SUBJECT PLASTICIZER APPLICATION TRAINING

REFERENCE AV - 67 - 78

TO MR. J. DARBY,
ST. LOUIS, MO.

CC: MR. E.H. TOOMBS
MR. A.J. PARENT
MR. H. JONGSMA
MR. R.E. BILGER- ST. LOUIS
MR. W.T. WITTER

This is to confirm our telephone conversation of March 15th, regarding the training of a MoCan technical person in plasticizer application work.

The person selected is Mr. Henry Jongsma, a chemist with 13 years of experience. He has been working under Mr. J. Keleti on plasticizer and PVC application for $1\frac{1}{2}$ years.

Effective March 1st, plasticizers and chemicals Marketing Technical Service (MTS) work is carried out by Mr. A. Parent's group thus additional training is necessary.

Considering that Mr. Parent, Mr. H. Jongsma and myself have been "plasticized" to a varying degree, we feel that Mr. Jongsma could be trained under your direction in your laboratories in 2 - 3 weeks and be in a position to give great satisfaction to MoCan Marketing.

You have raised the question of the cost of training Mr. H. Jongsma, estimated to be $50. per day. We agree to pay this cost if absolutely necessary. Since Henry may be in a position to assist you in certain projects at the same time you are training him, we hope the cost may be decreased to $25. per day. Your suggested starting date of April 10th is acceptable to us. Please confirm the date so that we may plan accordingly.
