Cat.No. 5064 HANDY ANDY No. 100
1079 Pieces: Regular Compression Faucet Repairs including Washers, Screws, Top Gaskets & Fr. Rings, Bonnet Packings, 10-24 Screw Tap & Mechanical Finger. SHOWN ON P. 18. SEE ALSO No. 100A BELOW

Cat.No. 5757 HANDY ANDY No. 100A
867 Pieces: The LAST WORD in a Regular Compression Faucet Repair Assortment. PHOTO & DETAILS OF CONTENTS ON PAGE 7

SPECIFIC FAUCET REPAIR ASSORTMENTS

Cat.No. 5356 HANDY ANDY No. 12
509 Pieces: Chicago "Quaturn" Repair Parts. SEE ILLUSTRATION ON PAGE 40

Cat.No. 5558 HANDY ANDY No. 18
238 Pieces: American Standard Faucet & Shower Va. Repairs. PHOTO ON PAGE 36

Cat.No. 7343 HANDY ANDY No. 22
178 Pieces: Crane "Dial-Ese" Repairs & "Dial-Ese" Wrench. PHOTO ON PAGE 43

Cat.No. 7389 HANDY ANDY No. 23
622 Pieces: Kohler Faucet Repairs, Seat and Socket Wrenches. PHOTO ON PAGE 46

Cat.No. 7364 HANDY ANDY No. 28
421 Pieces: American Standard Series "R" & "B" parts. PHOTO ON PAGE 37

TOILET TANK & BOWL REPAIR ASSORTMENTS

Cat.No. 5743 HANDY ANDY No. 5
100 Pieces: Ball Cock Washers to fit practically any valve. SEE ON PAGE 74

Cat.No. 5742 HANDY ANDY No. 5A
200 Pieces: Ball Cock Washers, same as in No. 5 but double quantity.

Cat.No. 5780 HANDY ANDY No. 6
45 Pieces: "Sex-ite" Metal Ball Cock Seat Caps to fit practically any make valve. ILLUSTRATED ON PAGE 75

Cat.No. 5779 HANDY ANDY No. 6A
92 Pieces: "Sex-ite" Metal Ball Cock Seat Caps, same as in No. 6 above but a larger quantity. SEE PAGE 75

Cat.No. 5840 HANDY ANDY No. 7
126 Pieces: Ball Cock Piston Packings, Thumb Screws, Cotter Pins, Lea. Cups, Coupling Washers, Screws, Refill Plugs ILLUSTRATED ON PAGE 76

Cat.No. 5839 HANDY ANDY No. 7A
254 Pieces: Ball Cock Repair Parts, same as in No. 7 above. SEE PAGE 76

Cat.No. 7028 HANDY ANDY No. 8
68 Pieces: Closet Bolts, Closet Screws, Sink Bolts, Nuts and Washers.

Cat.No. 7029 HANDY ANDY No. 9
64 Pieces: Bumpers of all types and sizes for toilet seats and other needs.

Cat.No. 5838 HANDY ANDY No. 15
109 Pieces: Ball Cock Piston Packings for practically any make valve.

MISCELLANEOUS REPAIR PARTS

Cat.No. 7004 HANDY ANDY No. 10 (Revised)
248 Pieces: C.P. Brass Wood Screws of 23 Sizes. Larger than the former No. 10 assortment shown on Page 98

Cat.No. 6823 HANDY ANDY No. 11
82 Pieces: Teflon & Graphite Asbestos Valve Stem Bonnet Packings for popular make valves. ILLUSTRATED ON PAGE 97

Cat.No. 6667 HANDY ANDY No. 13
27 Pieces: Multi-Seal Repair Plugs and Wrench for installing. SEE PAGE 95

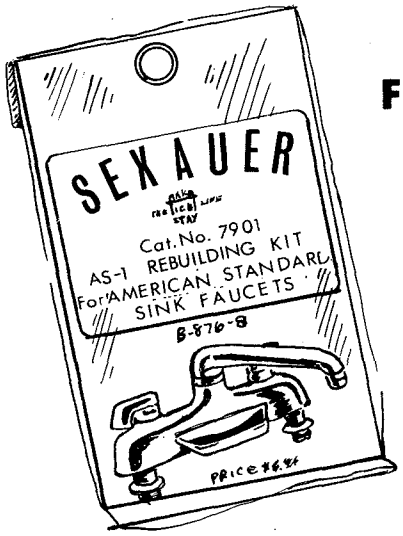
Cat.No. 5282 HANDY ANDY No. 14
87 Pieces: Ball Joint Packings for Pop-up Wastes & Shower Heads. SEE PAGE 27

Cat.No. 7475 HANDY ANDY No. 19
288 Pieces: "Sex-ite" Cotter Pins, 17 sizes, for any purpose. SEE PAGE 76

Cat.No. 7020 HANDY ANDY No. 21
432 Pieces: All-Purpose Self-Tapping Screws of 29 sizes. SHOWN ON PAGE 98

Cat.No. 7665 HANDY ANDY No. 29
264 Pieces: Brass Rings, 44 sizes, for any use. SEE ILLUSTRATION & DETAILS OF CONTENTS SHOWN ON PAGE 4B

Cat.No. 7666 HANDY ANDY No. 30
289 Pieces: Brass Compression Sleeves & Nuts. SEE ILLUSTRATION & DETAILS OF CONTENTS SHOWN ON PAGE 4B



'SEXAUER' FAUCET REBUILDING KITS

'Sexauer' Faucet Rebuilding Kits contain all the "essential" parts normally required to PROPERLY REBUILD the fixtures for which they are designed.

Parts are enclosed in a transparent plastic bag with a brass grommet to permit hanging on nails or a rack if desired. A card in each Rebuilding Kit shows the Cat.No. and Kit No, - and it also identifies the fixture for which it is designed.

With 'Sexauer' Faucet Rebuilding Kits, you can be sure the parts will "fit"; avoid comebacks; and insure long-lasting, trouble-free service.

THE 'SEXAUER' FAUCET

'SEXAUER' FAUCET SEAT REFORMING TOOL

WITH EXCLUSIVE SADDLE SEAT CUTTERS

Using this 'Sexauer' PATENTED PRECISION TOOL is the first step in controlling the tremendously wasteful faucet leaks that increase water, fuel and labor bills as well as ruin costly fixtures.

It reforms worn, pitted, corroded or water-cut seats to a velvety-smooth new contour that provides maximum seating surface for the washer. It similarly reforms narrow, sharp or imperfectly-formed seats frequently found in even brand new faucets and small valves. Thus, it insures a positive, easy shut-off; eliminates leaks; prolongs fixture life.

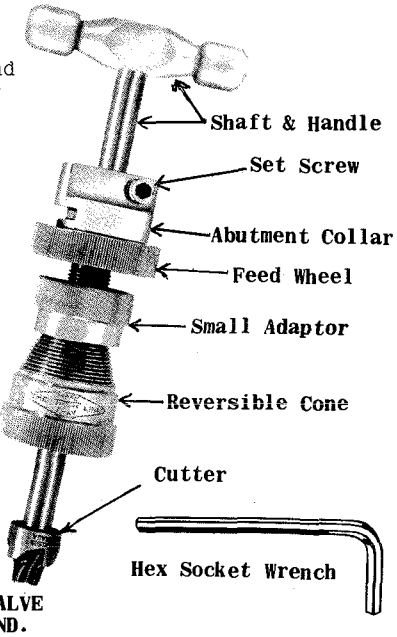
The tool also corrects the problem of "off-center" seats another very common manufacturing defect, that results in countless leaks and undue wear on faucet threads.

It attaches easily to practically any faucet, is fast and simple to use, reforms the seat better than new.

Cat. No. 5002
'Sexauer' Faucet Seat Reforming Tool
Includes all of the following component parts and Carrying Case, each of which can be ordered separately if and when needed as a replacement.

Cat. No.	Tool Parts
5003	Set Screw
8588	Hex Socket Wrench
5004	Shaft & Handle
5005	Feed Wheel
5006	Reversible Cone
5007	Abutment Collar
5008	Small Adaptor
5009	Carrying Case

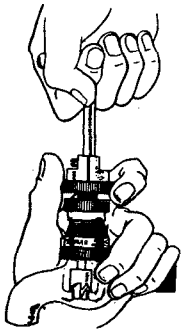
Cat. No.	Saddle Seat Cutter Size
5010	"0" Small
5011	"0"
5012	1/4" Small
5013	1/4"
5014	1/4" Large
5015	3/8"
5016	3/8" Medium
5017	3/8" Large
5018	1/2" Small
5019	1/2"



As shown in the above illustration, any or all of the "Auxiliary Parts" for the tool, which are shown on the adjoining page, will also fit in the Carrying Case --- but such parts must be ordered separately as desired.

The SADDLE SEAT formed by this Precision Tool differs in both principle results. A graphic comparison between this "new development" and old style "reseaters", shown below, illustrates clearly the unquestionable advantages and vast superiority of this 'Sexauer' tool.

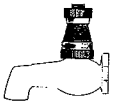
ATTACHES QUICKLY AND EASILY TO ANY STYLE FAUCET OR SMALL VALVE WORKS PERFECTLY WHETHER FAUCET IS IN PLACE OR HELD IN HAND.



The 'Sexauer' Faucet Seat Reforming Tool is simple and easy to use on all styles and kinds of faucets, and also on small globe or stop and waste valves.

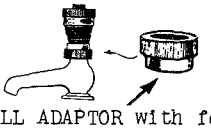
Complete instructions on how to operate it and insure reforming seats perfectly are included with each tool.

It quickly pays for itself and, if used and cared for properly, tool parts and cutters will last a lifetime.



INTERNAL CONE attaches the tool to faucets or valves that have male bonnet threads.

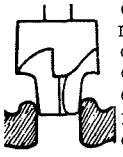
EXTERNAL CONE is used for attaching tool to female bonnet threads.



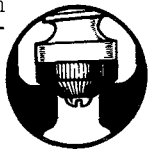
SMALL ADAPTOR with female threads, attaches tool to male thread faucets with small bonnets - and where the faucet body or spout interferes with using the regular INTERNAL CONE.

DON'T "REPAIR" REBUILD *the professional way!*

Due to a common defect in manufacture, faucet seats are very often OFF CENTER as is easily detected by examining the impression made on the washer. This causes undue stress that quickly wears out the operating threads and often results in having to discard the faucet.



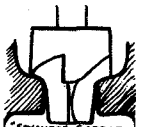
In the first stage of its operation, the "pilot" of the 'Sexauer' Cutter realigns the seat exactly concentric with the spindle.



Improperly shaped seats not only cause leaks by quickly distorting and ruining the washer, but they divert the normal water path and annoying whistling, squealing or chattering are frequent results.

Ordinary Cutters form sharp, narrow seats. There is also danger of cutting completely thru the diaphragm stock and ruining the fixtures.

The 'Sexauer' SADDLE SEAT CUTTER forms a contour that assures an easy, positive shut-off, eliminates washer distortion and frequent replacement; prolongs the faucet life. The water follows a gently curved path that thus eliminates obnoxious noises.

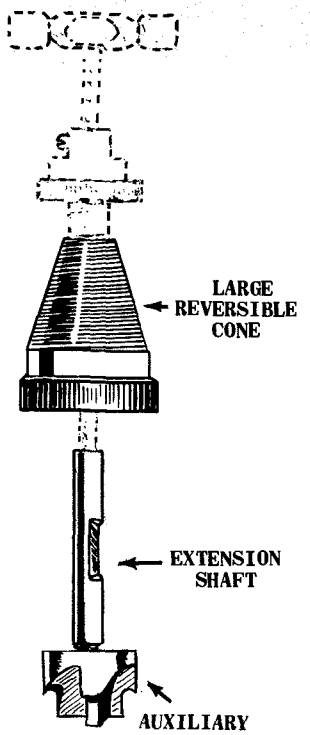


A 'Sexauer' SADDLE SEAT CUTTER forms perfect seats even on faucets with thin diaphragms. In most cases, once a Saddle Seat is formed, it can be reformed a number of "additional times" as needed and without fear of cutting thru the faucet diaphragm.

REBUILDING TECHNIQUE

AUXILIARY PARTS FOR REFORMING TOOL

FOR LARGE FAUCETS AND SPECIAL FIXTURES



Cat.No. 5020 Auxiliary Unit Complete
Consists of the following parts and 4 LARGE RAISED SEAT CUTTERS:

Cat.No. 5022 Large Reversible Cone
Cat.No. 5023 Extension Shaft
Cat.No. 5024 1/2" L Cutter
Cat.No. 5025 5/8" Cutter
Cat.No. 5026 3/4" Cutter
Cat.No. 5027 1" Cutter

The Auxiliary Unit Parts for the 'Sexauer' Faucet Seat Reforming Tool, illustrated to the left and listed above, adapt the tool for reforming seats on a wide range of larger faucets and valves of types and styles that the basic tool shown on the preceding page is not designed to accommodate.

Such fixtures include old style large faucets of all kinds, many built-in bath and shower valves, larger globe or stop & waste valves, small size steam and radiator valves etc.

By assembling the LARGE REVERSIBLE CONE in place of the Regular Cone, the tool can be attached to fixtures, with either male or female threads, for which the Regular Cone is too small.

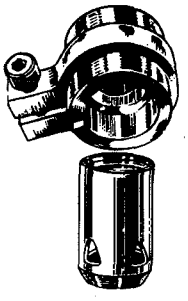
Assembling the EXTENSION SHAFT to the end of the Regular Shaft, permits using the tool on fixtures where the seat is from 7" to 10" deep.

The LARGE RAISED SEAT CUTTERS are needed on many fixtures where large flat washers or valve discs are used. They fit on either the Regular Shaft or Extension Shaft and can be used with either the Regular Cone or Large Cone, whichever is required.

RE-NU ADAPTOR

Not included in Auxiliary Unit
If desired, order separately.

Cat.No. 5021



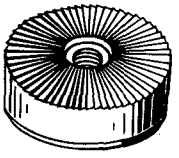
The Re-Nu Adaptor holds small or large barrels firmly. Then, by using the Internal Cone, the tool is fastened to it and the seat can be reformed in usual way.

For reforming the seats of "Standard" or Kohler Renewable Barrels - and thus saving the cost of barrel replacements.

RADIATOR VALVE CUTTERS

Not included in Auxiliary Unit
If desired, order separately.

Cat.No.	Size
7121	1-1/8"
7122	1-1/4"
7123	1-1/2"



Size indicates O.D. of Cutter

'SEXAUER' REMOVABLE SEAT TAPS & REMOVABLE SEAT CUTTERS

For use with 'Sexauer' Faucet Seat Reforming Tool

Faucets and small valves with worn out, pitted or corroded "non-removable" seats, or with odd-size "removable seats" for which replacements are not available, need no longer be discarded. They can now be repaired quickly and easily by using 'Sexauer' Removable Seat Taps and Cutters to prepare fixtures for installing 'Sexauer' Removable Seats.

'Sexauer' Removable Seat Taps ream out the existing throat of the fixture, whether it is threaded or not. At the same time, they form threads for the 'Sexauer' Removable Seat. 'Sexauer' Removable Seat Cutters form a "precision-smooth" flat surface in the fixture, against which the new removable seat will make a positive, tight seal.

REMOVABLE SEAT TAPS

Cat. No.	Tap No.	Tap Size & Thread	'Sexauer' Seats that fit the size and thread of each Tap. "SEX-ITE" SEATS	"MONEL" SEATS

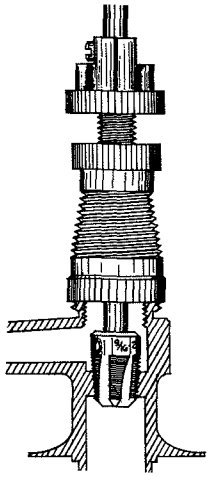
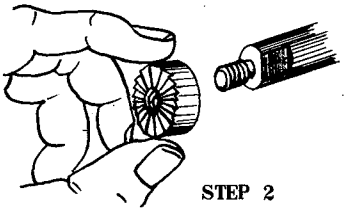
5031	1/2"
5032	9/16"
5033	5/8"
5034	3/4"
5035	7/8"
5030	Set (1 of each)



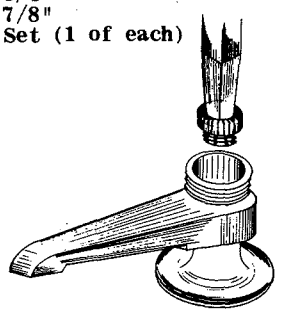
STEP 1

SEE TABLE ABOVE for selecting Tap matching size and thread of seat to be used. Assemble Tap on tool shaft, then tap to full depth of the diaphragm stock.



STEP 2

Use Removable Seat Cutter with larger O.D. than existing seat. Turn feed wheel ALL THE WAY DOWN and attach tool to fixture. Back off feed wheel 1/2 TURN ONLY, push shaft down until the cutter makes contact, then tighten set screw to "lock" shaft in place. Operate tool as usual until feed wheel won't go any further, then turn handle few more times to "polish" surface formed by cutter.



STEP 3

Screw new 'Sexauer' Full-Saddle Seat into faucet then re-install stem and bonnet nut, after first replacing worn washer and screw with 'Sexauer' EASY-TITE washer and Monel SELF-LOCKING screw.

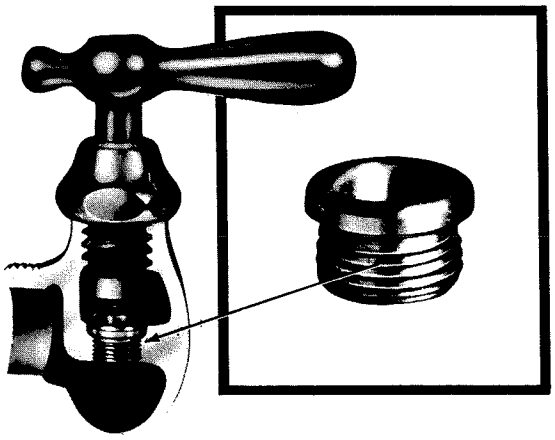
'SEXAUER' REMOVABLE FULL-SADDLE FAUCET SEATS

Provide an ideal seating surface that • Stops leaks • Prolongs life of washers and fixtures • Reduces over-all maintenance costs



Worn, pitted, corroded or faulty seats cause "leaky faucets". 'Sexauer' Removable Full-Saddle Seats improve the service and prolong the life of the washer and fixture. Here is why:

1. The special design of the Full-Saddle Seat provides a maximum velvety-smooth seating surface. The possibility of the washer becoming "chewed" or deeply grooved is eliminated.

2. Excessive closing pressure is not required to insure a positive, tight seal. This reduces wear on the faucet threads and washers; eliminates costly stem replacements and frequent re-washering; prolongs fixture life.

3. The contour of the "Full-Saddle" Seat insures maximum flow that follows a gently curved path, prevents irritating noise.

4. Made of either "Sex-ite" (a special alloy) or Monel, they are rust-proof and resistant to corrosion, abrasion, erosion. "Sex-ite" metal outlasts brass or other inferior alloys many times over; is surpassed in durability only by Monel.

NOTE: Adjoining Page 16 shows actual size of each 'Sexauer' Removable Seat and its dimensions, to permit readily selecting the one that will serve as a proper replacement for existing seats. By checking the illustrations and dimensions, many of them will be found to fit numerous other fixtures in addition to those for which they are designed. Page 15 illustrates how 'Sexauer' Removable Seats can also be readily installed in fixtures with worn out "machined" seats or those with odd-size removable seats for which replacements are not available.

REMOVABLE FAUCET SEAT WRENCHES

Cat. No. 7110 No. 1 Removable Seat Wrench

For replacing Removable Faucet Seats with Hex Broaching. Tapered ends permit use on a wide range of seat sizes.

Cat. No. 7111 No. 2 Removable Seat Wrench

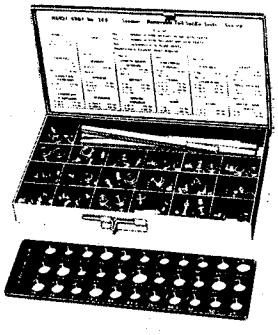
For Removable Faucet Seats with Square Broaching. The tapered ends permit use on almost any size of seat.

Cat. No. 7103 No. 3 Removable Seat Wrench

Specially designed to fit "tall" EL-2-3-4 Eljer Seats with Square Broaching, that other wrenches do not fit.

'SEXAUER' REMOVABLE SEAT HANDY ANDY ASSORTMENTS

Provide a convenient means of carrying a complete assortment of 'Sexauer' Removable Seats out on the job. Permit replacing worn, pitted, corroded seats on the spot, thus saving repeat repairs and prolonging the life of costly fixtures.



Cat. No. 7200 No. 24B Handy Andy

Contains 100 assorted "Sex-ite" Removable Seats(36 sizes), Removable Seat Gauge and 3 Removable Seat Wrenches.

Cat. No. 7481 No. 24M Handy Andy

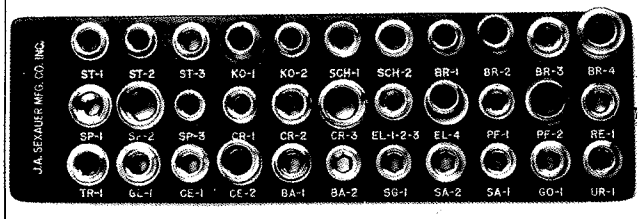
Contains 102 assorted "Monel" Removable Seats(28 sizes) and provides a space for carrying Removable Seat Gauge and Seat Wrenches, which do not come with it.

REMOVABLE FAUCET SEAT GAUGE

Cat. No. 7131

Provides a simple means of checking a worn removable seat to determine the 'Sexauer' Removable Seat that will replace it. Invaluable to mechanics out on the job and for determining stock requirements.

NOTE: THE SEATS SHOWN IN THE ILLUSTRATION BELOW, ARE NOT INCLUDED WITH THE REMOVABLE SEAT GAUGE.



'SEXAUER' EASY-TITE® FAUCET WASHERS

MADE OF A SPECIAL, FIBERGLAS REINFORCED COMPOUND

'EASY-TITES," a modern laboratory triumph, excel all other faucet washers in resistance to pressure, absorption and extreme temperature. Made of a special product reinforced with Fiberglas, they withstand destructive heat common to hot water systems—upward to 300° F. and will not split or mush out of shape.

EVERY REQUIRED SIZE is available to fit any faucet spindle perfectly without trimming. They adapt themselves to the countour of the faucet seat, especially the 'saddle seat' formed with the 'Sexauer' Bibb Seat Reforming Tool. "EASY-TITES" insure a positive shut off, yet the faucet opens or closes with a finger flip.

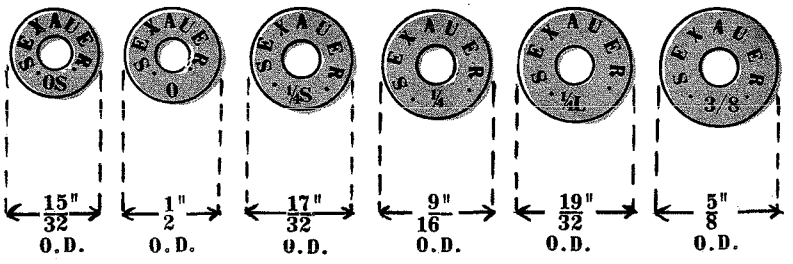
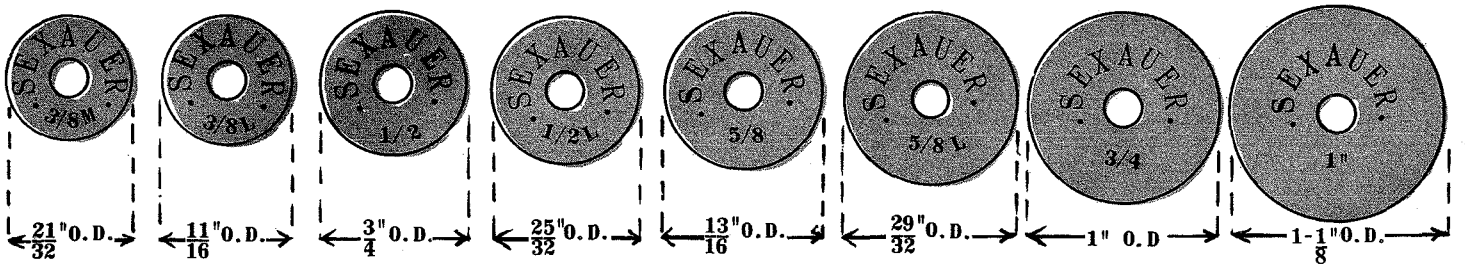
WASHER IDENTIFICATION CHART

SHOWS ACTUAL SIZE OF 'SEXAUER' FAUCET WASHERS

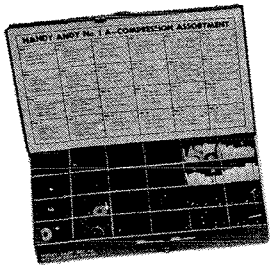
Provides a simple, easy means of determining the correct size 'Sexauer' Faucet Washer to order as replacement for other makes.

Also determines the correct size 'Sexauer' Washer Retainer (see next page) to order for any washer as Retainer sizes correspond to washer sizes.





"HANDY ANDY" COMPRESSION ASSORTMENTS



Cat. No. 5050
No. 1A Handy Andy
(as illustrated)

Contains 572 pieces of 48 items and sizes. Includes "Easy-Tite" Washers up to 3/8" L, Monel "Self-Lock" Screws & Washer Retainers Top Gaskets and Fr. Rings 8-32 and 10-24 Screw Taps.

Index in cover identifies contents of each till; makes it easy to select correct parts for each job and refill tills as required.

Cat. No. 5049 No. 1 Handy Andy
Smaller than No. 1A and contains 168 pieces, 31 similar items & sizes, but does not include Washer Retainers, Screws or Taps.

Cat. No. 5064
No. 100 Giant Handy Andy

A larger faucet repair assortment containing 1079 pieces, 43 items & sizes, in a somewhat larger but still easy-to-carry, sturdy metal case. Screw Taps (8-32 and 10-24) and a handy Mechanical Finger are also included along with the complete assortment of faucet repair parts that include the following:

Beveled & Flat "Easy-Tite" Washers
Monel "Self-Locking" Screws
Faucet Top Gaskets & Fr. Rings
Faucet Bonnet Nut Packings

NOTE: Furnished with "All Beveled" or "All Flat" Easy-Tites if requested

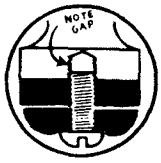
'SEXAUER' MONEL "SELF-LOCKING" FAUCET SCREWS

9-in-10 faucet washers are installed with screws that are **TOO LONG** or **TOO SHORT** as shown in the illustrations below. The washers soon work loose and are destroyed, so faucets start leaking - water, fuel and labor are wasted - and the fixtures themselves wear out much quicker.

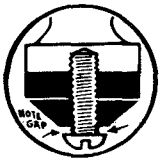
'Sexauer' Monel **"SELF-LOCKING"** Screws are rustproof and non-corroding. Heads can't twist off and screw slots can't distort. Are easily removed, can be used over and over.

Cat.No. and Size	Cat.No. and Size
101 3/8" x 6-32	113 1/2" x 6-32
102 3/8" x 8-32	114 1/2" x 8-32
104 3/8" x 10-32	116 1/2" x 10-32
105 3/8" x 10-28	117 1/2" x 10-28
106 3/8" x 10-24	118 1/2" x 10-24
200 1/4" x 8-32 not "Self-Locking"	

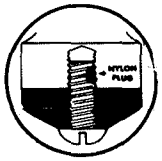
Packaged 144, 72 and 36



THE WRONG WAY!
If the screw is **TOO SHORT**, it distorts and splits the washer when tightened. The washer works loose and rotates on the spindle.



THE WRONG WAY!
If the screw is **TOO LONG**, the screw head can not grip and hold the washer tightly. Washer becomes ruined and causes hammering in water line.



THE RIGHT WAY!
The **NYLON PLUG** imbedded in "Self-Locking" Screws is compressed when the screw is tightened. When the screw reaches the correct depth to hold the washer firmly without distortion, it is **LOCKED AUTOMATICALLY** and prevents washer failure.

AN IMBEDDED NYLON PLUG LOCKS THEM AT REQUIRED DEPTH AUTOMATICALLY!

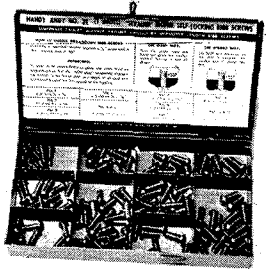
Cat.No. 7164
No. 2E Handy Andy
1 Gross assorted

Each Handy Andy also contains 8-32 and 10-24 Taps.



'SEXAUER' MONEL WASHER RETAINERS

'Sexauer' Monel Washer Retainers often eliminate the necessity of buying new faucet stems. They are simple and easy to install. Just grind or file off the existing rotted retainer. When the new washer is inserted and installed on the stem, the screw holds both the washer and retainer firmly in place.

JIFFY FAUCET SCREW TAPS

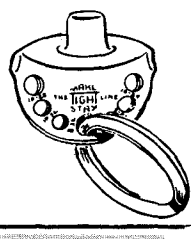
Cat.No. 7161 No.1 10-24
Cat.No. 7101 No.2 8-32

For Correcting faulty or damaged threads in faucet stems and for countless other uses when making plumbing and electrical repairs.

'SEXAUER' FAUCET SCREW GAUGE,

Cat.No. 5065

Makes it easy to determine thread and gauge of screws. Also provides handy 3-way screw driver and "safety" key ring which, if lost, may be dropped by finder into any mail box, then held by 'Sexauer' for claim by owner.



'SEXAUER' PARKCHESTER FAUCET WASHERS

SPECIALLY DESIGNED TO MEET SPECIAL NEEDS

'Sexauer' Parkchester washers are made of a special, tough compound that requires a special extruding process. While their hard texture cannot possibly provide the easy, finger-flip shut off insured with "Easy-Tites", they withstand the most extreme hot water and abuse.

Packaged 500, 250 and 125

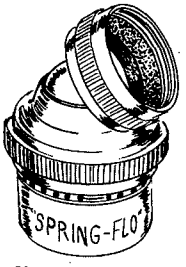
'SEXAUER' AERATORS

AERATORS WITH 15/16" THREAD

Cat.No. 7259 No.1 Male "Spring-Flo" Unit

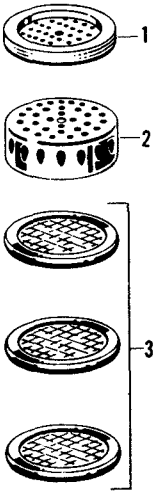
Cat.No. 7260 No.1 Female "Spring-Flo" Unit

Cat.No. 7224 No.2 Male "Vandal-Proof" Aerator
Disc Key for installing is furnished with unit



Cat.No. 7226 No.4 Female Swivel Action Aerator

REPAIR PARTS FOR ALL 15/16" AERATORS



1 **Cat.No. 7232 No.2 Spring-Flo Screen** (Self-Sealing Rim)
2 **Cat.No. 7234 No.1 Spring-Flo Perforated Metal Cup**
3 **Cat.No. 7231 No.1 Spring-Flo Screen**(Copper Rim - 3 used)

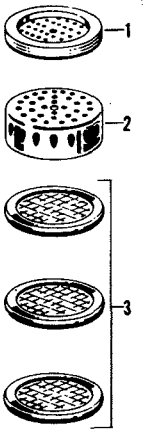
Cat.No. 7233
No.1 Spring-Flo Rebuilding Kit
For all 15/16" Aerators
Includes above Repair Parts

AERATORS WITH 13/16" THREAD

Cat.No. 7225 No.3 Male "Spring-Flo" Unit

Cat.No. 7576 Vandlrator
For Speakman "Easy-Push" Metering Lavatory Faucet

REPAIR PARTS FOR 13/16" AERATORS



1 **Cat.No. 7229 No.3A Spring-Flo Screen** (Self-Sealing Rim)
2 **Cat.No. 7228 No. 3 Spring-Flo Perforated Metal Cup**
3 **Cat.No. 7227 No. 3 Spring-Flo Screen**(Copper Rim - 3 used)

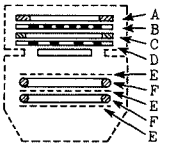
Cat.No. 7230 No.3 Spring-Flo Rebuilding Kit
For 13/16" Aerators. Includes above Repair Parts.

FOR CHICAGO FAUCETS

Cat.No. 7555 Chicago "Spring-Flo" Adaptor
Permits use of 15/16" Female Aerator on Chicago faucets.

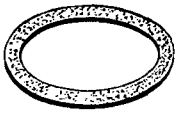
Cat.No. 7048 Chicago Aerator Complete
An assembly of #1 Female Spring-Flo Unit and Chicago Spring-Flo Adaptor.

Cat.No. 7245 Chicago "Soft-Flo" Repair Set
Includes all the parts listed below



A - Asbestos Gasket
B - Disc (Many Holes)
C - Rubber Gasket
D - Disc (Few Holes)
E - Screens (3)
F - Metal Ring (2)

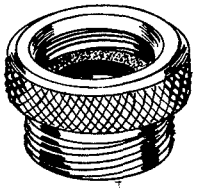
SPRING-FLO SPOUT WASHERS



Cat.No. 5208 No.2 Rubber
Cat.No. 7235 No.2 Fibre

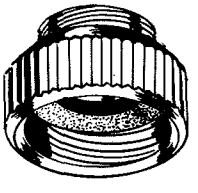
Required only on Adaptors

HOSE ADAPTORS



Cat.No. 7059
Male Hose Adaptor

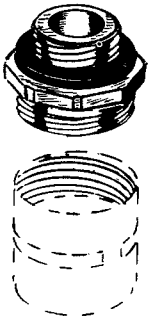
Has Female Thread for attaching to faucet, and Male Thread for attaching a Female Hose Connection



Cat.No. 7058
Female Hose Adaptor

Has Male Thread for attaching to faucet, and Female Thread for attaching Male Hose Connection

Cat.No. 7057
Laboratory Faucet Adaptor
Permits use of Female Aerator to replace a serrated hose nozzle.

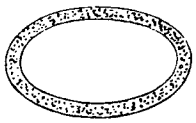


'SEXAUER' ANTI-SPLASH SPRINGS

Fit any spout
Easy to install

Cat.No. 5214
No.1 Sectional Spring

Cat.No. 5215
No.2 Corrugated Spring



NEED A CERTAIN SIZE FIBRE OR ASBESTOS WASHER? Such 'Sexauer' Washers are listed below in the order of their outside diameter so that you can quickly locate a size that will meet your requirements.

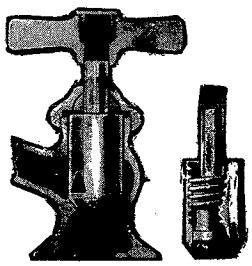
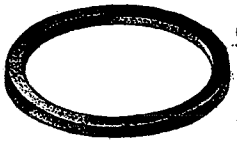
PARTS FOR "STANDARD" FAUCETS



STANDARD "RE NU" FAUCETS

Bonnet Nut Packings

Cat. No.	No.		O.D.	I.D.	Thick
5086	6	Teflon	11/16"	13/32"	5/16"
7257	41	C.I. Rubber	21/32"	27/64"	1/4"



Cap Thread Gaskets

Cat. No.	No.		O.D.	I.D.	Thick
5105	5	Asbestos	1"	13/16"	1/16"
5106	6	Neoprene	1"	7/8"	5/32"
5110	10	Asbestos	1-1/8"	31/32"	1/16"
5114	14	Rubber	1-1/4"	1"	1/8"

Cat. No. 5544 Cap Thread Friction Ring
7/8" x 29/64" x 3/64"

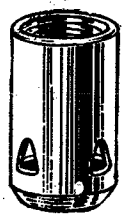
Renewal Stems
For Basin & Sink Fixtures
2-5/32"long x 7/16" dia.

Cat. No. 5545 No. AS-3R R.H. Thread
Cat. No. 5546 No. AS-3L L.H. Thread

HOW TO ORDER RE-NU STEMS & BARRELS

To insure receiving "correct" parts, it is MOST IMPORTANT to specify them as R.H. Thread or L.H. Thread rather than as "HOT" or "COLD"

Order "R.H. THREAD" parts for ALL "Re-Nu" faucets EXCEPT for "COLD" faucets WITH LEVER TYPE HANDLES, which need "L.H. THREAD" parts.



Renewal Barrel
For Basin & Sink Fixtures

Cat. No. 5547 No. AS-1R R.H. Thread
Cat. No. 5548 No. AS-1L L.H. Thread

Seat Washer

Cat. No.	Size
5037	1/4" S Beveled "Easy-Tite"
5052	1/4" S Flat "Easy-Tite"

RE-NU BARRELS WITH "O" RING SEAL
For Basin & Sink Fixtures

WITH MACHINED SEAT

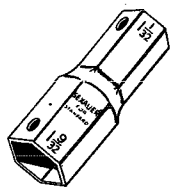
Cat. No.	No.	
5793	AS-2R	R.H. Thread
5794	AS-2L	L.H. Thread

WITH REMOVABLE MONEL SEAT

Cat. No.	No.	
6113	AS-3R	R.H. Thread
6114	AS-3L	L.H. Thread

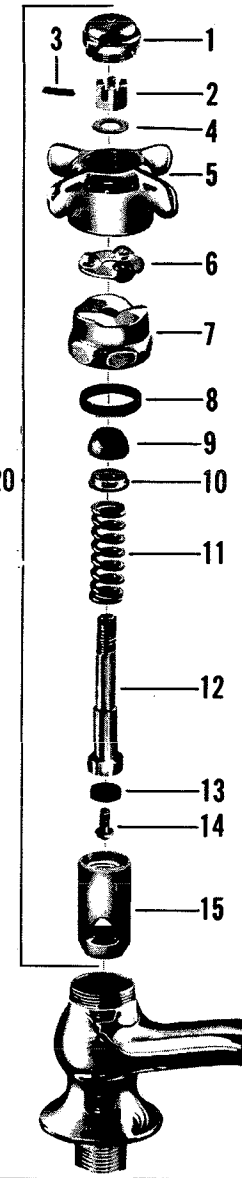
Insure a tight seal between barrel and faucet body, where pitting and corrosion otherwise cause frequent leaks that necessitate replacement of "ground joint" barrels that do not have the "O" Ring Seal.

'SEXAUER' No. 2 SOCKET WRENCH



Cat. No. 7796

For the Bonnet Nuts of American Standard built-in bath tub & shower fixtures.
Has two socket sizes: 1-1/32" and 1-9/32"



SELF-CLOSING "RE NU" FAUCET

'SEXAUER'

TANK, TOILET and BALL COCK REPAIRS

'Sexauer' "Golden Compound" is made from a specially developed DuPont formula to provide maximum tensile strength and resiliency and to insure triple wear. This distinctive "Golden Compound" identifies the top quality of the "Blue Spot" Tank Bulb and the following other 'Sexauer' items:

SPUD GASKETS	CHINA TANK GASKETS	FEATHER EDGE WASHERS
BASIN GASKETS	SLIP JOINT WASHERS	TANK WASHERS
BATH GASKETS	SINK GASKETS	WASTE WASHERS

ANOTHER EXCLUSIVE SEXAUER DEVELOPMENT

'SEXAUER' PATENTED FLUSH VALVE REFORMING TOOL

Cat.No. 5919
Flush Valve Reforming Tool
Includes Small Cutter for 2-3/8" and 2-1/2" Flush valves, and Leatherette Carrying Case

NOTE: If a Large Cutter for 2-5/8" & 2-3/4" Flush valves is desired, order Cat.No. 5922 in addition and as a separate item.

FLUSH VALVE TOOL PARTS

Cat.No.	
5920	**Tool Shaft** (Includes Bolt)
5921	**Small Cutter** 2-3/8" & 2-1/2"
5922	**Large Cutter** 2-5/8" & 2-3/4"
5923	**Leatherette Carrying Case**

FORMS A PRECISION SEAT!

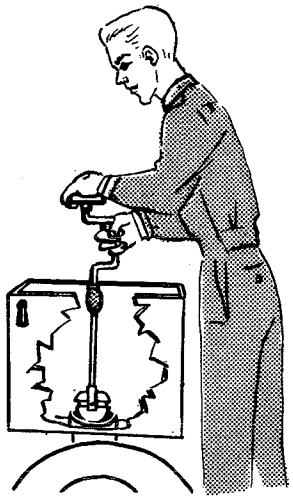
PROLONGS LIFE OF VALVE!

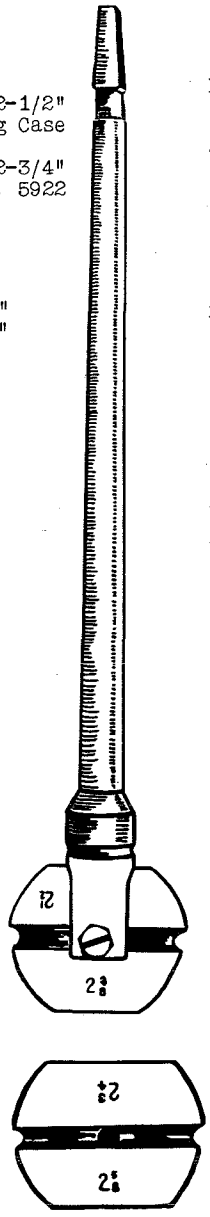
FAST AND EASY TO OPERATE!

ELIMINATES WATER WASTE!

INCREASES TANK BULB LIFE!

AVOIDS VALVE REPLACEMENTS!



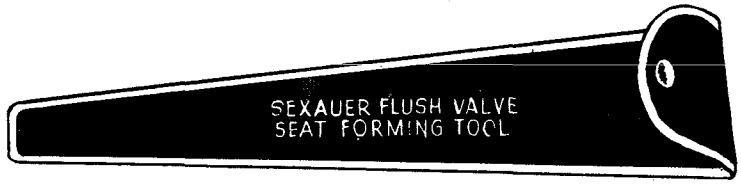


Improperly shaped or improper size tank bulbs may seem unimportant but they quickly create rough, pitted and corroded Flush Valve Seats. Such conditions prevent any tank bulb from seating properly, cause annoyance and excessive water waste, and eventual replacement of the entire flush valve. Even NEW flush valves are seldom precision-machined and need REFORMING to ensure maximum efficiency and avoid premature replacement.

ELIMINATES COSTLY REPLACEMENTS

Costly flush valve replacements and needless water waste are now eliminated by using the 'Sexauer' Flush Valve Reforming Tool Machined from the finest case-hardened tool steel with tolerances limited to one ten-thousandths of an inch, it is "precision-built" to make flush valve seats BETTER THAN NEW.

It is not necessary to remove the flush valve from the tank; the valve seat is re-formed right in the tank - and in just a few minutes - by simply removing the tank bulb and moving the guide arm to one side. The precision-ground cutters have a true circle contour and form a perfect seat regardless of the angle at which the tool is used; no guide of any kind is required in its operation.

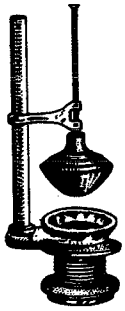


EASY TO OPERATE

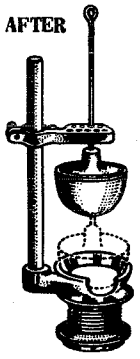
No expert experience is required to re-form a perfect precision seat with this tool. It is simple to operate by just using any ordinary brace to activate the cutter.

The 'Sexauer' Flush Valve Reforming Tool has become standard equipment with better service mechanics throughout the country. It's use is saving thousands of dollars yearly by eliminating flush valve replacements; in preventing costly water waste and prolonging the life of tank bulbs as well as flush valves.

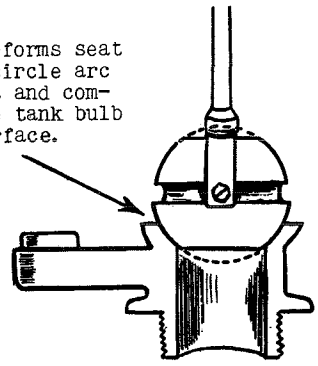
BEFORE



AFTER



The cutting edge re-forms seat to a true, perfect circle arc that assures perfect and complete contact of the tank bulb with the seating surface.



CLOSET REPAIR TECHNIQUE

'SEXAUER' PATENTED BLUE SPOT *Balloon* TANK BULBS

"BALLOONS INSIDE THE VALVE SEAT AND MAKES TIGHT"

Packaged in 144, 96 and 48

LOOK FOR THE "BLUE SPOT" ON TIP OF THE "GOLDEN COMPOUND" BULB

Leaky toilet tanks have always been a source of constant annoyance and the cause of excessive water bills and frequent costly replacements. Until the introduction of the Sexauer "Blue-Spot" Balloon Tank Bulb, little progress has been made to remedy this evil. Original patents were granted on the low tank Flush Valve, based on the perfect arc principle of valve seat and tank ball seating area coinciding.

PERFECT ARC DESIGN

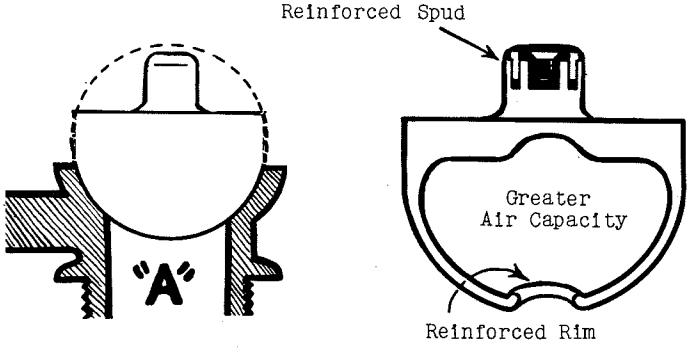
In designing the "Blue-Spot" Tank Bulb, the perfect arc principle was rigidly followed, so that the Bulb and the valve seat have perfect contact that includes the entire seating area. See Diagram "A" below.

The Patented construction of the "Blue-Spot" (blue tip for identification) Balloon Tank Bulb creates an expanding or "ballooning" action inside the valve seat - thus the seating surface of the Bulb adjusts itself to a poorly formed, irregular or corroded brass Flush Valve seat - and thus makes cork-tight.

Its larger arc capacity gives it a far greater buoyancy, and causes it to lift easier and to ride the water line higher when the tank is being flushed, thus providing a better flushing action. A "reinforced rim" prevents the bottom opening of the Bulb from either distorting out of shape or enlarging. The specially designed "SEX-ITE" Spud in the "Blue-Spot" is firmly anchored to prevent pulling out.

UNCONDITIONALLY GUARANTEED

Made of specially formulated and exclusive compound. The "Blue-Spot" is unconditionally guaranteed as to workmanship and materials. It assures a minimum of three years' faultless service.



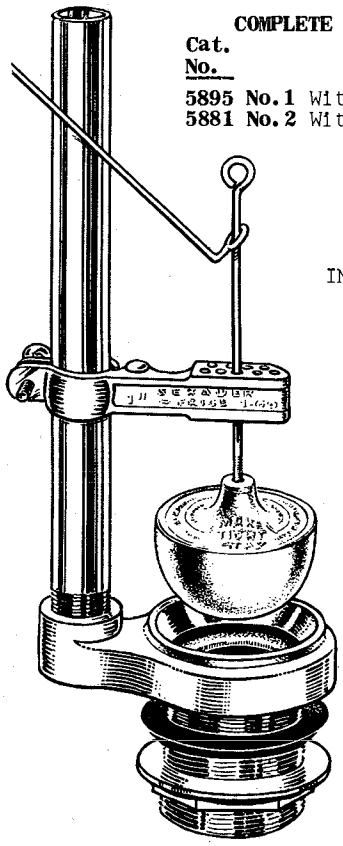
'SEXAUER' TOILET LEAK DETECTOR

Cat. No. 5894

REDUCE HIGH WATER BILLS! This handy, easy to use Leak Detector spots those money-robbing leaks in a jiffy. Just open the envelope and drop the pellet it contains into the toilet tank. If there's a "leaky" tank bulb or float valve, the water in the toilet bowl will quickly turn blue. This simple test costs only pennies and saves as much as $5 on a quarterly water bill.

"SEX-ITE" FLUSH VALVES

MADE OF SPECIAL NON-CORRODING METAL



COMPLETE FLUSH VALVES

Cat. No.

5895 No. 1 With Brass Guide
5881 No. 2 With Sexolite Guide

Complete Valve comes assembled as illustrated and INDIVIDUALLY BOXED

Cat. No. 5896 Flush Valve Base Alone

HAS PERFECTLY FORMED SEAT

'SEXAUER' EXTRA HEAVY OVERFLOW TUBES

20 GAUGE COPPER

Cat. No. 5915 1" x 9"
Cat. No. 5916 1" x 11"
Cat. No. 5917 1-1/8" x 11"
Cat. No. 5918 1-1/4" x 11"

Packaged 24, 12 and 6

OVERFLOW TUBE BUSHING

Cat. No. 5897

Packaged 24, 12 and 6

Inside of Bushing is tapped 1"; outside is designed and threaded to screw into valves tapped for use of 1-1/8" and 1-1/4" tubes.

The Bushing thus permits using a 1" overflow Tube and Guide for All flush valves and eliminates the necessity of having to stock Overflow Tubes and Guide Arms in the 1-1/8" and 1-1/4" sizes.

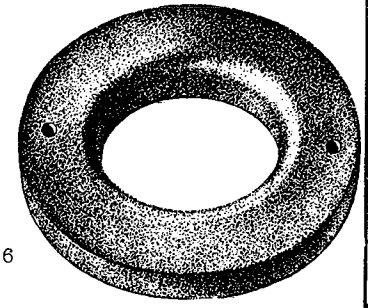
6088	7" x 3/4"
6089	7" x 1"

Packaged 24, 12 and 6



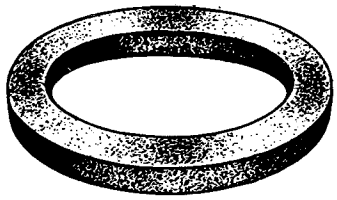
Used on new installations, remodeling jobs or when bowls must be taken up and reset due to leaks or stoppages.

Made of special sponge rubber with uniform structure of many hundreds of tiny air-cells so that the gaskets are "super-resilient". When bowl bolts are tightened, these Balloon Gaskets expand in the bowl orifice and into all crevices and make a positive, water-tight and gas-tight connection.

Balloon Gaskets save costly time ordinarily spent when mixing up putty or plaster and having to clean up after the job is done.

TREATED FELT GASKETS

FOR WALL TYPE CLOSET BOWLS



Cat. No.	No.	O.D.	I.D.	Thick

Packaged 24, 12 and 6

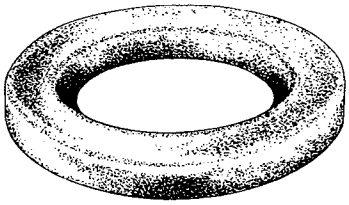
'SEXAUER' CLOSET BOWL WAX GASKETS



Cat. No. 6090 No. 1
6-1/4"x 3-9/16"x 7/8" thick

Wax has uniform texture, unique and distinctive characteristics that insure a perfect seal and long-lasting service.

NOTE: Wax used in these gaskets conforms to Federal Specifications HN-C-536A

QUICK - CLEAN - EASY TO USE

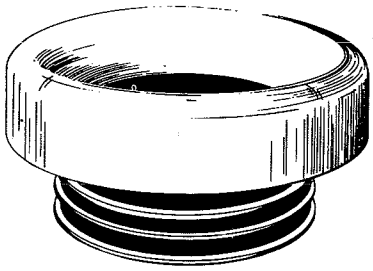
STAINLESS - ODORLESS

WATER PROOF - GAS PROOF

LEAK PROOF

COME INDIVIDUALLY BOXED

Packaged 24 to carton



Cat. No. 7607 No. 2

For bowls with a "short horn" that does not extend down into lead bend and thus prevents making a proper seal with either a regular gasket, setting compound or putty. Plastic Spud, firmly imbedded in the wax, cannot become separated when bowl is set.

'SEXAUER' TOILET SEAT HINGE & PARTS

Individual parts can be used as replacements for worn or broken parts on many styles of existing seat hinges that are worth repairing.

REPLACEMENT PARTS

Item	Cat. No.	
1	7591	Pair of Seat Leaves
2	7593	Pair of Posts
3	7592	Pair of Cover Leaves
4	7594	Seat Hinge Bar
5	6996	Seat Hinge Screw 3/4"x 8 Oval Head

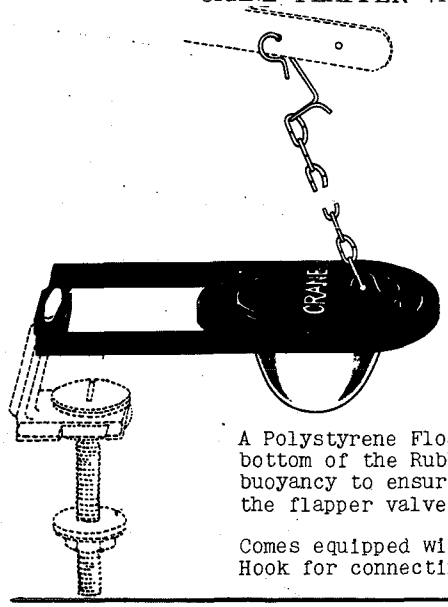
CRANE FLAPPER VALVE



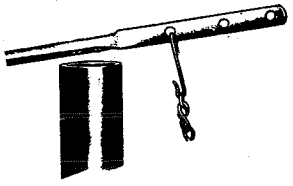
Cat.No. 7519

Used instead of a tank bulb in the following "Crane" close-coupled combinations with integral china seat and overflow:
"Neuday" "Drexel"
"Oxford" "Criterion"

A Polystyrene Float is affixed to the bottom of the Rubber Flapper Valve, for buoyancy to ensure a full flush before the flapper valve re-seats itself.

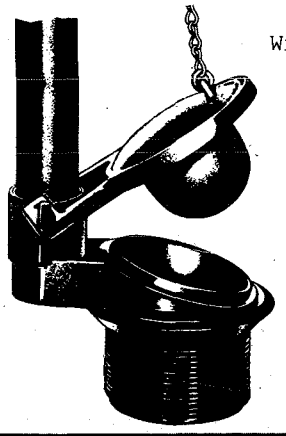
Comes equipped with a 10" Monel Chain & Hook for connecting to the tank lever.

PARTS FOR AMERLINE FLAPPER FLUSH VALVE



Complete valve not available; only the replacement Rubber Flapper.

Cat.No. 7520
Amerline Rubber Flapper
With Stainless Steel Chain & Hook



ONLY for Amerline Valve with slanted valve seat, designed to let out more water.

Used in following manufacturers' tanks:

AAA	Lawndale
Alliance	National
Case	Peerless
Georgia	Rheem
Hilgore	Verson
Kokomo	Vitroteck
Kohler	Woodbridge

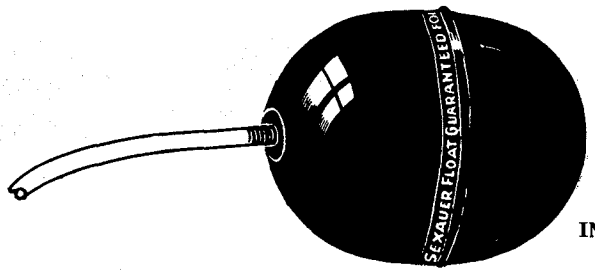
Includes items 1 thru 9

'SEXAUER' GUARANTEED TANK FLOAT

"GUARANTEED FOR THE LIFE OF THE TANK"

PROVIDE MAXIMUM LIFT



INSURE POSITIVE SHUT-OFF

Cat.No. 5875 4" x 5"

The 'Sexauer' Guaranteed Float eliminates electrolysis, is unaffected by any water impurities, alkali or sulphur that destroy copper floats.

Has firmly anchored metal spud that cannot pull out and prevents any possibility of breakage when installing the float rod or bending the rod to adjust float in tank.

Standard Package - 2 dozen

Individual cartons for easy handling and stocking.

"SEX-ITE" ADJUSTABLE FLOAT RODS

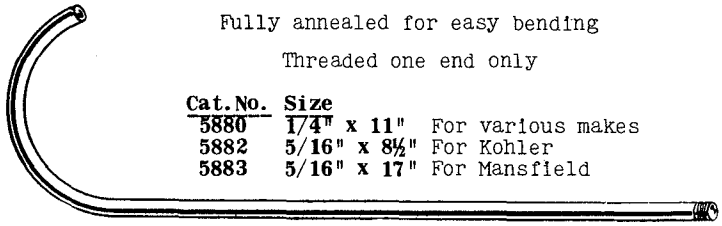
"Sex-ite" Float Rods are made of non-corroding, non-rotting metal. The long-raised thread on one end makes it easy to shorten the rod if necessary, by simply cutting it off with a hack saw ... and without having to re-thread the rod.

Threaded 3" one end, 1" on other end

Cat.No.	Size	Cat.No.	Size
5876	8"	5878	12"
5877	10"	5879	14"

Packaged 144, 72 and 36

'SEXAUER' COPPER REFILL TUBES



Fully annealed for easy bending

Threaded one end only

Cat.No.	Size	
5880	1/4" x 11"	For various makes
5882	5/16" x 8½"	For Kohler
5883	5/16" x 17"	For Mansfield

Packaged 48, 24 and 12

'SEXAUER' "3-IN-1" REFILL TUBE EXTRACTOR

Cat.No. 5860

Includes an "Extractor" for quickly and easily removing broken-off refill tubes from ball cocks, a 1/4" x 40 Tap for repairing damaged threads in the valve body, and a 1/4" x 40 Die for re-threading damaged refill tubes.

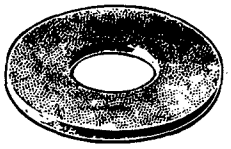
"NO-LEK" CHINA TANK BALL COCK GASKET

Cat.No. 5885 Beveled Type

Cat.No. 5886 Flanged Type

Packaged 24, 12 and 6

LEATHER BALL COCK SHANK WASHER



Cat.No. 5887 No.35
2" x 15/16" x 1/8"

Used between ball cock coupling nut and underside of the tank. Prevents cracking tank when nut is tightened.

REGULATING SCREW WASHER

For "Standard" Ball Cock Models R-3010 and B-1939

Cat.No. 5749 Treated Leather
3/4" x 1/8" x 3/64"

VACUUM BREAKER WASHER

For MVB #18 Ball Cock

Cat.No. 7436 Fibre
1-9/16" x 1-5/16" x 3/64"
Dimensions exclude ears

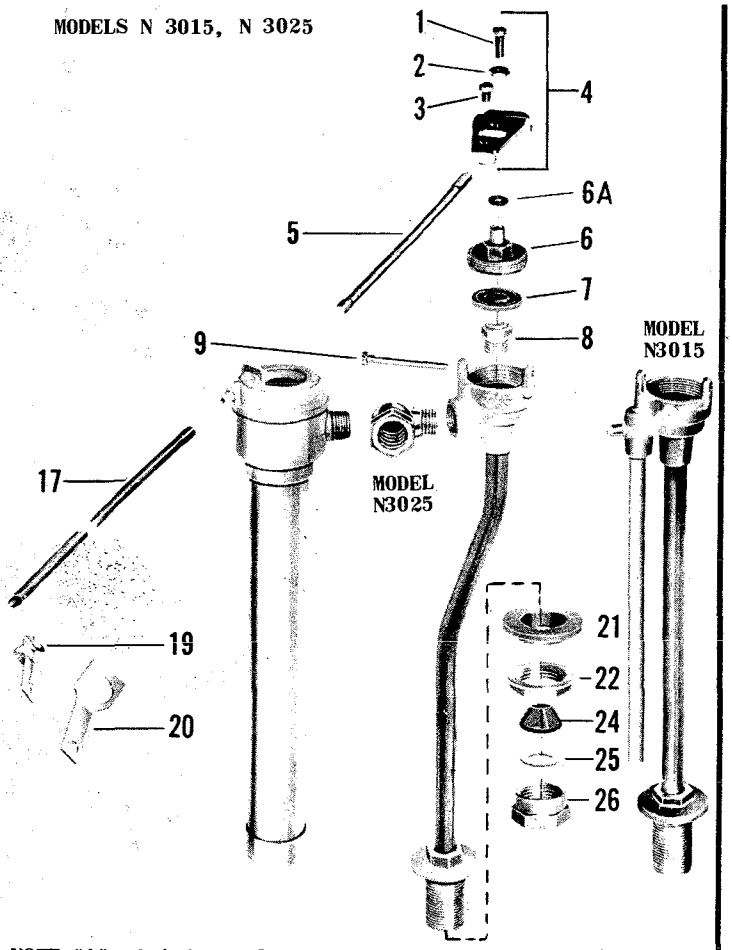
WOLVERINE BALL COCK FIBRE CAP GASKET

Cat.No. 7446
1-3/16" x 1-3/64" x 1/32"

AMERICAN-Standard
FLOAT VALVE PARTS

IMPORTANT NOTICE!
Items marked (X) are not carried in stock but will be shipped within 60 days after receipt of order.

MODELS N 3015, N 3025



NOTE "A": Original Float Rod can be replaced with a 10" Sexauer Float Rod - by cutting it off to desired length from long-threaded end, then filing remaining "unthreaded end" flat on 2 sides for a 1" distance, to fit the oblong hole in the Pivot Arm of valve.

NOTE "B": The Refill Tube Clip is used only in tanks with a conventional flush valve - for fastening the Rubber Refill Tube to the conventional Overflow Tube.

Packaged 24, 12 and 6

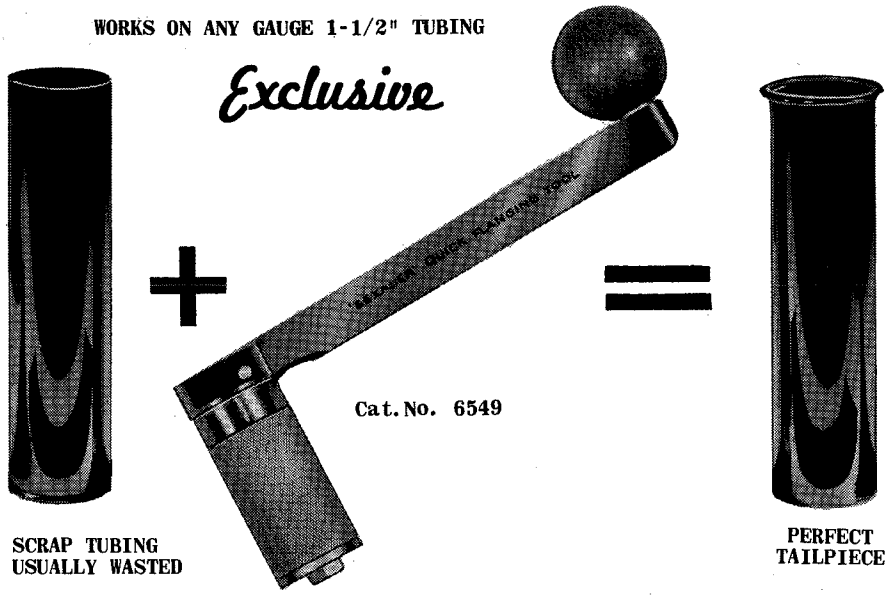
'SEXAUER' PATENTED QUICK-FLANGING TOOL FORMS SCRAP TUBING INTO PERFECT TAILPIECES IN A MATTER OF SECONDS!

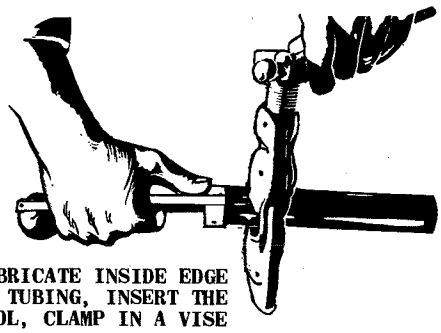
WORKS ON ANY GAUGE 1-1/2" TUBING



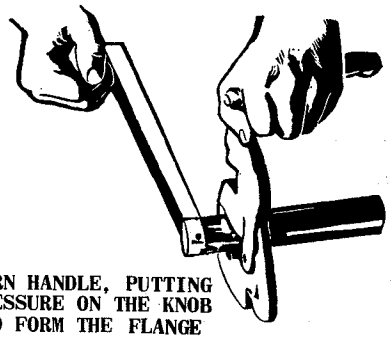
SCRAP TUBING USUALLY WASTED

Cat. No. 6549

PERFECT TAILPIECE



LUBRICATE INSIDE EDGE OF TUBING, INSERT THE TOOL, CLAMP IN A VISE

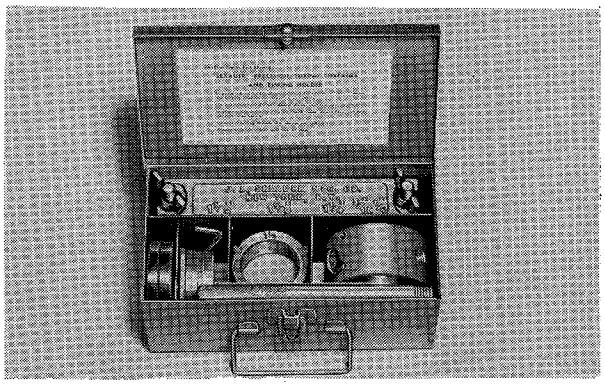


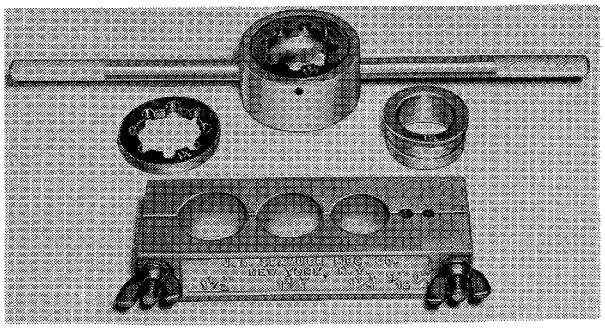
TURN HANDLE, PUTTING PRESSURE ON THE KNOB TO FORM THE FLANGE

This PATENTED 'Sexauer' tool turns waste into profits by making perfect flanged tailpieces out of odd lengths of 1-1/2" tubing.

It is simple to use and can easily pay for itself in less than an hour when considering the cost of buying flanged tailpieces and the value of scrap tubing that would otherwise be wasted.

'SEXAUER' TUBE THREADING TOOL AND HOLDER





FINEST TOOL FOR ITS PURPOSE ON THE MARKET!

Provides a complete "department" in one compact package for threading 1-1/4", 1-3/8" or 1-1/2" brass tubing ... faster, better, easier than ever before.

Made of oil-hardened tool steel, the dies are machined with 8 lands to insure perfect, clean threads. Dies are stamped with the size tubing they thread.

Corresponding sizes of steel guides insure proper alignment of the tubing and both the dies and guides are interchanged quickly and easily.

The companion Tubing Holder is made of "Tenzaloy", a select high tensile strength aluminum alloy. It grips 1/4", 5/16", 1-1/4", 1-3/8" and 1-1/2" tubing and holds it securely for threading, flaring or cutting with full protection against tubing distortion or damage.

A handsome, sturdy metal carrying case comes with each set. Individual parts may be ordered separately as listed below.

THREADING TOOL & HOLDER SETS

SETS INCLUDE:
Dies and Guides (see below)
Tubing Die & Guide Stock
5-in-1 Tubing Holder
1/8" Hex Socket Key
Metal Carrying Case

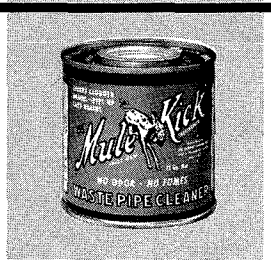
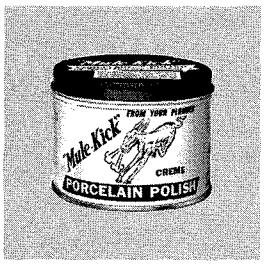
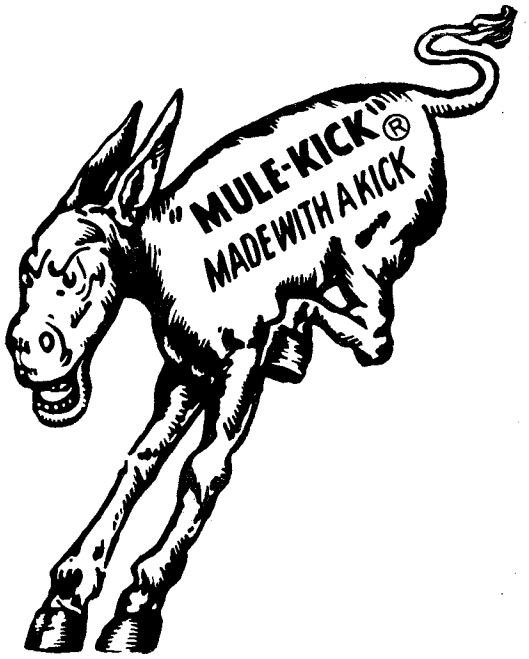
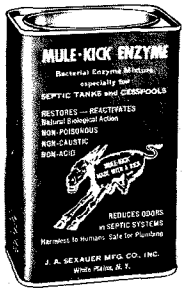
'SEXAUER'
GENERAL PLUMBING REPAIR PARTS

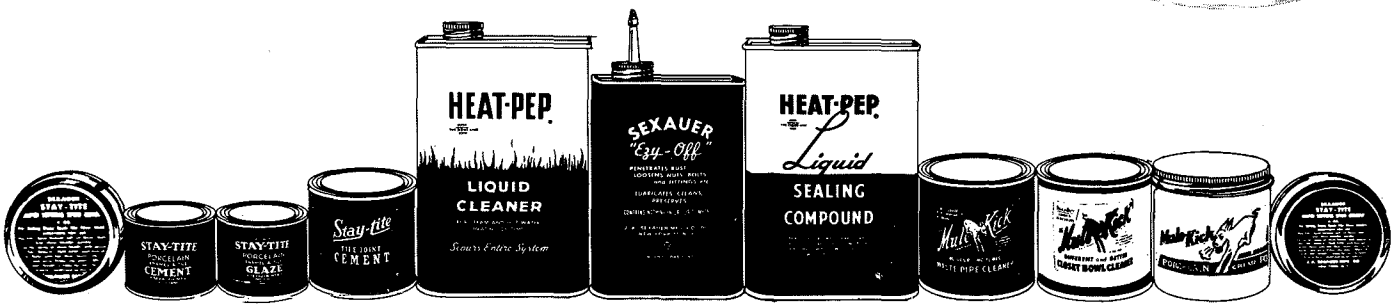


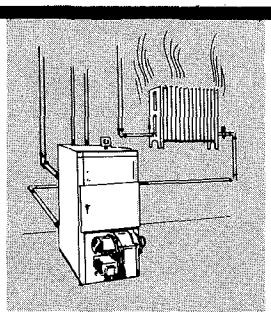






COMPOUNDS





HEATING REPAIRS

SEXAUER "MULE-KICK"

WASTE PIPE CLEANER

POWERFUL — NO FUMES — NO ODOR

CLEARS CLOGS • PEPS UP LAZY DRAINS

Cat. No. 6395 Net Weight 12 oz.
Packaged 48 Cans to a Case
*Shipping Weight: 45 lbs. per Case

"MULE-KICK" WASTE PIPE CLEANER, known to millions the country over, is pure and powerful. It contains no disguised perfumes, no dangerous adulterants such as aluminum chips, zinc borings or other agents which cause harmful, obnoxious fumes, explosive gases or injurious sprays. Having no odor, no fumes, "MULE-KICK" can be used in homes and public places alike without any annoyance. Choice of leading Plumbers and Maintenance Engineers.

CAREFULLY OBSERVE DIRECTIONS ON CAN

FAST-DISSOLVING FLAKES will not crystallize when used according to directions. Their full strength is protected by air-tight, moisture-proof packaging. May be used without harm in cesspools and septic tanks. In addition to clearing stoppages "MULE-KICK" is excellent for cleaning and purifying garbage containers, stove burners, grease-caked tools, oil burner nozzles; also for thawing frozen pipes and to remove paint and varnish.

CLOSET BOWL CLEANER

FOR TOILET BOWLS AND URINALS ONLY

Cat. No. 6396 Net Weight 16 oz.
Packaged 48 Cans to a Case
*Shipping Weight: 60 lbs. per Case

PUREST AND MOST POWERFUL on the market, "MULE-KICK" Closet Bowl Cleaner excels all others in banishing stubborn stains, rust spots, grime and lime formations in toilet bowls and urinals, de-odorizing as it cleans. Improved powder form—quick-dissolving and fast acting—is EASY TO APPLY to hidden parts of bowl where crust and lime formations develop. It cleans the inlet jets under rims as well as the outlet, eliminating unpleasant odors. Also recommended for cleaning automobile radiators before adding anti-freeze in the fall and after draining in the spring. Packaged in moisture-proof, air-tight cans, "MULE-KICK" never cakes or solidifies. It goes further, hence is more economical.

CAREFULLY OBSERVE DIRECTIONS ON CAN

CREME PORCELAIN POLISH

BEAUTY TREATMENT FOR PORCELAIN TILES AND ENAMELED SURFACES

Cat. No. 6397 Net Weight 14 oz.
Packaged 24 Cans to a Case
* Shipping Weight: 27 lbs. per Case

CLEANS AND POLISHES delicate surfaces without scratching or marring. Free of acids, caustics and gritty substances. In creme form, of smooth and even consistency, "MULE-KICK" can be applied without water and with less waste. Unexcelled for bathtubs, sinks, lavatories, tile, refrigerators and stoves . . . chrome, nickel, copper, brass, monel fixtures . . . linoleum, enameled woodwork, etc. Packaged in attractive, moisture-tight container.

*NOTE: All "MULE-KICK" products, except "MULE-KICK" ENZYME, MUST be shipped via freight and ordered in CASE LOTS. To be "Prepaid," orders must total at least 160 lbs. (See Shipping Weights listed for Case Lots). "MULE-KICK" may be assorted, along with other items, to make up a 160-lb. "Prepaid" freight shipment and the lowest Quantity Price of FREIGHT ITEMS included will apply.

(SEE NOTICE AT BOTTOM OF PAGE 92 FOR FURTHER DETAILS)

CLEANERS

BIG JERRY

POWER-PACKED • MULTI-DUTY

Big Jerry "MULE-KICK," as the name implies, is a high-powered solvent for application in "big doses" required for clearing stoppages in clogged sewer lines, to clear blockage from fibrous tree roots, relieve sluggish or entirely clogged grease traps, and for use according to instructions accompanying installations of chemical toilets. It has NO ODOR and NO FUMES and will not harm drains or waste lines, including Tile or Orangeburg Pipe.

It can also be used for cesspools and septic tanks, to dissolve the grease content that floats on the top and not only retards but often completely stops the bacterial action on which these types of sewage disposal systems are dependent.

Complete directions for each specific use for which Big Jerry "MULE-KICK" is designed, are included on each can.

Cat. No. 6394 Net Weight 6 lbs. Packaged 8 Cans to a Case
*Shipping Weight: 57 lbs. per Case
SEE NOTE AT BOTTOM OF PRECEDING PAGE 90.

MULE-KICK ENZYME

ESPECIALLY FOR SEPTIC TANKS AND CESSPOOLS

A bacterial enzyme mixture formulated expressly for septic tanks and cesspools.

Exhaustive laboratory and field tests prove "MULE-KICK" ENZYME will restore and reactivate natural biological action in sewage disposal systems quickly and safely. It will digest and liquefy organic waste to eliminate bad odors of grease traps and septic systems.

It is non-poisonous, non-caustic, non-acid. Completely safe for all plumbing and absolutely harmless to people or pets.

Regular use of "MULE-KICK" ENZYME in home, commercial, industrial, or institutional septic systems will keep them fresh and free-flowing, and will make unnecessary costly mechanical pumping and cleaning.

Cat. No. 6393 Net Weight 1 lb. Packaged 12 Cans to a Case
Shipping Weight: 16 lbs. per case

'SEXAUER' "HEAT-PEP" BOILER COMPOUNDS

*** See "IMPORTANT NOTICE" at bottom of page regarding shipment of these items**

These outstanding "Sexauer" products have enjoyed a reputation for "dependability" for over 40 years and are considered the most reliable offered on the market.

Whether the job involves making a permanent seal in a cracked boiler section, push nipple or sand holes --- whether used for removing core sand, grease and oil from a newly installed steam or vapor system, or ridding a heating system of rust, scale and muck --- there's a "Heat-Pep" compound exactly suited to the job.

"HEAT-PEP" LIQUID SEALING COMPOUND

This highly concentrated sealer works past the boiler crust and scale, and seals at the metal.

Leaks are stopped almost immediately, permitting the boiler temperature to be built up quickly. A permanent seal is made when instructions are carefully followed.

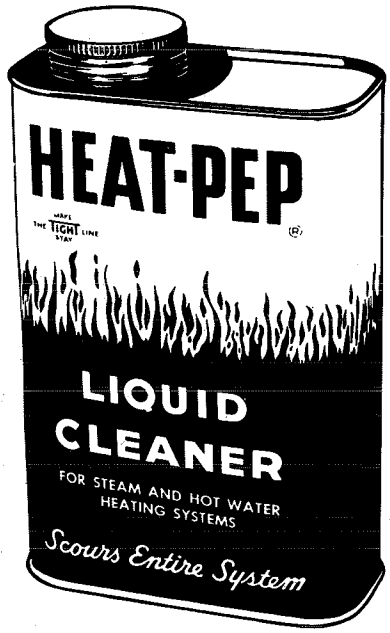
"Heat-Pep" works very successfully in new installations where defective castings, sand holes, etc. are present.

Cat. No. 6658 "Heat-Pep" Liquid Sealer
Packaged 12 Cans to Case. Shipping Weight: 35 lbs.
*** See IMPORTANT NOTICE at bottom of page**

"HEAT-PEP" POWDERED SEALING COMPOUND

This compound has a scientifically-formulated metallic base that forms a permanent repair. Through oxidation and heat, a strong flexible metallic seal is created which expands and contracts with the metal so as to prevent the possibility of the seal breaking loose.

Cat. No. 6659 "Heat-Pep" Powdered Sealer
Packaged 12 Cans to Case. Shipping Weight: 20 lbs.
*** See IMPORTANT NOTICE at bottom of page**



"HEAT-PEP" LIQUID BOILER CLEANER

Cleans steam, vapor and hot water heating systems. Removes grease, oil, core sand, rust and sludge. It is a sure cure for slow steaming, priming, surging and foaming.

Contains no harmful caustics, acids or corrosive substances. "Heat-Pep" Liquid Cleaner is also effective in retarding the recurrence of rust accumulation in the heating system.

Cat. No. 6660 "Heat-Pep" Liquid Cleaner
Packaged 12 Cans to Case, Shipping Weight: 35 lbs.
*** See IMPORTANT NOTICE at bottom of page**

*** IMPORTANT NOTICE REGARDING ORDERS FOR "HEAT-PEP" AND OTHER "FREIGHT ITEMS".**

Due to Parcel Post Regulations, "Heat-Pep" Compounds, along with "Mule-Kick" Cleaners (except "Enzymes") and "Stay-Tite" Pipe Joint Cement, MUST be shipped VIA FREIGHT. And in CASE LOT quantities. Orders including those items are shipped "prepaid" ONLY when they total at least 160 lbs. for a MINIMUM FREIGHT SHIPMENT. Any or all of such items may be assorted along with other items to make up a "prepaid" freight shipment, and the lowest quantity price for each FREIGHT ITEM included will apply.

Otherwise, orders including the above-mentioned FREIGHT ITEMS will be shipped F.O.B. White Plains, N.Y. and the minimum freight charge will be added to the invoice.
FOR THE OTHER "FREIGHT ITEMS" AND THEIR SHIPPING WEIGHTS, SEE PAGES 90, 91 & 93.

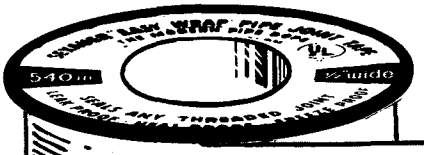
'SEXAUER' "EASY-WRAP" PIPE JOINT TAPE

LEAK-PROOF — FREEZE-PROOF — HEAT-PROOF

AVOIDS COSTLY COME BACKS! — SAVES TIME! — INSURES A TIGHT SEAL!

THE MODERN PIPE JOINT CEMENT — SAVES MONEY! — SEALS ANY THREADED JOINT

MADE OF DUPONT TEFLON — PREVENTS CORROSION



HAS PERFECT SEALING QUALITIES RETAINED ON:

AIR	GAS	SOLVENTS
OIL	STEAM	CHEMICALS
WATER	ACIDS	REFRIGERANTS

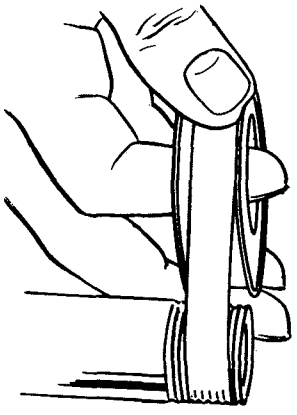
QUICK · CLEAN · MORE ECONOMICAL · NO DRIPPING · NO WASTE

Cat. No. 6853
Spool of 1/2" wide tape
Contains 540" of tape
Packaged 24, 12 and 6

CAN BE USED ON ALL KINDS OF PIPE INCLUDING:

BRASS	BLACK IRON	MONEL
STEEL	GALVANIZED IRON	ALUMINUM
PLASTIC	SYNTHETIC RUBBER	STAINLESS STEEL

HOW TO APPLY



Start tape on threads 1/8" from pipe end.

Hold end of tape with finger (as shown) and wrap around once "clockwise" while stretching so threads show through tape. Overlap tape about 1/2", stretch until it breaks, then assemble joint as usual.

Stick down broken end of tape on spool to prevent it from unravelling

ECONOMICAL: Sexauer "Easy-Wrap" Tape makes lifetime joints for pennies per joint. There is no waste and it provides absolute assurance against leaks and comebacks, just one of which costs far more than a whole spool of "Easy-Wrap". It therefore SAVES TIME - SAVES MONEY - and is actually MORE ECONOMICAL to use than any ordinary pipe joint cement.

CLEAN: Ends old fashion messy methods, smear brushes and soiled hands. It never drips or runs and always makes a neat appearing job.

FAST: You can wrap threads with "Easy-Wrap" Tape in a matter of seconds.

TEMPERATURE & PRESSURE: Resists temeratures from -300 F. to 500 F. Withstands pressure of thousands of pounds.

CHEMICALLY INERT & NON-TOXIC: Will not contaminate material in pipe and can be handled with complete safety.

SELF-LUBRICATING & STABLE: Permits smooth, easy assembly of joints and retains its remarkable properties indefinitely.

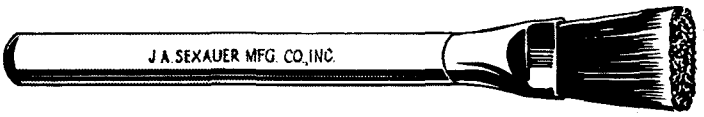
NON-HARDENING: Joints are quickly and easily taken apart when necessary as "Easy-Wrap" Tape retains its pliable texture indefinitely while also providing lubrication for easy disassembly when required.

Approximate number of joints that can be wrapped by one spool of "Easy-Wrap" Tape on various sizes of standard weight pipe.

Pipe Size	Joints	Pipe Size	Joints	Pipe Size	Joints
1/8"	425	1"	131	3"	49
1/4"	318	1-1/4"	103	3-1/2"	43
3/8"	255	1-1/2"	90	4"	38
1/2"	205	2"	72	5"	31
3/4"	164	2-1/2"	60	6"	26

'SEXAUER' CEMENT BRUSHES

ALSO USED AS ACID BRUSHES FOR SOLDERING



Cat. No.	No.	Type Handle	Bristle Width	Bristle Length	Overall Length
6843	1	Metal	3/8"	7/8"	5-1/2"
6844	2	Metal	1/2"	1"	6"
6852	3	Wood	3/4"	1-1/8"	7"

Packaged 48, 24 and 12 per size

'SEXAUER' "STAY-TITE" PREPARED PIPE JOINT CEMENT

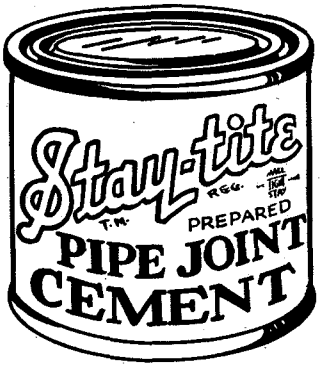
Recommended for Water-Steam-Gas Oil-Gasoline-Butane or Propane.

Used by many of the country's largest Industrials & Utilities. Never hardens, so fittings are easy to disjoin when necessary.

Makes tight joints and it lasts indefinitely. Economical to use as a little goes a long way.

Does not stain fixtures or hands.

Cat. No. 6841 11 oz. Cans
48 Cans to Case - Weight: 45 lbs.



NOTE: Refer to IMPORTANT NOTICE at the bottom of Page 92 regarding shipments of this item.

'SEXAUER' "EZY-OFF" NUT LOOSENER

A DIFFERENT AND BETTER PENETRATING OIL

PENETRATES - CLEANS - LUBRICATES - PRESERVES

"A little goes a long way".

QUICK ACTING - ECONOMICAL - SAVES TIME - SAVES COSTLY PARTS

LIQUID FORM
Cat.No. 6850 1 Pint Cans

Will free any "seized" metal parts caused by:

Rust	**Corrosion**	**Red Lead**	**Paint**	**Shellac**
Scale	**Gum Residue**	**White Lead**	**Dirt**	**Carbon**

"Ezy-Off" Nut Loosener is a special formula of chemicals and oils blended to provide exceptional penetrating and solvent properties. Free from alkalies or harmful acids, it can be safely used on the finest mechanisms when used according to directions. Capillary action draws the oil into frozen threads or parts, making an EZY-OFF job.

"Ezy-Off" in Aerosol Cans is easier to use and more economical, especially in places difficult to reach with a Spout Can. The "spray" can be directed to affected parts more quickly, easily and effectively - and thus not only saves time but avoids a great deal of needless waste.

Packaged 24, 12 and 6

Cat.No. 6854 Aerosol Cans
11 Fluid Ounces

'SEXAUER' SOLDERING COMPOUND

CLEANS AS IT FLUXES

Non-Corroding Non-Acid Non-Discoloring

Meets Federal Specification No.O-F-506B, Type 1, Form A

Cat.No. 6863 4 oz. Cans
Cat.No. 6832 1 lb. Cans

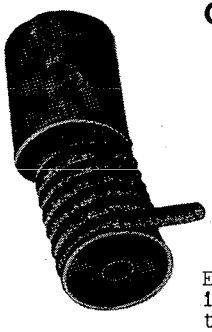
Packaged 48, 24 and 12

A dependable, quick-acting flux for use on sweat fittings or any soldering job; also for tinning prior to wiping joints.

'SEXAUER' WICKINGS

GRAPHITED ASBESTOS STEM PACKINGS

Wrapped on a metal spool encased in protective outer metal shield.



BRAIDED PACKING 1/2 Lb. Spool	**TWISTED PACKING 1/2 Lb. Spool**
Cat.No. 6824 1/8"	**Cat.No. 6827 1/16"**
Cat.No. 6825 3/16"	**Cat.No. 6828 1/8"**
Cat.No. 6826 1/4"	**Cat.No. 6829 1/4"**

Each individual strand, whether braided or twisted, is thoroughly graphite-lubricated prior to forming the finished packing. For use on water, steam, air or oil valves - rods or shafts. Strands of Twisted Packing can be separated to make smaller packings.

Packaged 12, 6 and 3

"STAY-TITE" PORCELAIN CEMENT

Cat.No. 6847 8oz. Cans

For repairing chips in Enamelware, Porcelain, Tile etc., re-setting Tile on Marble and for filling cracks between fixtures and walls.

Packaged 12, 6 and 3

SPECIAL ASBESTOS WICKING

Cat.No. 6835 1/2 Lb. Balls

Made from strands of heavy roving twisted together. Principally used for packing on hot water lines. When dipped in hot tallow or paraffin, it also is excellent for use on cold water lines.

Packaged - 12 Balls

TREATED ASBESTOS YARN

CLEAN-CONVENIENT-ECONOMICAL

Cat.No. 6834 1/4 Lb. Spools
1/16" Dia. - approx. 70 Yds.

Made of 3-strand long-staple asbestos, impregnated with special waterproofing agent. For packing faucet or valve bonnets and all connections where resistance to heat is not of major importance.

Packaged - 1 Dozen Spools

"STAY-TITE" PORCELAIN GLAZE

Cat.No. 6848 2oz. Cans

Cat.No. 6849 4oz. Cans

For repairing cracked Enamelware. Tile etc. and for glazing after making a repair with Porcelain Cement.

Packaged 12, 6 and 3

"MAKE-TITE" CANDLE WICKING

Cat.No. 6836 "AA" Balls
12-Strand FINE

Cat.No. 6837 "B" Balls
7-Strand COARSE

Cat.No. 6839 "AAA" Balls
2-Strand FINE

Special Sea Island long-fibre cotton with longer, tougher fibres than in ordinary wicking. Insures tight seal.

Packaged - 40 Balls to Bag

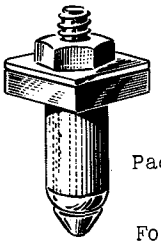
Cat.No. 6838 "A" Spools
Single Strand FINE

Made of No.1 single strand, long-fibre cotton, specially twisted for use on brass and iron pipe threads. It unwinds from spool as you wrap it on the threads.

Packaged - 1 Dozen Spools

'SEXAUER' BOILER REPAIR PLUGS

MULTI-SEAL REPAIR PLUGS'



Cat.No.	Size
6662	1/4"
6663	3/8"
6664	1/2"

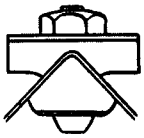
Packaged 24, 12 and 6

Cat.No. 6665
Square Wrench
For installing plugs

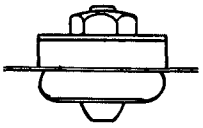
By tightening nut, lead plug conforms itself to contour of both inner & outer surfaces of metal to form a perfect seal.

In many cases, they prevent more costly repairs or the replacing of expensive piping, tanks, boilers etc. - and avoid costly shut-downs.

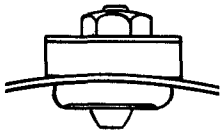
Multi-Seal Plug Assortment
Cat.No. 6667 No.13 Handy Andy
Contains 26 Plugs and Wrench



A leaky corner is easily repaired.

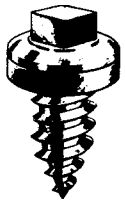


Effective even on thin flat surface.



Work on a concave or convex surface.

OTHER BOILER REPAIR PLUGS



SCREW TYPE

Cat.No. 6668 No.1 Seals up to 1/4" hole
Cat.No. 6669 No.2 Seals up to 3/8" hole

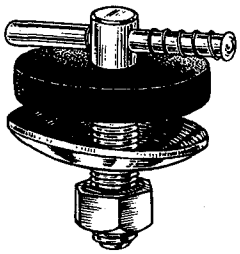
The coarse threads straddle the metal, lock it in and support it from both the inside and outside. They make tight on metals of practically any thickness.

TOGGLE TYPE

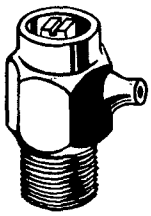
Cat.No. 6670 No.3
For holes 3/8" or larger

EASY TO INSTALL.....
If necessary, enlarge the leaking hole. Compress spring and insert Toggle-Bar, which will extend beyond hole and weak interior area. Tightening nut then forces rubber washer against outer surface and thus insures a tight seal.

Packaged 24, 12 and 6

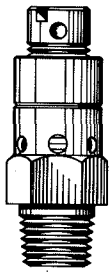


HOT WATER AIR VALVES AND KEY



Cat.No. 6671 No.1

Opens with coin, screw driver or air valve key.



Cat.No. 6677
No.3 Automatic

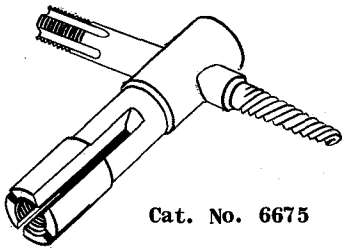
Permits trapped air in Hot Water radiators to escape automatically.

Cat.No. 6673
Air Valve Key

Fits regular key type air valves.

Packaged 144, 72 and 36

3-IN-1 RADIATOR AIR VALVE TOOL



Cat. No. 6675

For use on all steam or hot water radiator air valve repairs.

Includes EXTRACTOR for removing old broken valve spuds from the radiator - a TAP for re-threading the radiator - and a DIE for cutting new threads on air valve spuds.

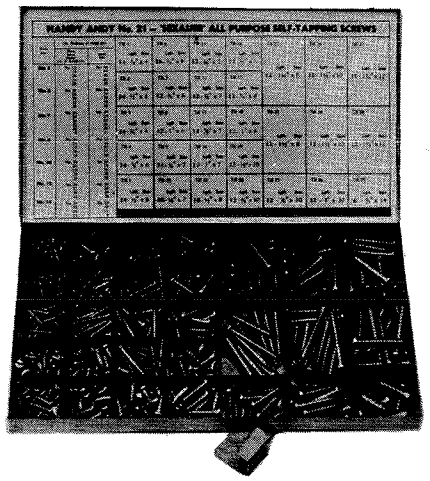
'Sexauer' Self-Tapping Screws provide the quick, dependable means of fastening Sheet Metal, Brass, Aluminum, Composition Board, Plywood, Plastics and all hard substances. Eliminates necessity of tapping, soldering, riveting or bolting.

Cat. No. 7020 No. 21 HANDY ANDY ASSORTMENT

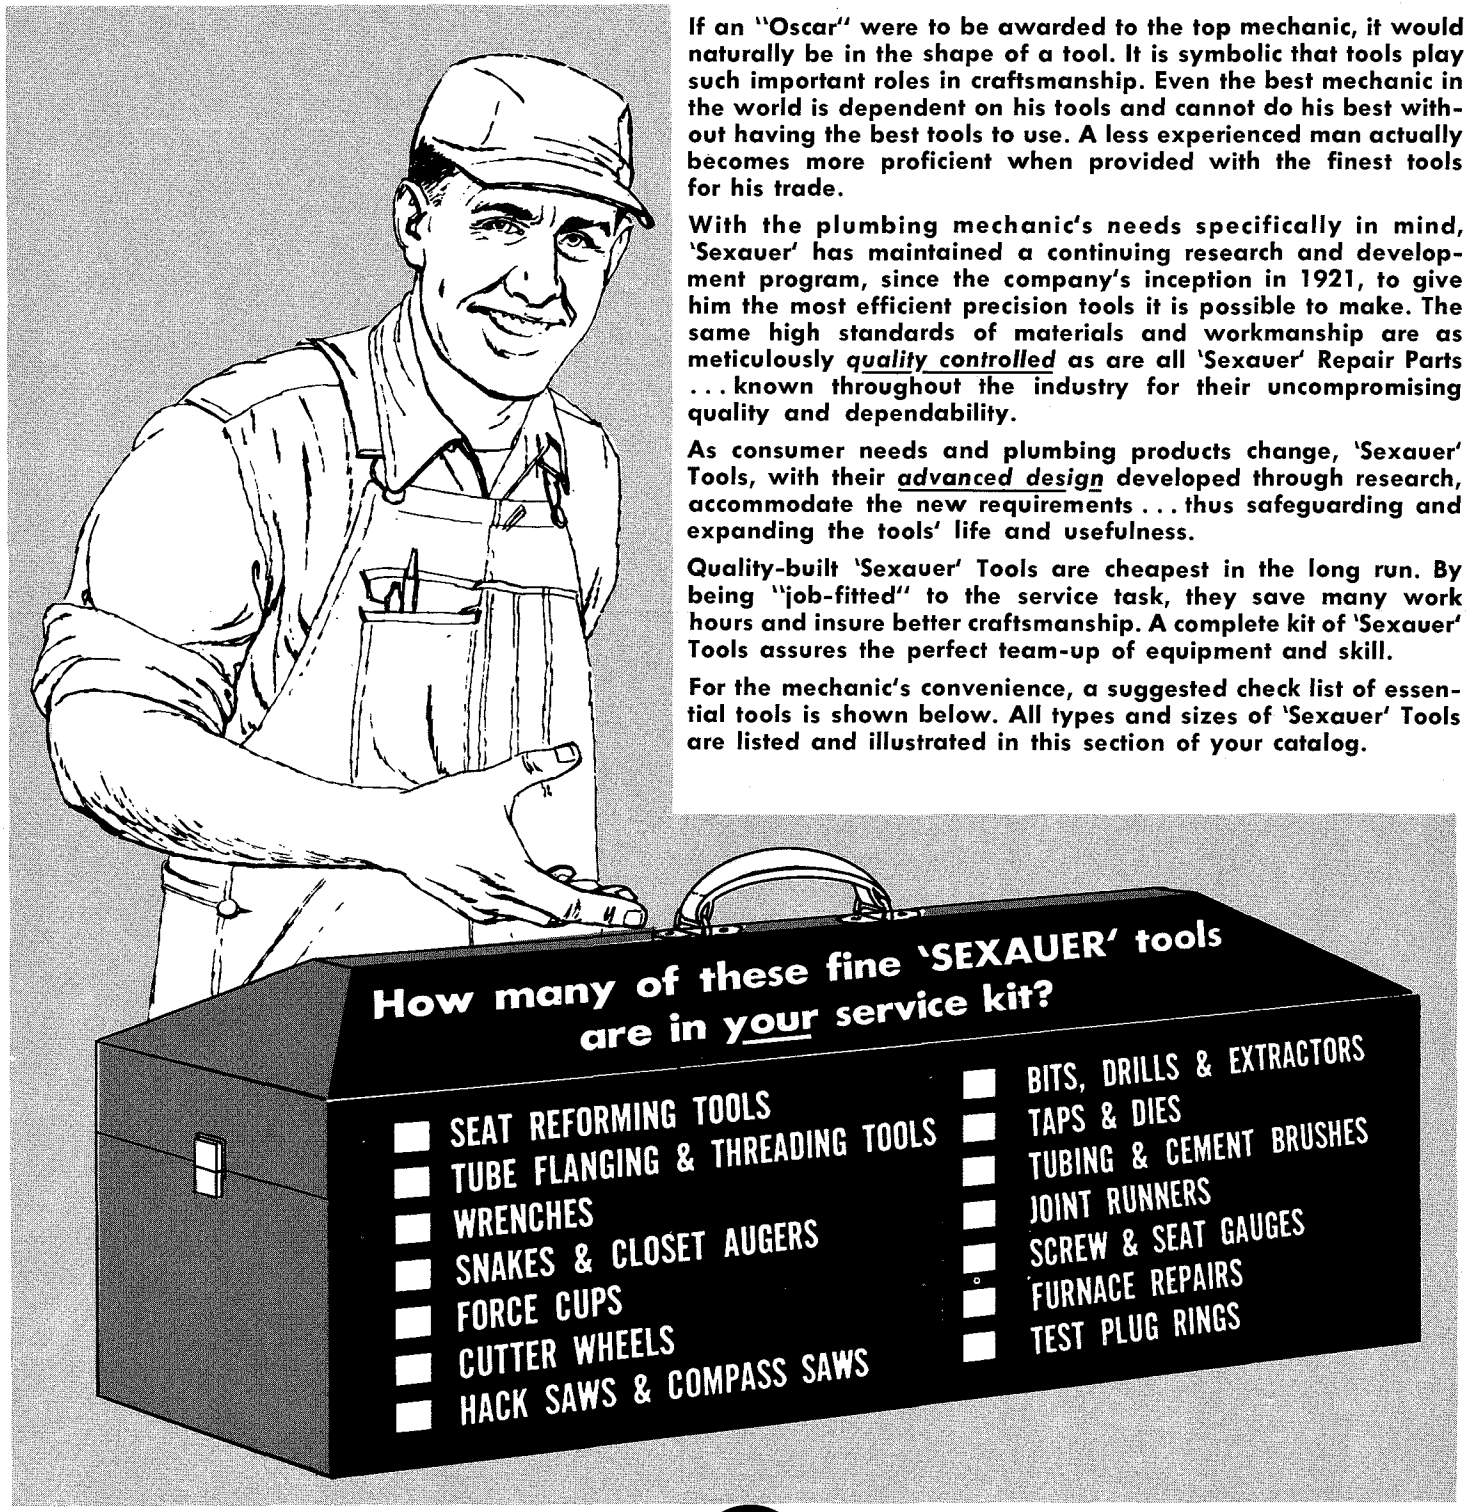
Contains 3 Gross (432) assorted of above 29 sizes

Index in cover identifies the size screw in each till, gives drill size to use for each gauge of screw, plus the sizes of screws recommended for various gauges of sheet metal.



'SEXAUER' TOOLS

"The mark of a good mechanic is good tools."



If an "Oscar" were to be awarded to the top mechanic, it would naturally be in the shape of a tool. It is symbolic that tools play such important roles in craftsmanship. Even the best mechanic in the world is dependent on his tools and cannot do his best without having the best tools to use. A less experienced man actually becomes more proficient when provided with the finest tools for his trade.

With the plumbing mechanic's needs specifically in mind, 'Sexauer' has maintained a continuing research and development program, since the company's inception in 1921, to give him the most efficient precision tools it is possible to make. The same high standards of materials and workmanship are as meticulously *quality controlled* as are all 'Sexauer' Repair Parts . . . known throughout the industry for their uncompromising quality and dependability.

As consumer needs and plumbing products change, 'Sexauer' Tools, with their *advanced design* developed through research, accommodate the new requirements . . . thus safeguarding and expanding the tools' life and usefulness.

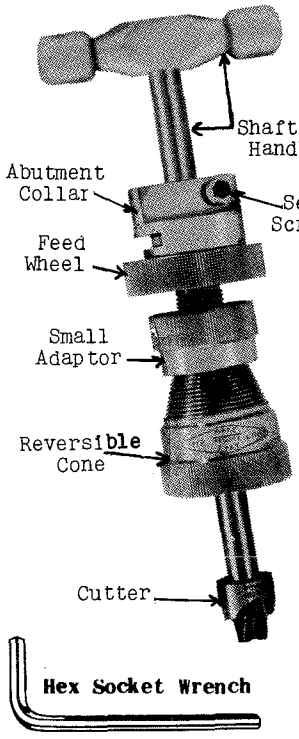
Quality-built 'Sexauer' Tools are cheapest in the long run. By being "job-fitted" to the service task, they save many work hours and insure better craftsmanship. A complete kit of 'Sexauer' Tools assures the perfect team-up of equipment and skill.

For the mechanic's convenience, a suggested check list of essential tools is shown below. All types and sizes of 'Sexauer' Tools are listed and illustrated in this section of your catalog.

'SEXAUER' SEAT REFORMING TOOLS

PATENTED AND EXLUSIVE 'SEXAUER' DEVELOPMENTS

For more complete details of the value and importance of the Faucet Seat Reforming Tool, see Pages 14 & 15.



Cat.No. 5002 'Sexauer' Faucet Seat Reforming Tool Complete

Tool includes all component parts and cutters as listed below, assembled as per the illustration, and nested in the Metal Carrying Case.

Parts or cutters are available separately if required for making replacements.

REPLACEMENT PARTS

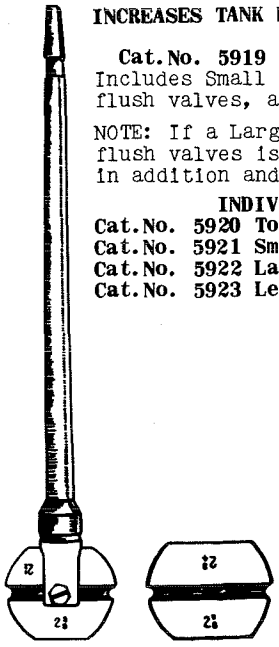
'SEXAUER' FLUSH VALVE REFORMING TOOL

FAST AND EASY TO OPERATE! **FORMS A PRECISION SEAT!** **AVOIDS VALVE REPLACEMENTS!**

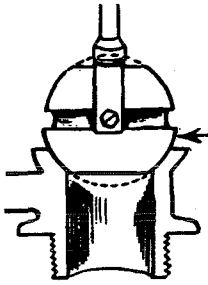
INCREASES TANK BULB LIFE! **ELIMINATES WATER WASTE!** **PROLONGS LIFE OF THE VALVE!**



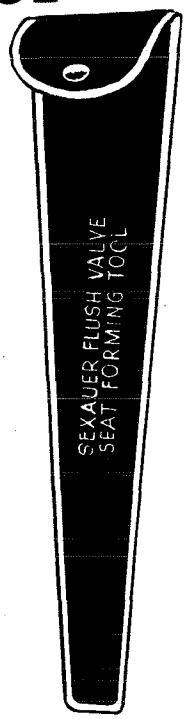
Cat.No. 5919 Flush Valve Reforming Tool
Includes Small Cutter for 2-3/8" and 2-1/2" flush valves, and Leatherette Carrying Case.

NOTE: If a Large Cutter for 2-5/8" & 2-3/4" flush valves is desired, order Cat.No. 5922 in addition and as a separate item.

INDIVIDUAL TOOL PARTS
Cat.No. 5920 Tool Shaft Includes Bolt
Cat.No. 5921 Small Cutter 2-3/8" & 2-1/2"
Cat.No. 5922 Large Cutter 2-5/8" & 2-3/4"
Cat.No. 5923 Leatherette Carrying Case



Cutting edge re-forms the seat to a true, perfect circle arc that assures perfect and complete contact of the tank bulb with the seating surface.



ELIMINATES COSTLY REPLACEMENTS

Water waste, annoyance and flush valve replacements are eliminated thru the use of this 'Sexauer' precision tool. Rough, pitted, corroded or improperly-machined flush valve seats can now be reformed quickly and easily - and without removing the valve from the tank.

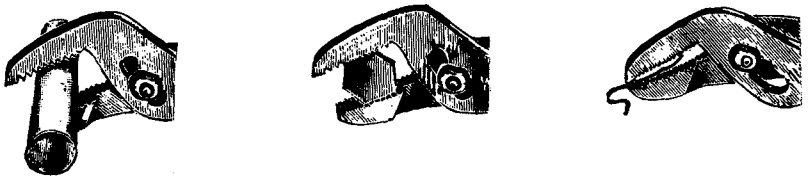
This precision tool, as with the Faucet Seat Reforming Tool shown above, is another "patented" and exclusive 'Sexauer' development. Designed to enable mechanics to make repairs that give long-lasting and trouble-free service, it eliminates costly comebacks and water waste as well as fixture replacements that are even more costly.

For more complete details of the value and importance of this Flush Valve Reforming Tool, turn to page 62.

'SEXAUER' WRENCHES INSURE EXPERT WORKMANSHIP

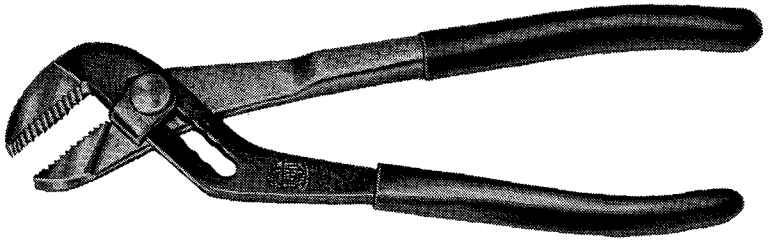
'SEXAUER' SNAPPY WRENCHES

Fitted with 'Sexauer' "Plia-Grips"

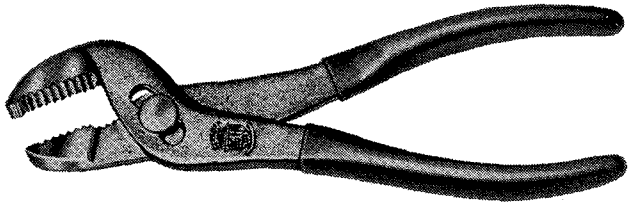


Quick, positive adjustments. Jaws open parallel and are milled with pipe wrench teeth. Will hold rod or pipe as firmly as a pipe wrench and grip square, hex or octagon nuts as securely as an end wrench.

Contoured handles equipped with "Plia-Grips" make these pliers easy as well as comfortable to use while holding jaws firmly in place.



Cat.No. 6517 10" Snappy Wrench (with teeth as illustrated)
Jaws adjust to 7 positions with maximum grip of 2"
Cat.No. 6518 10" Smooth Jaw Snappy Wrench (not illustrated)
Same as wrench illustrated above except that jaws have no teeth and thus will not mar or damage chrome plated nuts.

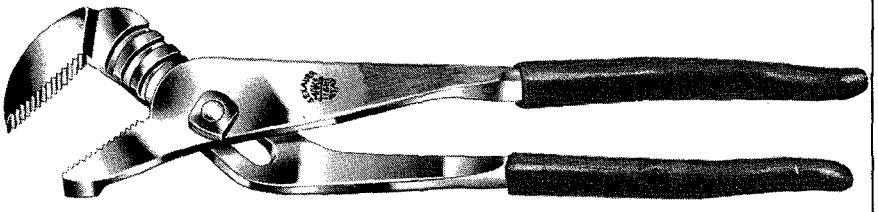


Cat.No. 6519 8" Snappy Wrench
Jaws adjust to 3 positions with maximum grip of 1¼"

"PLIA-GRIPS" FOR SNAPPY WRENCH HANDLES

Cat.No. 7798 No.1 Pair - for 8" Snappy Wrench
Cat.No. 7799 No.2 Pair - for 10" Snappy Wrench

'SEXAUER' 12" EASY-GRIP WRENCH



Cat.No. 6516 12" Easy-Grip Wrench
Jaws adjusts to 7 positions with maximum grip of 3"

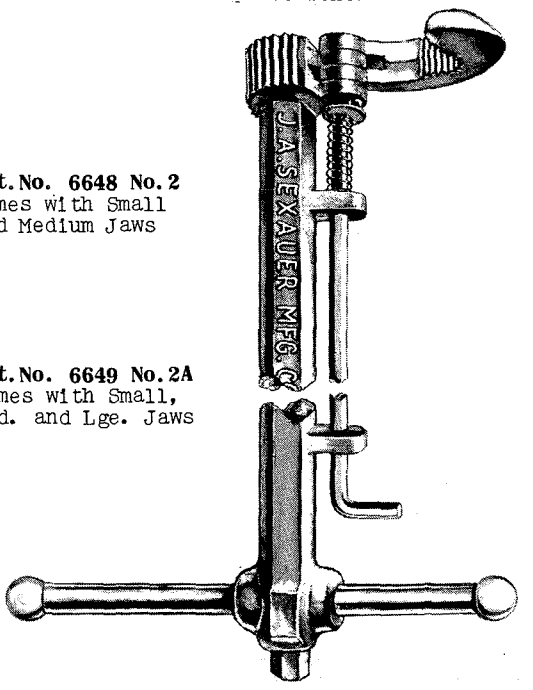
A "heavy duty" general purpose plier made of special alloy drop forged steel, expertly machined and chrome plated. The jaws are milled with deep, sharp teeth for positive tight gripping of any shape object. Contoured handles equipped with "Plia-Grips" make it easy to maintain a firm grip and provide maximum leverage. A handy tool for tight places where a pipe wrench cannot be used.

'SEXAUER' 14" BASIN WRENCH

Interchangeable Jaws permit gripping any size nut up to 2" Idispensible for use on basin or sink faucet couplings or any other inaccessible connections.

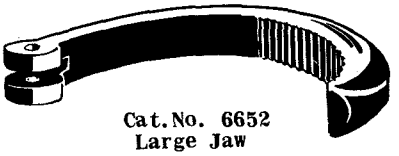
Cat.No. 6648 No.2
Comes with Small and Medium Jaws

Cat.No. 6649 No.2A
Comes with Small, Med. and Lge. Jaws



Cat.No. 6650
Small Jaw

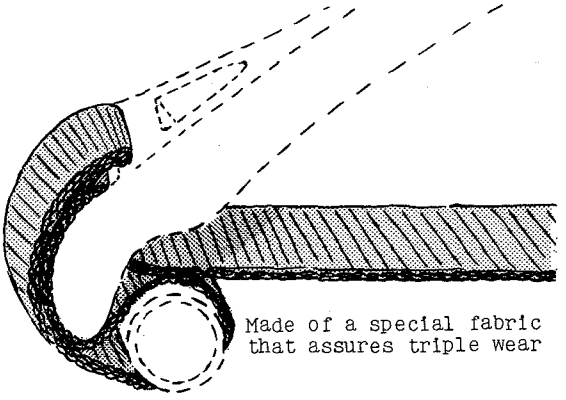
Cat.No. 6651
Medium Jaw



Cat.No. 6652
Large Jaw

'SEXAUER' TUBING WRENCH STRAPS

For various makes and styles of strap wrenches.

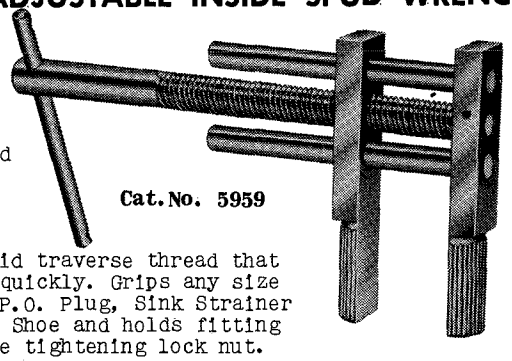


Made of a special fabric that assures triple wear

Cat.No. 6578 12" With Loop
Cat.No. 6579 18" With Loop
Cat.No. 6580 12" Without Loop
Cat.No. 6581 18" Without Loop

'SEXAUER' WRENCHES SAVE TIME, CUT LABOR COSTS

'SEXAUER' ADJUSTABLE INSIDE SPUD WRENCH



Made of Cadmium Plated Case Hardened Steel

Cat. No. 5959

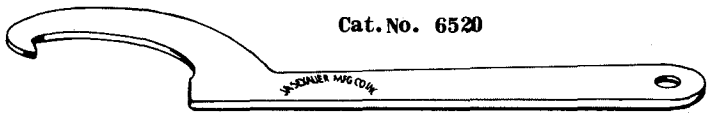
Shaft has rapid traverse thread that adjusts jaws quickly. Grips any size Closet Spud, P.O. Plug, Sink Strainer or Bath Waste Shoe and holds fitting securely while tightening lock nut.

'SEXAUER' 3-IN-1 OUTSIDE SPUD WRENCH

Cat. No. 5960

Malleable iron with alligator jaws that won't slip. A rugged tool designed to fit accurately on 1-1/4", 1-1/2" and 2" Closet Spud Nuts.

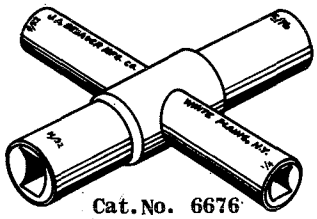
'SEXAUER' BASKET STRAINER WRENCH



Cat. No. 6520

This slender but strong wrench provides a sure grip on all types of basket strainer coupling nuts - which are too large and narrow for pliers or pipe wrench.

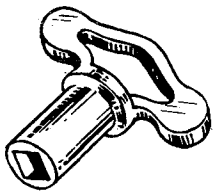
'SEXAUER' 4-IN-1 STOP COCK TOOL



Cat. No. 6676

C.P. Steel, accurately machined for the following sizes of stems: 1/4" - 9/32" - 5/16" - 11/32" Made to insure tool fitting inside of stop cock bonnet sleeve. Fits all popular make stop cocks.

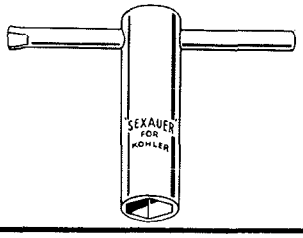
'SEXAUER' STOP COCK KEY



Cat. No. 6674

Fits 5/16" Stem

'SEXAUER' FAUCET WRENCHES

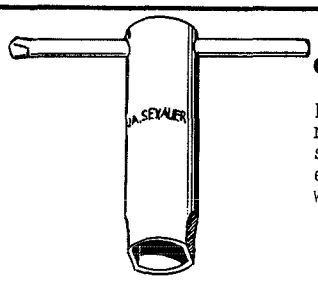


Cat. No. 7797 No. 1 Socket Wrench

For the bonnet nuts of Kohler and some other makes of bath and shower fixtures that are recessed in the wall so that a socket wrench is needed.

Cat. No. 7796 No. 2 Socket Wrench

For the bonnet nuts of American Standard and many other makes of bath and shower fixtures that are recessed in the wall so that a socket wrench is needed. Has 2 socket sizes: 1-1/32" - 1-9/32"



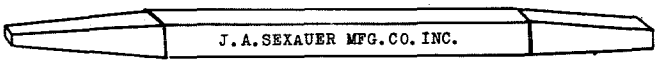
Cat. No. 7800 No. 3 Socket Wrench

For the specially shaped bonnet nuts of Kohler "Galaxy" bath and shower fixtures that are recessed in the wall so that a socket wrench is required.

'SEXAUER' REMOVABLE FAUCET SEAT WRENCHES

FOR REMOVING OLD SEATS AND INSTALLING NEW ONES

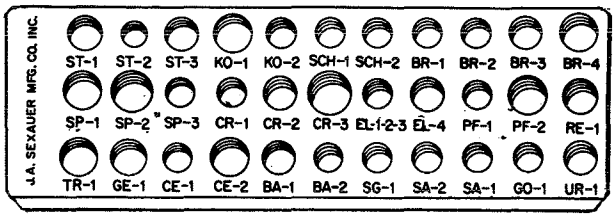
Cat. No. 7110 No. 1
For seats with Hex Broaching



Cat. No. 7111 No. 2
For seats with Square Broaching

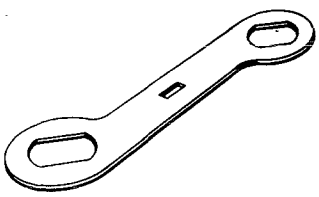
Cat. No. 7103 No. 3
For tall Eljer seats with Square Broaching

'SEXAUER' REMOVABLE FAUCET SEAT GAUGE



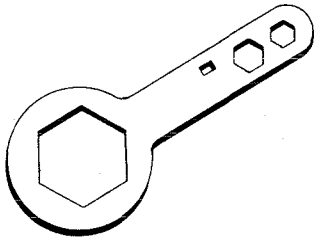
Cat. No. 7131

Saves endless time and trouble by providing a simple, easy means of checking worn, pitted, corroded faucet seats and quickly identifying the 'Sexauer' Removable Full-Saddle Seat that is required to replace it.



Cat. No. 5503
Crane "Dial-Ese" Wrench

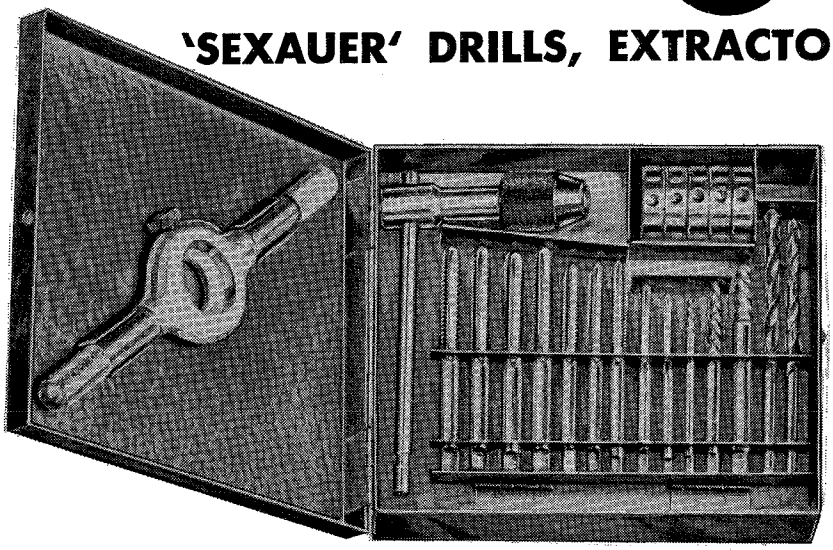
For repairing Crane "Dial-Ese" Faucets



Cat. No. 5357
Chicago Faucet Wrench

For repairing Chicago "Quaturn" Faucets

'SEXAUER' DRILLS, EXTRACTORS, TAPS AND DIES



'SEXAUER' DRILL, EXTRACT, TAP AND DIE SET

Cat.No. 6561 Complete as illustrated

*** Set contains all the individual items indicated by Star (*) in the listings shown to the right.**

Sturdy metal case has hinged rack for easy removal of correct tool for drilling, extracting, tapping or threading. It's an invaluable equipment for mechanics in making countless plumbing, electrical and mechanical repairs.

'Sexauer' Drills, Extractors, Taps and Dies are precision made of finest quality tool steel that insures expert workmanship and lasting service.

NOTE: All items listed may be ordered individually

TAP HANDLE & TAPS

- ***6551 Tap Handle Only**
- ***6552 1/4" x 20 Tap**
- ***6553 1/4" x 28 Tap**
- ***6554 1/4" x 32 Tap**
- ***6555 1/4" x 40 Tap**
- ***6562 6-32 Tap**
- ***6563 8-32 Tap**
- **6564 9-32 Tap**
- ***6565 10-32 Tap**
- ***6566 10-28 Tap**
- ***6567 10.24 Tap**

TWIST DRILLS

- ***6570 No.29 Drill**
- ***6571 No.25 Drill**

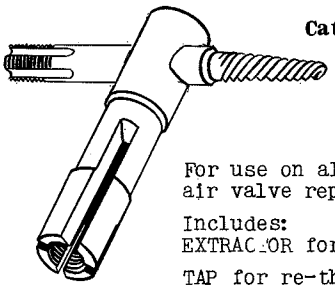
DIE STOCK & DIES

- ***6556 Die Stock Only**
- ***6557 1/4" x 20 Die**
- **6558 1/4" x 28 Die**
- **6559 1/4" x 32 Die**
- ***6560 1/4" x 40 Die**
- ***6510 6-32 Die**
- ***6511 8-32 Die**
- ***6512 10-24 Die**

SCREW EXTRACTORS

- ***6568 No.1 Extractor**
- ***6569 No.2 Extractor**
- ***6513 No.3 Extractor**

'SEXAUER' "3-IN-1" RADIATOR AIR VALVE TOOL



Cat.No. 6675

For use on all steam or hot water radiator air valve repairs.

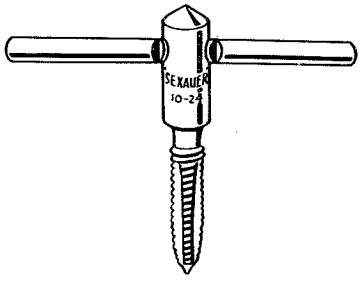
Includes:
EXTRACTOR for removing broken valve spuds.
TAP for re-threading the radiator tapping.
DIE for cutting new threads on valve spud.

'SEXAUER' "3-IN-1" REFILL TUBE EXTRACTOR

Cat.No. 5860

Provides an "Extractor" for easily removing broken-off refill tubes from ball cocks - a 1/4" x 40 Thread Tap for re-tapping damaged female threads in body of valve and 1/4" x 40 Thread Die for re-threading Refill Tubes.

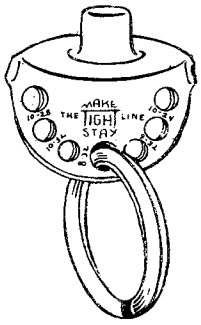
'SEXAUER' JIFFY FAUCET SCREW TAPS



Cat.No. 7161 No.1 10-24
Cat.No. 7101 No.2 8-32

For correcting faulty or damaged threads in faucet stems and for countless other uses when making plumbing and electrical repairs.

'SEXAUER' FAUCET SCREW GAUGE



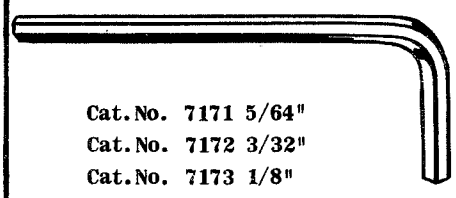
Cat.No. 5065

Determines both the thread and gauge of faucet screws.

A convenient 3-way pocket screw driver with many uses.

A "safety" key ring which, if lost, may be dropped by the finder into any mail box, then held by 'Sexauer' pending the owner's claim.

'SEXAUER' HEX SOCKET KEYS



Cat.No. 7171 5/64"
Cat.No. 7172 3/32"
Cat.No. 7173 1/8"
Cat.No. 7093 5/32"

Indispensible for removing and reinstalling all kinds of screws and bolts with Hex Socket heads on which screw drivers cannot be used. Made of top quality steel.

'SEXAUER' UNIVERSAL RECIPROCATING SAW BLADES

FIT ALL THE FOLLOWING POPULAR RECIPROCATING MACHINES

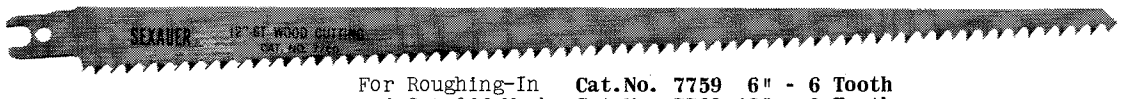
All Blades are Packaged 10 per box

Black & Decker
Ingersol Rand Super Saw
Key Hak
Malco
Millers Falls Super Saw
Milwaukee Sawzall
Portable Electric Tool
Portable Cable Multi-Saw
RCS Super Saw
Chief Saw
Skil Recipro
Stanley All Purpose
Tri-Saw

WOOD CUTTING BLADES

Cat.No. 7758 3-1/2" - 6 Tooth

For contour cutting. Has canted tang for faster, deeper cutting and a free return stroke.



For Roughing-In and Cut-Off Work **Cat.No. 7759 6" - 6 Tooth**
Cat.No. 7760 12" - 6 Tooth

GENERAL PURPOSE BLADES

Cat.No. 7761 3-1/2" - 6 Tooth

For rough wood-cutting with nails

Cat.No. 7750 6" - 6 Tooth

Cat.No. 7763 3-1/2" - 10 Tooth

For wood with nails & thin plywood, and 9-gauge or heavier non-ferrous material

Cat.No. 7765 6" - 10 Tooth

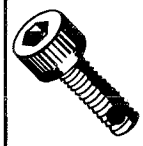
Cat.No. 7748 3-1/2" - 18 Tooth

Cat.No. 7751 6" - 18 Tooth

For wood with nails and softer metals of 11-gauge or heavier.

Cat.No. 7749 3-1/2" - 24 Tooth

For wood with nails and sheets or tubing from 12 to 16 gauge.

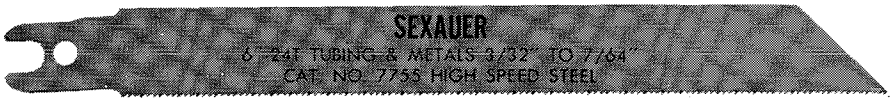


RECIPROCATING SAW "SELF-LOCKING" SCREW
Cat.No. 7801 1/2" x 10-32
"Self-Locking" feature prevents screw working loose in spite of the vibration of the saw.

HIGH SPEED STEEL BLADES

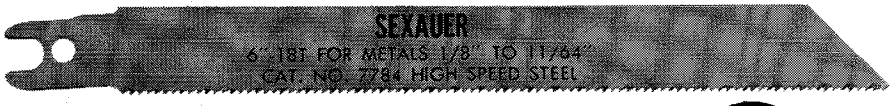
FOR METAL AND OTHER MATERIALS THAT CAN BE CUT WITH A HACK SAW

Cat.No.
7792 3-1/2" - 14 Tooth Tubing & Metals
7783 6" - 14 Tooth of 3/16" and up



Cat.No. 7753 2-1/2" - 24 Tooth
Cat.No. 7778 3-1/2" - 24 Tooth
Cat.No. 7755 6" - 24 Tooth

For Tubing and Metals from 3/32" to 7/64"

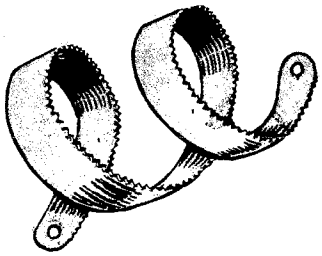


Cat.No. 7752 2-1/2" - 18 Tooth
Cat.No. 7777 3-1/2" - 18 Tooth
Cat.No. 7784 6" - 18 Tooth

For Tubing and Metals from 1/8" to 11/64"

Cat.No.
7754 2-1/2" - 32 Tooth Tubing & Metals
7779 3-1/2" - 32 Tooth 1/16" to 5/64"

'SEXAUER' SAWS CUT WORK AND FATIGUE IN HALF



'Sexauer' 24-Tooth and 32-Tooth Hack Saw Blades are made with a special UNDULATED WAVE SET adapted for cutting the types of metal for which they are designed. It prevents pinching, binding, overheating, stripping of teeth and breakage. Each one is tested for temper, insuring uniformity.

'Sexauer' 18-Tooth Hack Saw Blades have Raker Set teeth which are made with the first tooth straight, second tooth bent to the left and third tooth bent right etc., etc. The bent teeth govern the width of the cut, while the straight teeth "rake" the cut of chips.

Every 'Sexauer' "Hack Saw" Blade has this super-flexibility which withstands the shocks and strain of severe service.

USE 32-TOOTH BLADES
For Tubing, Thin Sheet Metal, Box Cable

USE 24-TOOTH BLADES
For Iron Pipe, Brass Pipe, Conduit, etc.

USE 18-TOOTH BLADES
For ordinary Steel and other heavy cutting.

'SEXAUER' "MAGIC" NO-PINCH HACK SAW BLADES

For tubing, iron or brass pipe, conduit, ordinary steel or other metal alloys

Cat.No. 6425 10" 32-Tooth
Cat.No. 6426 10" 24-Tooth
Cat.No. 6427 10" 18-Tooth

Cat.No. 6428 12" 32-Tooth
Cat.No. 6429 12" 24-Tooth
Cat.No. 6430 12" 18-Tooth

'SEXAUER' MOLYBDENUM "HI-SPEED" HACK SAW BLADES

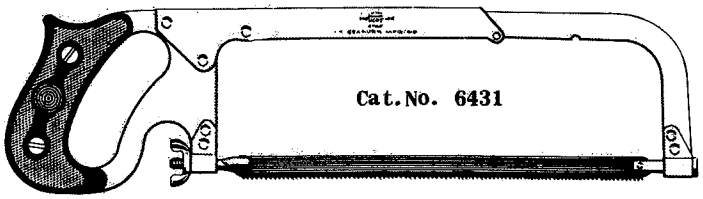
For high speed cutting of exceptionally hard steel or other extra-hard metals.

Cat.No. 7771 10" 32-Tooth
Cat.No. 7772 10" 24-Tooth
Cat.No. 7773 10" 18-Tooth

Cat.No. 7774 12" 32-Tooth
Cat.No. 7775 12" 24-Tooth
Cat.No. 7776 12" 18-Tooth

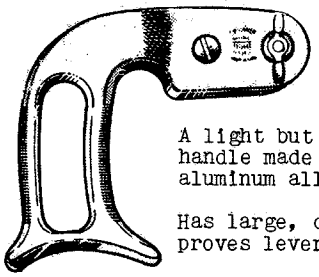
Packaged 10 Blades to a Bundle - 10 Bundles (100 Blades) to a box

'SEXAUER' PISTOL-GRIP HACK SAW FRAME



A sturdy adjustable frame built for exceptional service. Accomodates both 10" and 12" blades. Is adjustable for side-cutting if required. Handle is designed to protect knuckles, and "hand-contoured" to provide a comfortable grip. Hung low to direct the entire force of the stroke on a direct line with cutting edge of the blade. Holds blade firmly and properly aligned for fast, easy cutting.

'SEXAUER' ALUMINUM COMPASS SAW HANDLE



Cat.No. 6435

A light but virtually indestructible handle made of a special drop forged aluminum alloy as tough as steel.

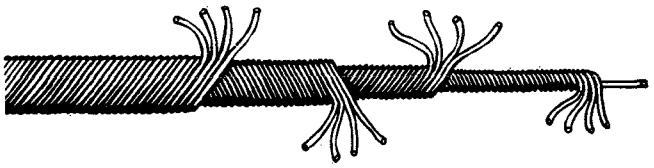
Has large, comfortable grip that improves leverage and protects hand.

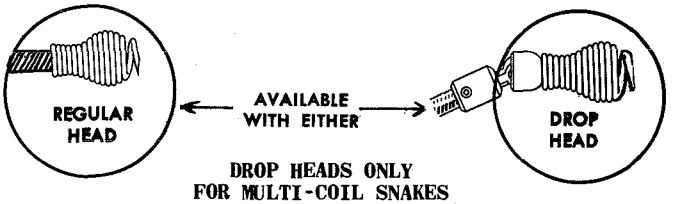
'SEXAUER' COMPASS SAW BLADES

Cat.No. 6432 10"
Cat.No. 6433 12"

Made of Silver Steel, thoroughly hardened and tempered. Extra-heavy for extra-hard work. Specially milled teeth are wide set to prevent clogging; will cut thru plaster or nails; can be re-sharpened. Back of blade is tapered to prevent binding and ensure fast, easy cutting. Blade is slotted, making it adaptable to almost any handle and, as a safety factor, also has a hole for the handle bolt so that it cannot possibly pull out of the handle.

'SEXAUER' MULTI-COIL SNAKES





1/4" Snake has 17 wires

5/16" Snake has 17 wires

3/8" Snake has 21 wires

1/2" Snake has 25 wires

'Sexauer' MULTI-COIL Snakes are made of the finest tempered steel wire obtainable. The illustration above shows the method of MULTI-COIL construction which gives the snakes tremendous strength. They are built to withstand far more severe usage and to give far better service than snakes made with ordinary single-strand wire construction.

DROP HEADS ONLY FOR MULTI-COIL SNAKES

Cat.No. 7832 For 1/4"
Cat.No. 7833 For 3/8"
Cat.No. 7844 For 1/2"

MULTI-COIL SNAKES WITH DROP HEADS	MULTI-COIL SNAKES WITH REGULAR HEAD

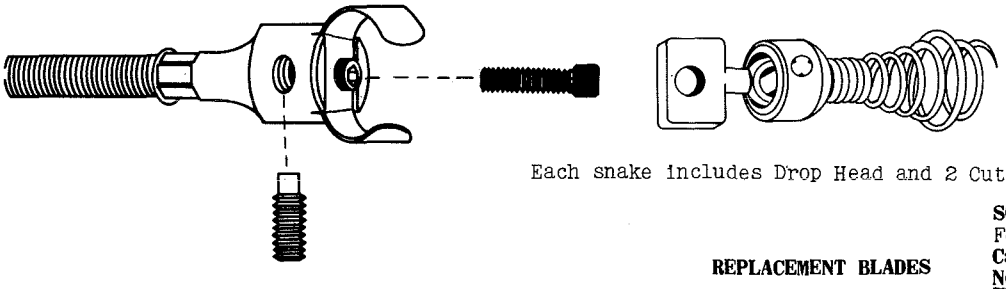
MULTI-COIL SNAKES WITH "2-IN-1" TIP, INTERCHANGEABLE DROP HEAD & CUTTER BLADES



Each snake includes Drop Head and 2 Cutter Blades.

The "2-IN-1" Tips of these 'Sexauer' Multi-Coil Snakes are designed for attaching either of the types of heads that are furnished with them. It takes only seconds to change the heads, so that the best type for each job is always available when needed. Thus ONE snake takes the place of the two kinds that would otherwise be needed to provide the proper type of snake head to assure clearing various kinds of stoppages quickly and as easily and efficiently as possible.

"2-IN-1" TIP SNAKES Cat. No.	
7861	5/16" x 15 ft.
7862	5/16" x 25 ft.
7863	5/16" x 35 ft.
6590	1/2" x 50 ft.
6591	1/2" x 75 ft.

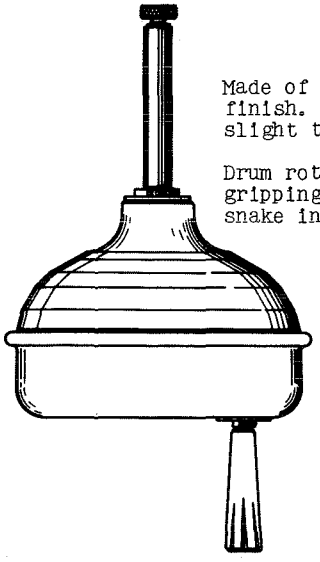
'SEXAUER' HAND SNAKE CONTAINERS



Made of heavy gauge sheet steel with an aluminum finish. Have a sturdy chuck that requires only a slight turn to tighten or loosen grip on snake.

Drum rotates on swivel as handle is turned while gripping the shaft with other hand to guide the snake into waste line and thru the stoppage.

Cat.No. 6598 No.1
Accommodates 1/4" Snakes up to 30 ft.

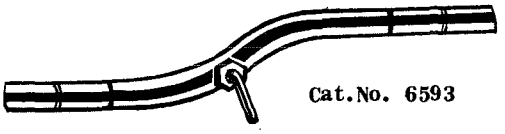
Cat.No. 6548 No.2
Accommodates 5/16" Snakes up to 25 ft.

PARTS FOR HAND SNAKE CONTAINERS

Cat.No. For No.1 Snake Container
7851 No.1 Shaft & Chuck Assembly
7852 No.1 Knurled Chuck & Collet

For No.2 Snake Container
7872 No.2 Shaft & Chuck Assembly
7873 No.2 Knurled Chuck & Collet

'SEXAUER' ROTARY SNAKE HANDLE



Cat.No. 6593

For 1/4" to 1/2" snake

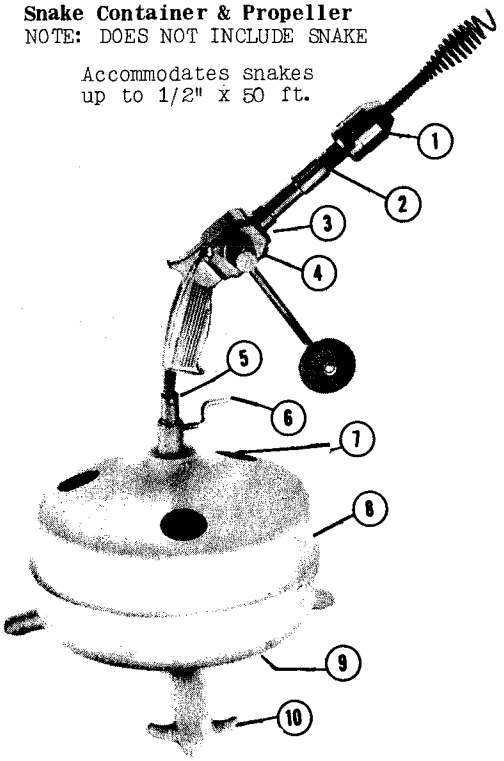
Swivelled at both ends for easy turning. Set Screw grips snake firmly; is easily loosened.

'SEXAUER' PROPELLER-DRIVEN ROTARY SNAKE CONTAINER

DESIGNED FOR ONE MAN OPERATION — PREVENTS KINKS AND BACKLASHING — INCREASES THE LIFE OF SNAKES

Cat.No. 6599
Snake Container & Propeller
NOTE: DOES NOT INCLUDE SNAKE

Accommodates snakes up to 1/2" x 50 ft.



1- JACOBS CHUCK insures positive grip on snakes from 1/4" to 1/2"

2- FEEDER SLEEVE, Stainless Steel.

3- PROPELLER BODY is made of an UNBREAKABLE pressure cast alloy.

4- FULLY ENCLOSED GEARS made of UNBREAKABLE pressure cast alloy factory lubricated for smooth, easy operation and long life.

5- SPOUT AND COLLAR of seamless steel tubing securely brazed to the container.

6- IDLE-LOCKING SET SCREW locks propeller to spout when snake is fully depressed, so that entire equipment can be picked up and carried as one unit.

7- THREE VENT HOLES for airing and quick cleaning of the snake without removing from container.

8- CONTAINER made of heavy sheet metal, hammered aluminum finish inside and out to resist rust.

9- RADIAL BALL BEARING MOUNTING for smooth, noiseless rotation.

10- CARRYING GRIP for easy and convenient handling.

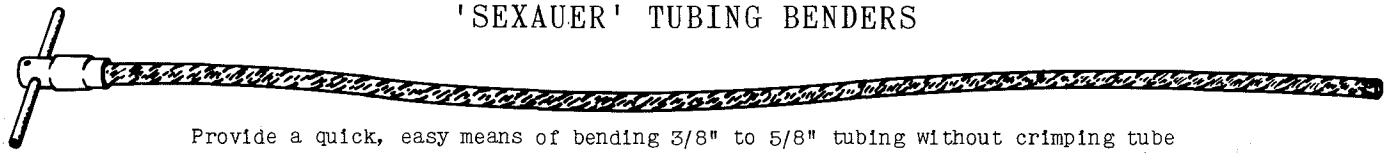
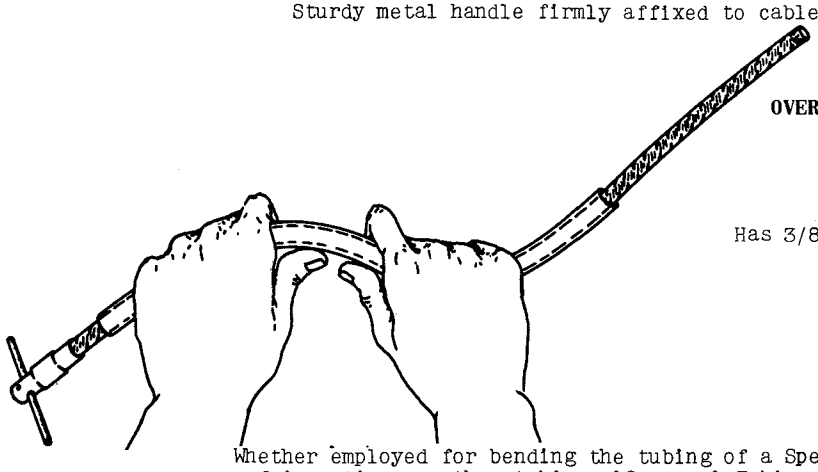
'SEXAUER' TUBING BENDERS



Provide a quick, easy means of bending 3/8" to 5/8" tubing without crimping tube
Save time and trouble in installing or repairing plumbing fixtures, refrigeration etc.
Multi-coil cable flexes readily and insures long-lasting, trouble-free service
Sturdy metal handle firmly affixed to cable makes tool easy to operate



OVER-ALL LENGTH 18-1/2" - FLEXIBLE CABLE LENGTH 17"

Cat.No. 6289 No. 1
Has 9/32" O.D. cable - for 3/8" tubing

Cat.No. 7683 No. 2
Has 3/8" O.D. cable - for 1/2" tubing used on West Coast

Cat.No. 6290 No. 3
Has 15/32" O.D. cable - for 5/8" tubing, sometimes called 1/2" tubing in East

Whether employed for bending the tubing of a Speedy Connection, Flexible Supply, refrigeration or other tubing, 'Sexauer' Tubing Benders are EASY TO USE.

Simply insert proper size Tubing Bender in tube well beyond the point or points at which tubing must be bent - make desired bend or offset - then withdraw tool.

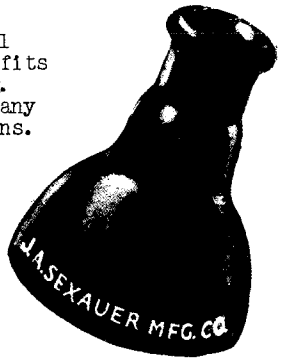
NOTE: If an unusually sharp bend is made, tool can be withdrawn more easily by turning the handle while pulling out the cable.

'SEXAUER' FORCE CUPS

4" FORCE CUP

Cat. No. 6603

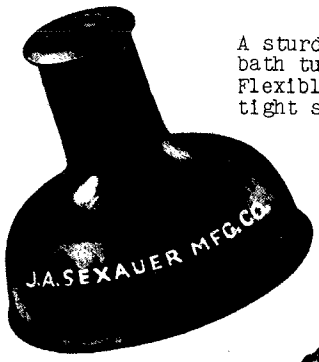
Works perfectly on 4" soil pipe or traps because it fits snugly inside the opening. Just the right size for many toilet bowls and for basins.



4⅝" FORCE CUP

Cat. No. 6604

A sturdy cup for the average basin, bath tub, sink or laundry tub drain. Flexible lip and resiliency insure a tight seal and maximum pressure.



6" BULL DOG FORCE CUP

Cat. No. 6606

A heavy duty cup that develops a terrific pressure. Ideal for sinks and floor drains that require a large size. A rugged tool with just the right flexibility to do an efficient job and give lasting service.

'Sexauer' Force Cups are scientifically designed to develop maximum pressure and suction to dislodge stoppage and to keep drains free-flowing. Made of a special rubber compound, specially treated to prevent oxidation, they have a proper degree of flexibility yet give lasting service even when given the hardest kind of use.

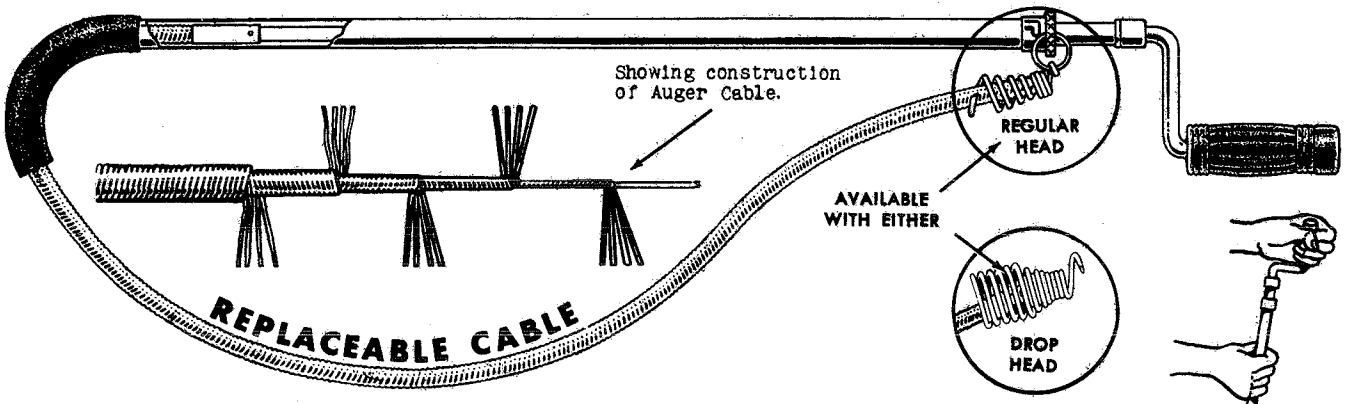
TOILET BOWL FORCE CUP

Cat. No. 6607

Flexible rounded bottom forms perfect seal on any toilet bowl regardless of shape - thus develops tremendous pressure to free stoppage and prevent back-splash.

ALL CUPS EQUIPPED WITH 24" THREADED HANDLE

'SEXAUER' MULTI-COIL CLOSET AUGER



Cable is made of 21 separate wires woven into a solid making it many times stronger than any single-strand coil, and thus has far greater resistance to kinking.

Cable is easily replaced when necessary --- a feature which greatly reduces auger replacement costs.

The sturdy two-way tip grabs either way, making it more positive in hooking and removing obstructions.

Telescopic inner shell makes the auger stronger and more compact. Rubber sleeve on end protects fixture.

Cable is 3/8" in diameter and 3 feet in length.

CLOSET AUGER COMPLETE

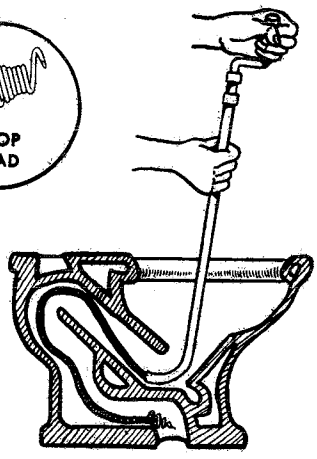
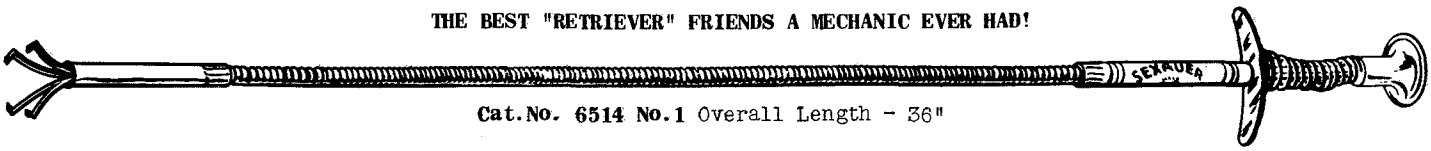
DROP HEAD FOR CLOSET AUGER
Cat. No. 7846



'SEXAUER' MECHANICAL FINGERS

THE BEST "RETRIEVER" FRIENDS A MECHANIC EVER HAD!



Cat.No. 6514 No.1 Overall Length - 36"

'Sexauer' Mechanical Fingers provide a quick, easy means of retrieving any object accidentally dropped down a plumbing fixture drain or in any other inaccessible place where it cannot be reached either by hand or a makeshift device. They seek and retrieve even hidden objects with almost the "feel" of a real hand.

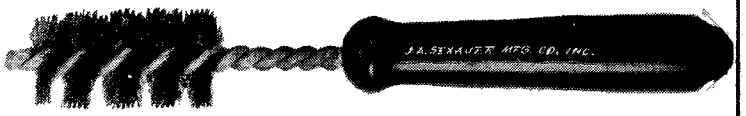
The slender flexible shaft permits the tool to be bent readily in any direction. The four retractible fingers will grasp any object, no matter how small, so that it can easily be withdrawn, even around bends in toilet bows, traps or piping.

They are also handy for getting nuts, bolts and screws started in tight places

Cat.No. 6537 No.3 Overall Length - 11 1/2"

The No.3 Mechanical Finger actually has the same size handle, shaft and fingers as the No.1 and is merely shorter in length. It is particularly handy on faucet repairs where a screw or washer has dropped off the stem into the faucet body.

'SEXAUER' COPPER TUBE CLEANING BRUSHES



The bristles are made from crimped steel, corrosive-resistant spring wire tightly bound in a spiral steel shaft. The round wooden handle is firmly fastened to the shaft, comfortable to grip, assures easy turning.

Cat.No.	Size	Fitting Size
6855	1/4"	3/8" O.D.

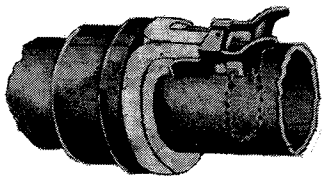
Packaged 144, 72 and 36

'SEXAUER' ASBESTOS LEAD JOINT RUNNERS

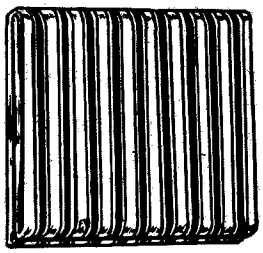
Made of high grade Asbestos Yarn, two braids over a firmly twisted asbestos core and squared to the proper size. Has an unbreakable clamp with strong spring to hold snake firmly in place.

For soil, water or gas lines and bell pipe of any description.



Cat.No. 6869 No.1 Fits 2", 3" and 4" pipe
Cat.No. 6870 No.2 Fits 4", 5" and 6" pipe

'SEXAUER' WIPING CLOTHS



Formed from the finest herringbone ticking folded to 16 thickness and securely loop-tied to prevent the possibility of opening up.

They are thoroughly impregnated with a special lubricant to eliminate the task of "breaking in", and to keep them soft and pliable.

6455	#2 Trimo	1-3/64"	3/4"	11/32"
6461	#3 Trimo	1-1/4"	7/8"	11/32"

Packaged 24, 12 and 6

When Cutter Rollers become worn and grooved from normal wear or because of a worn pin, it is bound to reduce both the cutting efficiency and life of the Cutter Wheel. It is therefore advisable to check and replace worn Rollers and Pins wherever new Cutter Wheels are installed.

SOIL PIPE CUTTERS

6499	Ellis & Ford	1-5/16"	5/8"	7/16"
6501	#1 JRS-Talon	1-3/16"	5/16"	5/16"
6501	#2 JRS-Talon	1-3/16"	5/16"	5/16"
7788	#1&2 Rigid	7/8"	3/4"	11/32"

Also fits #1&2 Trimo and #2 Pipe Master

FOR CAST IRON PIPE CUTTERS

*6500	Ellis & Ford	7/16"	2"
6502	#1 JRS-Talon	5/16"	1-1/8"
6502	#2 JRS-Talon	5/16"	1-1/8"
*6509	#1&2 Rigid	11/32"	1-25/32"

TUBING CUTTERS

7790	Imperial	19/32"	1/8"	3/16"
6497	#0-000 Rigid	3/4"	1/4"	3/16"
7802	#30&40 Rigid	1-3/32"	7/16"	5/16"

Packaged 24, 12 and 6

Each 'Sexauer' Cutter Wheel receives a 2-way test - one for over-hardness and another for under-hardness which insures absolute uniformity in their quality, assures the utmost cutting efficiency and long-lasting service.

FOR TUBING CUTTERS

#7791	Imperial	3/16"	7/16"
*6498	#0-000 Rigid	3/16"	57/64"
#7803	#30&40 Rigid	5/16"	1-1/16"

Packaged 24, 12 and 6

Nothing ruins a Cutter Wheel as quickly as a worn Pin. It throws the wheel off center, forces it to cut at an off angle and thus greatly reduces both the cutting efficiency and life of the wheel.

NOTE!

The Handy Reference Chart on the adjoining page shows the various makes and models of cutters that each size 'Sexauer' Cutter Wheel will fit properly.

The chart and dimensions on this page makes it easy to select the correct 'Sexauer' Wheels as well as corresponding Pins or Rollers for the makes of cutters you use.

Wheels, Pins and Rollers should be ordered by the 'SEXAUER' NAME AND NUMBER as shown on the chart and as listed on this page - NOT by the Manufacturer's Model No. of a cutter they will fit and on which they are to be used.

TERMS AND CONDITIONS OF SALE AND SHIPMENT	Inside Front Cover
PRICES OF ALL ITEMS BY THEIR CATALOG NUMBER	Pages 1 to 13

COPYRIGHT © 1970 J. A. SEXAUER MFG. CO., INC.

TERMS & CONDITIONS OF SALE

All orders subject to acceptance by

J. A. Sexauer Mfg. Co., Inc.

TERMS

MINIMUM ORDER INVOICE: $5.00

2% Discount 10th of following month - Net end of following month.

Invoices not paid according to terms are subject to MONTHLY SERVICE CHARGES of 1% per month (which is an ANNUAL PERCENTAGE RATE OF 12%).

DELIVERY

Shipments are normally made via cheapest route. Delivery is contingent on government regulations, strikes and other circumstances beyond our control.

Orders "UNDER $25.00" are shipped F.O.B. White Plains, N. Y.

Orders of "$25.00 OR MORE" are prepaid to destination within Continental United States. EXCEPTION: Orders including "Mule-Kick" Cleaners other than Enzyme Mixture --- or "Heat-Pep" Boiler Compound, must be shipped via freight and must total at least 160 lbs. to be prepaid. (SEE NOTATION AT BOTTOM OF PAGE 4 REGARDING SUCH ORDERS)

CLAIMS, DEFECTS & DAMAGE

Claims for shortages must be made within 10 days after receipt of shipment.

Items defective in manufacture will be replaced without charge.

No claims for labor or consequential damage will be allowed.

RETURNS

No returns permitted without our written consent nor after 120 days from date of invoice.

When orders have been correctly filled, and unless defective material is involved, RETURNS ARE SUBJECT TO A 10% HANDLING CHARGE.

PRICES & TAXES

Prices and discounts are subject to change without notice. Unless otherwise agreed, all orders are accepted on the basis of prices prevailing at the time of shipment.

All local, state, federal or special taxes (including sales and use taxes) now or hereafter imposed, shall be paid by the buyer -- unless an exemption certificate is on file with "Sexauer"

HOW TO ORDER

To avoid errors in shipments, orders should have both Catalog Number and Description of each item as listed in catalog. Please conform to standard package quantities indicated in catalog.

We Welcome Your Suggestions

We will appreciate any suggestions you have to offer on design change, material change etc. that you feel would enhance the value of any 'Sexauer' materials in meeting your requirements.

IMPORTANT NOTICE REGARDING ITEMS MARKED WITH A STAR (*) ON THIS PAGE AND ALSO ON PAGES 5 AND 10 --- WHICH INCLUDE THE FOLLOWING PRODUCTS.

"Mule-Kick" Cleaners - "Heat-Pep" Boiler Compounds

Due to the nature of the products, orders that include any of the above items must be shipped **VIA FREIGHT and IN CASE LOT QUANTITIES.**

To be shipped **"PREPAID,"** such orders must total at least 160 lbs; otherwise they will be shipped **F.O.B. WHITE PLAINS, N.Y.** and the "minimum freight charge" to destination added to the invoice.

Case Lot Quantities of any or all of the items involved may be assorted to make 160 lbs. for a "prepaid shipment". The Case Lot Weights shown with the price listings make it easy to do so - and the "lowest" Quantity Price shown for each item involved will apply. This affords "substantial savings" in the cost of the material, in addition to saving the freight charge.

The items listed to the right may also be included, along with the above, in making up a "prepaid" Freight Shipment. If any of them are included, the lowest price for each will apply and it is shown in the listing along with the shipping weight.
